School lunch triggers debate

BY DAN BODENE

There was a lot of discussion Monday night about food service in the Plymouth-Canton school district, but most of it seemed to be a comparison of apples and oranges.

By the end of the night, even Executive Director of Finance Dan White conceded that more comparable sets of data were needed.

The agenda for the food service workshop began with a review of Interstate United Corp. of Michigan's progress for the 1981-82 school year. Jack Driscoll Interstate vice president for the Michigan region, cited the impact of state's economic climate for the lack of a break-even year for the food service program. The Interstate report noted declining state reimbursement, reduced meal participation and the cost of labor as contributing factors.

Jack Chandler, Interstate's food service director for the school district, said although the program has sustained losses throughout the school year, a profit was projected for May. Trustee Tom Yack questioned whether Interstate was able to reconcile labor costs with declining participation, and was told by Chandler that it would not be possible without help.

The Interstate report projected a year-end loss of \$61,624 if an anticipated state reimbursement of \$13,000 is included. Although \$60,000 was lost for the year through February, Interstate projects a loss of only \$1,536 for March through August.

Interstate officials reported that concentrated action planning was being made in elementary choice menus, promotion, ala carte sales, participation records analysis and labor reductions.

School board members then heard a presentation by members of the Plymouth-Canton Cafeteria Association (MESPA Local no. 2) for their proposal of an in-house food service program.

Trav Griffin, MESPA Local no. 2 representative, said food service companies have been unable to meet break-even food service cost projections for the past four years. "We think the board should take a look at a more quality program of offer versus serve," he said. "There has to be another way, than cutting personnel and satelliting elementary schools."

Ruth Strebbling, president of the cafeteria association, presented a study of South Lyon, Northville, Huron Valley-Milford and Rochester districts' food service programs. She said their programs were all based on in-house managers and did not operate with a management company. "The most important part is that these schools are making money," she said.

The cafeteria association report noted several components for a successful food service program, including excellent public relations, controlled menu planning and high staff morale. The report included menu comparisons, examples of food and lunch prices and a South Lyon cafeteria labor chart.

Griffin said that specific information on labor hours spent for each meal was unavailable. "I talked to Barbara Wilson of the Wayne County Intermediate District and was told by her that (such figures) are unrealistic because of differences in each kitchen, length of lunch hours, the number of lunch hours in schools, menu differences and accounting practices," he said.

Strebbling added that although specific cost per meal figures were unavailable, she did witness one menu in South Lyon that apparently fed 150 students for \$12.

The last segment of the workshop was a presentation on the Interstate food service proposal for 1982-83.

Chandler said one of the goals of Interstate for the 1981-82 year was to reduce food cost, a goal he said the company has met through its national buying power.

White said the Plymouth-Canton district may be able to also save on food costs by purchasing through a Wayne County schools consortium, although such purchases were strictly on price and did not take into account actual food yields.

Chandler said Interstate was "just getting to the point now where we have learned the district, can analyze the data

14-year-old arraigned in District Court for school vandalism

A 14-year-old Plymouth youth was arraigned in 35th District Court Monday on charges of destruction of property in the June 5 vandalism of Starkweather School.

The defendant pleaded guilty before Judge James Garber and was given a \$50 fine, one year's probation and orders to make full restitution for the damage. As of yesterday, no arrangements for restitution had been made.

According to Dick Egli, administrative assistant for community relations, preliminary figures indicate the cost of repair to the school could run as high as \$11,000.

Two other suspects were questioned and released to the custody of their parents last week, but charges have not been filed.

Plymouth gears up for July 4 celebration

The Plymouth Jaycees are ready to roll with the big July Fourth extravaganza celebrating the nation's birthday.

Sunday July Fourth will be filled with events for all ages.

Main attractions will be the Five-Mile run sponsored by Spartan Stores and Sportsventure. This year the race will be run over a different course. It will start at 8:30 a.m. in the Central Parking Lot off Harvey and Penniman and be run through Edward Hines Park and finish at Kellogg Park.

At noon the Plymouth Jaycettes will have their bike decorating contest at the Kroger parking lot on Main Street.

Beginning at 12:30 p.m. will be the Plymouth Rock dedication between the

Plymouth City Hall and Dunning-Hough Library.

Then comes the big event, the Fourth of July parade. Set to step off at 1 p.m., musical units, veterans groups, floats, youth groups, clowns, antique cars, horses and bicyclists.

Parade Marshal will be Mary Childs, former mayor.

After the parade the antique cars will be on display at Kellogg park from 2 p.m. to 4 p.m.

The day will wind up Sunday night with the traditional fireworks display over Massey Field on Plymouth Road near Haggerty Road. The fireworks display costs will be footed by Budweiser Beer. The fireworks will be touched off at dusk.

Smith Elementary volunteers honored at salad luncheon

Smith Elementary School had its annual Teacher-Volunteer luncheon Friday in the school multi-purpose room.

The potluck was put on by the room mothers and was chaired by Carolyn Penland and Nola Schlachter. It is held each year to honor the teachers, PFO Board and room mothers.

Mrs. George Smith, widow of the person for whom the school was named, and her

sister-in-law, Mrs. Celia R. Smith, attended the luncheon.

A book written by Mrs. Bertha Peterson about the history of the school was presented to Mrs. Smith and a gift was presented to Mrs. Phillips, a Smith teacher who is retiring.

Certificates of appreciation were given to the room mothers for their services during the year.

Canton senior citizens plan Cherry Festival trip

Canton Senior Citizens groups are putting together a trip to the Traverse City Cherry Festival for July 9 and 10.

Those making the trip will see the Cherry Festival parade, tour Old Mission, Chateau Grand Traverse Winery, Old Mission Light House, Bowers Harbor and the West Bay waterfront where Traverse City began in the logging days.

The round-trip transportation via motor coach will include a night's lodging at

Sugar Loaf Mountain resort, baggage handling, the sight seeing trip, a seat for the parade and a performance at the Cherry House Theatre.

The cost of the trip is \$89 based on double occupancy.

Registration must be made in person at the Recreation Center, 44237 Michigan Ave. or call Louise at 397-1000, ext. 278 for further information.

Last day for registration is June 25.

Fall Festival committee seeking dinner sponsor

Carl Glass, Plymouth Fall Festival manager, is looking for a Plymouth organization to handle the Thursday night dinner on the opening night of the September extravaganza.

The Plymouth Colonial Kiwanis Club which had filled the Thursday night dinner spot, has decided not to take on the chore this year.

Glass said, "The opening night of the festival is more important than ever this year because there will be a special opening ceremony, entertainment and preview of the booths.

The community group applying for the Thursday night dinner opening will be the first to be housed under the new all-purpose structure being constructed over the parking

lot between the Penn Theatre and Masonic Temple.

Thursday night of Fall Festival is a popular night with Plymouth people.

Any non-profit Plymouth organization interested in taking over the Thursday night dinner should contact Glass at PO Box 177, Plymouth.

Glass said that community response to participation in the 1982 Fall Festival is "tremendous."

The Festival Board is now in the process of reviewing the applications and will reach a final tally at the board meeting of July 7.

Many groups will be offering new items as well as the popular festival favorites, Glass said.

Candidates for several August primary races were required to file for office last Tuesday, and had until Friday to withdraw from certain races. The following is a complete and corrected list of candidates who have filed for offices which will appear on the August primary ballot in voting places located in The Plymouth-Canton Community.

WSDP returns to air with summer schedule

After having gone off the air for one week, WSDP will resume broadcasting on Wednesday, June 23.

The summer broadcast time will be from 9 a.m. to 5 p.m. every Monday through Friday, continuing through Aug. 4.

"Although somewhat shortened, the new summer schedule will provide listeners with a variety of music they have come to expect

when tuning in 88.1 FM," said Pam Pavliscak, WSDP program director.

In the mornings from 9 a.m. to noon music will feature the mellow, easy listening sound. From noon to 2:30 p.m. jazz will be featured, followed by a half hour of news and then two hours of contemporary music will conclude the day.

Plymouth attorney escapes Buhl Building shootout and fire

Attorney David T. Rogers probably didn't go into law because he liked to live dangerously. But he certainly defied death last Friday, June 11.

As a partner in the law firm of Garrett and Rogers, he has an office on the eighth floor of the Buhl Building in downtown Detroit, at the corner of Griswold and Congress. Shortly before noon, according to police, Robert Harrington, a client of the neighboring law firm of Bell and Hudson grew agitated over a delay in receiving a settlement check. As a search was made for the check, according to witnesses, Harrington became irrational and began randomly firing at office workers with a shotgun as he set off a fire bomb. He then fled out a side door, witnesses said.

Rogers' office door is directly opposite that side door and as he walked out of his office to investigate the shots, he realized he was caught in cross-fire between Harrington and a security guard. "Four others were already on their way down the stairwell when I left my office," Rogers said in a telephone interview from his home in Plymouth, "I hit the floor and crawled around the corner."

He came face-to-face with a locked glass door.

"I had no way to get out of there, so I kicked the door in. When I got inside the office, I hid."

When smoke drove him out, he said he crawled to another office on the same floor where a man lay wounded by gunfire.

"I was there for probably 45 minutes," Rogers said, "the whole thing took about an hour, from my front door to the street."

Firemen brought gas masks and escorted the two injured men down the stairs to the street. They were taken to Detroit Receiving for emergency care where Rogers spent two hours in surgery to treat extensive glass cuts on his legs.

The incident, in which one woman was killed and 37 others on the eighth floor were injured, ended when Harrington was subdued and taken into custody by Detroit Police officers.

Park snafu only proves county ineffectiveness

The Edward Hines Park situation which has festered for months may not be the most important crisis in Wayne County, but it is a symptom of Wayne County government as it exists today.

Instead of grown men and women exercising common sense and judgment the issue among the County Commissioners, local municipalities and Sheriff William Lucas is bogged down in threats, counter-threats, and in the case of Dearborn Heights section of the parkway, a blockade.

As a result, the citizens of Wayne County have lost a portion of a well-used county park and, more important, they have lost the convenience of a well-traveled commuter artery.

Wayne County Commissioner William Joyner is asking a pertinent question of Sheriff Lucas. After looking over the contract signed by the sheriff with the state for secondary road money, he points to a clause in the contract that charges the sheriff with providing protection in county parks. He is asking the sheriff: (1) "Do you believe that an emergency exists in Edward Hines" and (2) "Why have you not taken steps to place all of your resources available under the Secondary Road contract at the disposal of the communities affected by Edward Hines Drive and the rowdiness that has taken place?"

These are good questions.

Along with his questions, Commissioner Joyner has also requested that a resolution be placed on the next agenda of the County Board of Commissioners which would call for the board to "direct Wayne County Sheriff William Lucas to utilize all of the resources available under the Secondary Road Contract to help alleviate the problems of Edward Hines Drive."

If Wayne County government can't solve the Hines Drive problem, then it will never be able to solve the many other larger problems facing Wayne County.

Let's get with it.

St. David's Gate needed

We would like to express our congratulations and deepest gratitude to Father Shank and his church, St. John's Episcopal, for sponsoring a much-needed senior citizen project called "St. David's Gate," located on Ann Arbor Road, Plymouth.

It is truly a comfort to the children of senior citizens to know that their parents have an opportunity to live in peaceful and decent surroundings such as this.

My parents have just settled into this beautiful little community and are so happy to have an opportunity for a new lease on life. It is truly one of the finest senior citizen projects we have ever seen.

We know that the money and time involv-

ed in arranging such a place was sheer determination and devotion for our seniors.

As younger people, we can not even comprehend the frustration involved in the world of the aging, but before you know it we are there and, believe me, there is no place to turn on a limited income. I only wish Canton could offer our senior citizens such a splendid place to live.

Bless you, Father Shank, and everyone else involved for giving your time to St. David's Gate.

Thank you from the bottom of our hearts for giving our parents a place to call home.
MR AND MRS DENNY TIMMERMAN

Prank could have been fatal

EDITOR:

I am writing this letter to make parents and teens aware of just how dangerous "harmless fun" can be.

Friday afternoon at 2:35 p.m. I turned left off of Harvey Street on to eastbound Ann Arbor Road. While traveling about 25-30 miles per hour waiting to get over to the center lane, my windshield exploded and sprayed splintered glass all over myself and my two-year-old son. I had glass in my mouth and pulled a sliver from right below my son's eye.

Fortunately he was in the back seat and I

was wearing sun glasses. We could have been blinded or killed as a result of losing control of the car.

When cleaning the glass off our bodies and out of the car we found a piece of a balloon.

A water-filled balloon tossed from another car with the velocity of both cars moving that fast can be very dangerous.

Please consider this the next time you are tempted to throw one.

Also, you may want to pay my \$50 deductible or compensate me for loss of transportation to work.

It's a thought...

By Rebecca Rowand

They have names like The Silver Streak and The Bullet, but when a train comes through Plymouth, it's not the speed that comes to mind. The average Chesapeake and Ohio freight train that moves within the Plymouth interchange travels at between 20 and 30 miles per hour and must pass a given crossing within five minutes, not exactly a land speed record.

Sometimes, particularly when I'm in a hurry, I forget what it used to mean to me to be stopped for a train. When I was a child, almost everything and everyone went by train. The freight and passenger trains of 1959 were the state of the industry, the finest machinery ever to run a rail. My father would take us out early on Saturday mornings to go "look at the trains." They would move along the ground in the distance like smoke, absolutely level, never changing speed. When the train finally came close, my throat would tighten with excitement and if I squinted, I could make out the engineer's profile in the cab. Then the cars went by, with wonderful names on them and stencils, I was very fond of "Chessie cat" and then the caboose came, sometimes there was someone there, waiting to wave to a child.

Last week, I drove up to Northville via Northville Road and I realized there was a train on the tracks to my right, moving at about 40 miles per hour. I pulled ahead and moved off to watch. Chessie was sleeping on the front of the engine and the engineer leaned out the window, he was blond and thundered along with 125 tons of internal combustion in his right hand. The engine moved effortlessly, like smoke and I was a child again, my heart in my throat as I watched the most wonderful thing happen. The engineer began to wave. He waved and we all waved back, the girls at the drive-in and the people in the cars. Then it was over, the train and the cars moved on and I vowed, as I'm sure my father did, that my children will know the joy of a slow-moving freight train!

Voting record should be checked before complainers take floor

EDITOR:

Resolved: Before a citizen would be allowed to speak during the "Citizens Comments" segment of the school board meeting, his or her voting record should be checked. If said citizen did not vote in Monday's election (school board members election in which only 3,113 voters participated out of 44,000 registered voters), the citizen should not be allowed to speak!

Those who are not sufficiently interested to carry out their responsibilities as citizens should forfeit their right to complain.

JANET CAMPBELL

PS: I think this should be applicable to other segments of government also.

Managing editor eats a little crow

This column is both an apology and an opportunity for me to sit down and eat a health portion of crow.

I would like to take this opportunity to formally apologize to the mayor of Livonia, Edward McNamara. Because of my lack of attention to detail, his filing for Wayne County Executive appeared on our front page last week under the dubious nickname of "Eddy Mac."

Dear Mayor McNamara:

With a face as red as the blood I shed when my publisher saw the mistake, I humbly relate to you this explanation for my faux pas: I wrote too fast.

Last Monday, as you know, was school election night in the Plymouth-Canton district. As the education reporter, I was in charge of compiling that story so it would be ready for the next day, when *The Crier* is laid out in galley proofs for printing. Consequently, Monday ended at 3 a.m. on Tuesday, and Tuesday began five hours later.

I already knew that production of the issue would be held up because of two

In addition

by Dan Bodene

things - the candidate filing deadline and a sports story on the Canton High men's baseball team.

Here's where the good part starts, Mayor. Production day progressed routinely enough until about 4 p.m. (About two hours earlier I had dispatched our reporter to the City-County Building to get a list of all candidates who had made the filing deadline.) While in the middle of writing another deadline-pushing story on a local school closing, Mother Nature intervened by sending a series of tornadoes through Washtenaw County. The resulting winds from that storm managed to knock out power to *The Crier* offices, no doubt just to make me miserable.

Besides our production equipment going

down, an added complication was that our phones also didn't ring. I had no way of knowing whether late-story calls from the City-County Building or from the baseball game in Ann Arbor were coming through.

After sweating bullets for an hour and a half, the power returned, and the scoop from Detroit finally came in. Fearful that another blackout was in the offing because the storm seemed to be getting worse instead of better, I copied candidates' names as quickly as possible.

Having been a past Livonia resident I was familiar with your name, and when it was read to me, in the interest of brevity I wrote down instead a nickname (upstart young editors often tend to make up in brashness what they lack in experience) before continuing the list.

I must here explain that the nickname is a fond one; malicious intent was never at issue, as I have met you several times and always found your company enjoyable.

To finish a long and lamentable story, the power went out twice more on Tuesday and set us back a total of about three hours. In order to get the list of candidate filings set in type, our production manager took to hovering near the equipment and furiously thrashing the keys when the juice came on. She wasn't about to question the only name I had neglected to go back and correct.

The final pages were completed at about 11 p.m. on Tuesday and in order to get them to the printers in Jackson by 12:30 a.m. I committed the unforgivable sin of neglecting a final proofreading. Driving to Jackson, all I was thinking of was sleeping in on Wednesday.

So there you have it, Mayor. A world-class blunder set in eight point type, right there on the front page to make us both miserable.

I offer my sincere apologies.

Coloring it Brown

By Dick Brown

There are many taxpayers who wonder where all their tax dollars go. They get upset when they hear about deficits, assessment raises, millage increases and governmental service cuts.

A couple of problem areas surfaced this week in the press kit put together by Canton Township for this week's meeting.

First there is a memo from Police Chief Jerry Cox concerning the Animal Control Department of the township.

His memo pointed out that from January, 1979, through December, 1981, the township spent \$126,248 for animal care. During this same period, approximately 2,500 dog licenses were sold under provisions of the animal control ordinance. These licenses generated \$12,656.

This means that for that two-year period dogs belonging to Canton residents cost all the taxpayers of Canton Township \$113,571, not including moneys paid out for damage claims under state law.

That's a big chunk of tax dollars which could have gone to parks, police protection, library and other township operations which would benefit more township people.

It's a catch 22 situation for the township. According to Cox there are approximately 12,000 dogs in Canton Township. Of these only 658 are currently licensed. That means that there are a lot of freeloaders out there with unlicensed dogs. The catch 22 situation comes from not having the funds to canvass the township and enforce the licensing provisions.

The other example is the result of the severe slump in Canton Township residential building. In the first five months of 1982 only one single family residential building permit has been taken out.

Obviously, the fees on that one permit will have to be spread pretty thin to cover the expenses of the Canton Building department. The department has other income from fees for remodeling, home additions, fences, swimming pools and other home improvements, but there is no way that building ordinance fees will cover building department expenses. The budget for next year projects Building Department revenues of \$43,100 and Building Department expenses are estimated at \$119,400.

And so it goes with almost every other township department and activity.

If taxpayers want the cost of government sliced then they are going to have to put up with less government services.

Student Artfest praised

EDITOR:

On Saturday, June 5 almost 6,000 people strolled Kellogg Park to view and hear Student Artfest '82, a showcase for the talent and skill of the young people in our community in the visual and performing arts. Our sincerest thanks to each of you for this demonstration of interest and support.

Artfest '82 was a success because of the enthusiasm, dedication, commitment, outstanding contribution and team work of many people. At the risk of missing someone who deserves special credit, we want to publicly thank the following:

The students, whose artworks and musical, drama and dance performances were outstanding;

A talented and skilled teaching staff;
A supportive group of building principals;

The central maintenance staff of the Plymouth-Canton Community Schools and Dan Minghine, director of buildings and grounds and Corliss Mueller, secretary;

The DPW crew of the City of Plymouth and Ken Vogras and Tom Wolfe;

Margaret Wilson for graciously allowing the use of the Penn Theatre;

Janet Woodring, secretary, Plymouth-Canton Community Schools;

Mayor Eldon "Bud" Martin and City Manager Henry Graper;

Superintendent of Schools Dr. John M. Hoben and the Plymouth-Canton Board of Education;

Artfest patrons;
Plymouth Community Arts Council;

Our friends from the non-public schools;
The members of the press;

And, certainly, the Artfest Planning Committee, whose tireless efforts made it possible to put everything together, especially Betty Weideman, Mike Chiumento, Elaine

Kirchgatter, Mary Childs, Jan Williams, Carey Gary and Lynn Formanczyk.

Thanks to all! See you next year on June 4 for Artfest '83.

Building inspector thanks city residents

for their cooperation

EDITOR:

I would like to take this opportunity to thank all citizens in the City of Plymouth for allowing me to serve as your chief building inspector for the past eight and a half years.

Code enforcement is never easy, but through your cooperative efforts, you made it seem so.

I have met many fine people along the way whom I shall long remember in the years to come. I trust that I have represented you competently and provided the proper building code enforcement you are entitled to.

I stood proud as your representative and was able to set and maintain high code standards in areas pertinent toward establishing a better community in which to reside and I hope that these practices are continued.

In conclusion-to all the people I didn't meet-it is my regret.

Election turnout was disappointing

EDITOR:
I was disappointed in the election results of June 14.

I find it hard to believe no new person was elected for the Board of Education. This tells me that everyone is happy with the current Board and its work.

I believe the present Board is stagnant and the only way we can create change in the School District is by placing new people with fresh ideas on the Board.

The people who did not vote are a disappointment as well. If we do not exercise our right to vote, we do not have any right to complain when the Board starts playing with our children's lives.

Boy Scout Troop 743 busy in the outdoors

Boy Scout Troop 743 led by Scoutmaster Ken Kramer is always on the move. Traditionally a camping-service unit, the troop

recently treated mothers to a campout dinner followed by a campfire show. On the next outing the troop members went canoeing with fathers.

Former Crier editor gets Auto Club honor

Charles Childs, former editor of The Crier, earned honors in the Steering Wheel Awards competition conducted by the Automobile Club of Michigan.

The Scouts and fathers traded oars for rakes in early May as they undertook their annual service project at the Plymouth Elks, the sponsoring organization.

Childs, now on the news staff of the Ann Arbor News, was a member of a team of reporters which was singled out for a series of 13 articles which asked readers to assess Ann Arbor traffic problems.

But it was soon back to camping as the Scouts just returned from Kensington Metro Park and are now preparing for a week at D-Bar-A in August.

Library offers program

Computer Pix '82, a program for young adults ages 14 and up, is being held at the Dunning-Hough Library this summer.

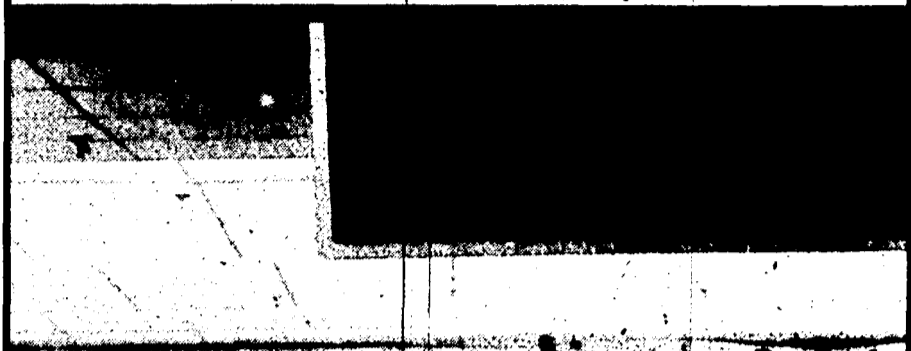

Camping and fun are not the only activities of Troop 743. At the Troop 743 Court of Honor many Scouts were recognized for earning awards ranging from citizenship and family living to the camp-related cooking and hiking skills.

The program will use a computer to match those participating with books.

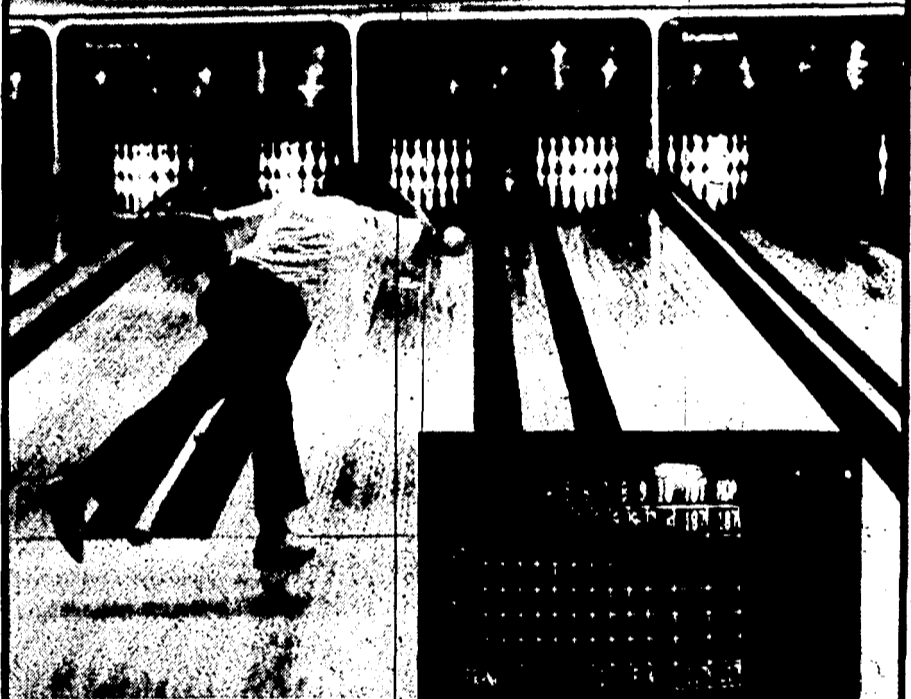

Charles Hahn, assistant Scoutmaster, received special recognition for his years of active involvement with the troop. He served as Scoutmaster for the troop until enrolling in evening courses, however, he still manages to participate in most troop activities.

For more information call the library at 453-0750.

WSDP Radio to offer summer theater series

Once a week, every week, for the past year, Station WSDP has been treating Plymouth-Canton listeners to the Peabody Award winning National Radio Theatre series.

Having just finished the Odyssey of Homer, a nine-week drama, WSDP will start off the summer with a new play and a new air-time for the National Radio Theatre shows. The series will be aired from 4 p.m. to 5 p.m. every Monday, excluding the first week of the summer schedule when it will be aired on Wednesday, June 23, and during the week of July 4th when it will appear on Tuesday, July 6.

The first play in the summer series, The Outcasts of Poker Flat, is a western comedy about a gambler, a horse thief, a prostitute and her madam who are driven out of town by the "better element." The humor peaks when the band of outcasts encounter a streak of bad luck and two lovers.

Forrest Tucker plays the lead role in The Outcasts of Poker Flat, which is a radio adaptation of Bret Harte's book of the same name.

Plays to listen to in coming weeks on WSDP include "The Emperor Jones," a masterpiece about a man who becomes emperor of a small island. James Earl Jones stars in the title role. This play will be heard June 28.

On July 6 WSDP will present "The Underground Golf Course," the story of a young aspiring writer who caddies at a public golf course to earn a living.

The July 12 presentation will be "The Dark Tower," a romance and saga of heroism starring British actor Michael York.

Gasoline 'discount' plan disputed

BY DAN BODENE

Will motorists actually pay extra for a proposed gasoline "discount?"

Yes, if a state law to prohibit such a "discount" program fails.

Doug Swatosh, owner of Doug's Standard service station in Plymouth, says he has received notice from Amoco Oil Co. of a proposed marketing plan which would offer a 4 cent discount for customers paying cash for their fuel purchases. Credit card purchases would cost the same.

"Sounds good? Not so fast. 'I haven't had time to see exactly what we'll do at my loca-

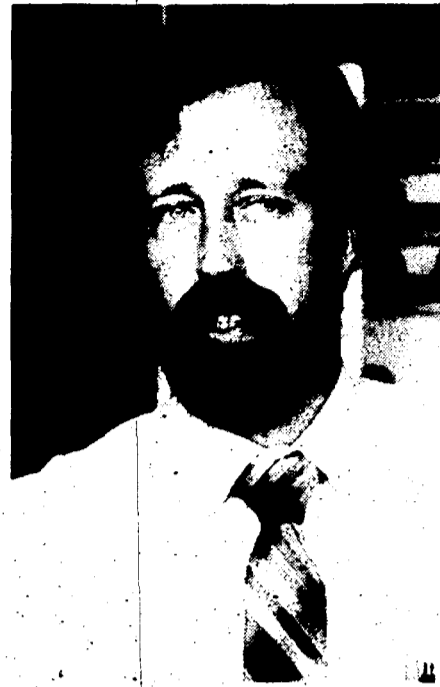

tion, but from what we can see, we'll have to raise pump prices from 2 to 3 cents to maintain our profit margin," Swatosh says. In effect, that means consumers will pay a higher price for using their credit cards.

The discount program is scheduled for a July 9 start-up date, Swatosh says, and next week an Amoco representative will discuss with him what the new pricing structure might be.

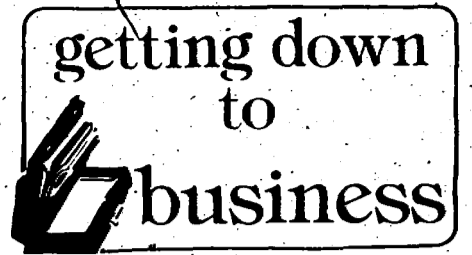

But House Bill no. 5703, which would outlaw any marketing practice that would impose a higher price for goods purchased with credit cards, has been introduced in the state legislature. Swatosh says the Service Station Dealer's Association of Michigan supports that bill, and not only for the obvious reason of preventing a fuel price hike.

"The bookkeeping (for such a program) would be tremendous," he says. "I estimate it would cost \$2,400 per month, and I have to pass that cost on to customers."

Swatosh says the proposed discount program just isn't right. "It would be fairer to require a service charge for credit cards."

VFW barbecue fire victim

Something is going to be missing from the Plymouth July 4th celebration this year.

The annual Fourth of July chicken barbecue of the Mayflower Post No. 6695 and its Auxiliary of the Veterans of Foreign Wars is a casualty of last winter's fire which razed the Mayflower VFW post home. The

VFW has decided to skip this year's barbecue, but intends to be back in business when a new post home is constructed next year.

The Mayflower VFW Post is making plans for a "Share the Wealth" program for this year's Fourth of July celebration.

Registration set for storytime

Registration for the Toddler Storytime offered by the Canton Public Library which starts on Monday is still open.

The program will begin on June 28 and continue through July 26. The storytime

will begin each day at 1:30 p.m.

The session features a half-hour program for two-year-olds accompanied by an adult. It includes stories, games and crafts.

and pinpoint problems, then correct them." He added that Interstate's proposal for "satelliting" all elementary schools (preparing meals in centrally-located kitchens and transporting them) was aimed at solving productivity problems in those schools.

If the elementary school satelliting proposal were implemented, according to the Interstate report, the food service program could show a profit of \$1,508 for the 1982-83 school year.

Chandler said, however, that the projection did not include a start-up cost of approximately \$36,000.

After hearing the Interstate report and proposal and the Plymouth-Canton Cafeteria Association proposal, board members called for more comparable data from each. Yack suggested that the district finance office compile cost per meal information from several neighboring districts' food service programs, in order to more accurately compare different program proposals.

Canton drops all-state heartbreaker, 5-4

BY DAVID CALLAHAN

Mental mistakes, missed opportunities and some top-rate pitching from four Midland High pitchers put an end to Canton High's men's baseball squad's hopes for a state championship Monday, as the Chiefs dropped a 5-4 contest to the Chemics.

Although the Chiefs had only one hit, they managed to get four runs on 10 walks and numerous fielding errors.

The Chiefs were down by five runs with only three innings to go, but battled back to within range with the final batter while the storm clouds threatened to end the game early.

Canton coach Fred Crissey admitted that his team had played one of their poorer games, but was quick to point out how far his team had come.

"186 teams started out in this tournament," he said, "and we were one of the last two. And we didn't get blown-away - we lost 5-4 with the tying

run on third base."

Of his Chiefs getting only one hit, Crissey said, "We hit the ball all right, but we just hit it right at people."

Canton came into the game with a slight advantage as Midland's ace pitcher Rick Leppien had only two and one-third innings left to pitch, while the Canton ace Dan Smith had five. State tournament rules allow a pitcher to throw only 10 innings in the final two games of the year.

Canton started Mike Battaglia while the Chemics put Greg Money on the mound.

After Battaglia put Midland down in order in the top of the first, Monry got in trouble by walking the first two Canton batters with his first eight pitched. Bryan Capnerhurst bunted the runners to second and third and then Marty McCarthy walked to load the bases.

Midland coach Frank Altimore then

brought in Leppien, who got Smith to ground into an inning-ending double play.

In the top of the second, Battaglia walked the leadoff batter then made his only real mistake of the day by giving up a home run to Leppien, who hit the ball over the 365 mark in left field to give the Chemics a 2-0 lead.

Canton bats were silent in the second, third and fourth innings and fielding errors cost the Chiefs a run in the top of the fourth.

After a single and a sacrifice, Smith came on the replace Battaglia. Smith

tried his patented pick-off move at second, but the throw was missed and a walk put runners at first and third.

Midland attempted a double steal, sending the runner to second. The throw was missed and the runner scored.

Midland picked up its final two runs in the fifth, as a leadoff double and a ground put a runner on third with one out.

The next batter grounded to Dombey, who bobbed the ball and threw wildly to first, allowing the runner to score and the batter to advance to third. The next batter lined a double to the centerfield

wall to give the Chemics a 5-0 margin.

As they have all year long, the never-say-die Chiefs refused to roll over. After two walks, Darren Weise advanced to third on a passed ball, putting Chiefs on first and third. Scott Bricker then hit a ground ball and the throw to first was wild, allowing the run to score. Bryan Capnerhurst then lined a single to center field for Smith's lone hit, making the score 5-2. McCarty walked to load the bases, then Smith grounded out to second, scoring a run. Bob Wascenski, who had come in to pinch run, was caught in a rundown between third and

home to end the inning.

Smith kept Midland under wraps in the final two innings and the Chiefs continued the fight back in the sixth. Rumberger struck out to open the inning, but sped to first base as the third strike sailed past the Midland catcher. Hanis and Weise then walked to load the bases and the Chemics brought Leppien back to pitch. Mike Wall pinch hit and grounded to second, where the ball was bobbed, narrowing the score to 5-4, with none out and the bases loaded.

Dombey then hit a hard liner to center

OK, all you road runners, get ready for July 4

This is it, the last week to register with the Plymouth Jaycees for their annual Fourth of July Run. Run Chairman Tom Truesdale says the event, co-sponsored by Spartan Stores, Inc. and Sportventure, will be free of the problems of past years, such as delays at railroad crossings.

T-shirts will be offered to all participants entered by the June 26 (Saturday) advance registration deadline and certificates will be offered to all runners completing the five mile event. Trophies will also be awarded to overall winners and the first three runners in each age division. Late registration for the race begins Sunday, July 4, at 7:30 a.m. in the Plymouth central parking lot and the race will begin at 8:30 a.m. Cost is \$6.

Registration forms are available at Plymouth and Northville Community Federal Credit Unions, Plymouth Community Chamber of Commerce, Sportventure and the Community Crier.

Saints, Wildcats tie up wet game at 1-1

A wet and muddy soccer game ended in a tie Sunday night for the Sportventure Saints and the Canton Wildcats at 1-1. The game began in a driving rainstorm and neither team managed to score until the end of the first half when the rain began to slacken, as the Wildcats bounced a shot off Saints goalie Theresa Pelchat, scoring the first and the Wildcats' only point.

Though the Saints dominated the field in the second half, there were no goals until late in the second half when the Saints scored on Veronica Guering's pass the Stephanie Hancock, tying the score at 1-1.

As for injuries incurred on the soupy playing field, Coach John Snyder explained, "well, when it's that wet, your feet tend to go out from under you, eliminating the chance of hitting someone with your spikes."

The Saints play Sunday at 6 p.m. at East Middle School playing field. This week's opponents are the Troy Stars.

field where it was caught and no runners advanced.

Scott Bricker then tried a suicide squeeze bunt, but popped it up to the pitcher for the second out. Hanis was picked off third for the final out as he tried for home on the bunt.

Canton gave it one last effort in the seventh as Capnerhurst walked to lead off the inning. Once again, Leppien came in to stop the Chiefs. McCarty sacrificed the runner to second and Smith grounded out, sending him to third. Leppien struck out the final batter, Fred Rumberger, to finish up a 35-5 season for the Chemics.

Canton ends the season at 25-5, and adds another chapter to the career total of Coach Crissey which now stands at 185-54 in nine years.

Plymouth grad gets mineral research grant

John Marsh, a Michigan State University graduate student from Plymouth, was one of 55 students nationwide who received a grant-in-aid from the American Association of Petroleum Geologists Foundation.

Marsh will design and complete a research project examining how trace metals form ore deposits. He will use the grant money for the collection of rock samples and laboratory materials.

"The study aids in the understanding of how ore products form and will help in finding these valuable strategic materials," Marsh said.

Son of Betty Marsh, 1400 Ross, he is a 1976 graduate of Salem High School.

At MSU Marsh is a member of the Geology Club, twice made dean's list and played intramural hockey and softball. He is a master's student majoring in geology.

Canton Library offers Computer Pix program

A summer program called Computer Pix will be offered by the Canton Public Library beginning July 1 for young adults ages 14 to 18.

The program is designed to match a person's reading interests with a list of books stored in the computer's data base. Those participating in Computer Pix will fill out a

short questionnaire indicating their areas of interest—science fiction, mystery, romance. This information will then be run through the computer and a printout of up to 20 book titles will be ready for them in about 10 days.

Complete details can be obtained at the library or by calling 397-0999.

Plymouth Twp. homeowner group will advise board

The Plymouth Township Volunteer Advisory Committee had its first meeting June 12 at the lower shelter at the Township Park. The goal of the V.A.C. is to assist communications between residents and the township administration.

Lark Samouelian is the liaison between the homeowners and the administration.

Information exchanged pertained to the function of the Neighborhood Watch program, procedure to secure Neighborhood

Watch signs, explanation of P.A.C.T., waste disposal contract and pickup scheduling, water meters, Wayne County tax issue, distribution of Michigan Township Association ballot, Omnicom cable TV service and installation techniques and how to organize a neighborhood.

Those attending expressed a positive feeling about the initial meeting and urged that neighborhoods without representation at the first meeting should send representatives to the next meeting.

SEMTA to hike rates for taxi cab patrons

Plymouth-Canton Community users of the northwestern Wayne subsidized taxi cab program will be paying more for their rides beginning July 1. The fare increases will take place at the same time that fares on all SEMTA large and small buses are increasing by an average of 21 percent.

Users of the subsidized cab service in Plymouth and Plymouth Township will pay \$1.80 per trip compared to the current rate of \$1.50. Senior and handicapped citizens will pay 90 cents compared to the present 75 cents.

Doubledecker bus is wedding chariot

JIM AND JENNY WELLMAN, who were married June 12, had quite an unusual ceremony — they were chauffeured by Plymouth's double-decker bus to the Old Village gazebo, where the couple was met by a phalanx of Mrs. Wellman's friends bearing armfuls of flowers. The nuptials were spoken by Judge Dunbar Davis, who was celebrating his own 45th wedding anniversary that day. The Wellman couple, who were both born and raised in Plymouth (and graduated from Plymouth High), will continue to make their home in the city. Mrs. Wellman works as a substitute teacher caller for the Plymouth-Canton Community Schools. (Crier photo by Robert Cameron)

PLYMOUTH HILTON INN SUNDAY BRUNCH

If the Jolly Miller Sunday Brunch at the Plymouth Hilton Inn offered eggs benedict, potato pancakes and a spectacular dessert table, that would be enough. If we added hot fruit cobbler, New Orleans favorites such as shrimp creole, blintzes, and sticky buns, that would be enough. Now if we added, bagels and cream cheese, Nova Scotia lox and the most complete salad bar you've ever seen, that would be enough. But then suppose we added carved roast baron of beef, and cured baked ham - that would surely be enough. But enough is never enough at the Jolly Miller Sunday Brunch . . . A feast that never quits.

CHIROPRACTIC OFFICE

190 PLYMOUTH ROAD—PLYMOUTH, MICHIGAN
PHONE 455-3593

Dr. Chase says:

DO YOU FEEL BROKEN DOWN AND WORN OUT?

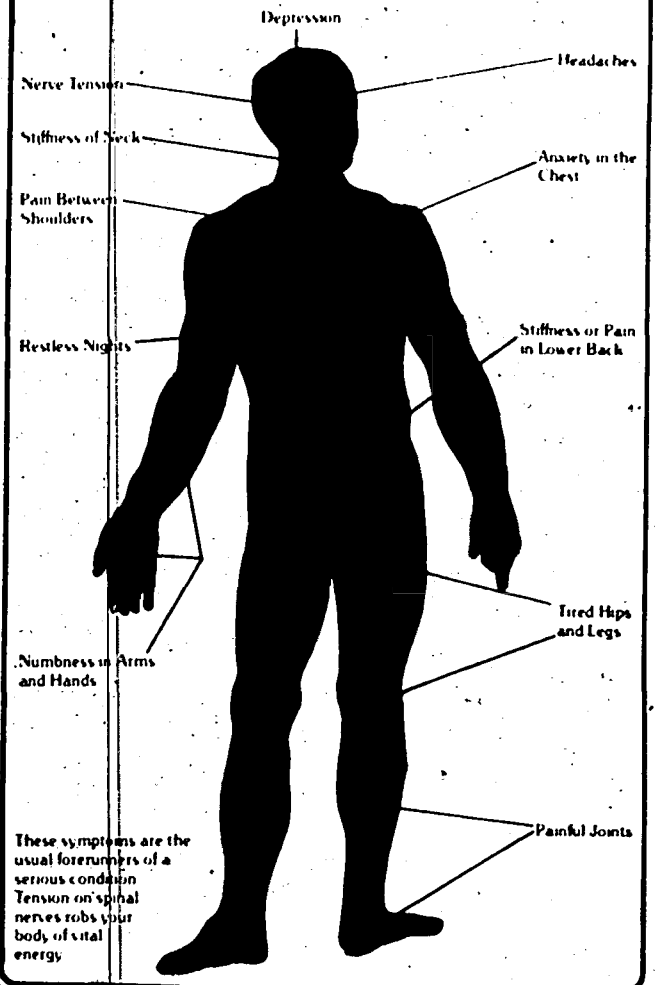

In today's troubled times when all of us are trying to stretch our dollars as far as we can, it appears to me that we must go back to the basics. When I was a young boy growing up in Detroit, my Dad would take great pains in caring for his tools and possessions. Each time a particular item was used, it was carefully checked for worn or broken parts, cleaned and then placed back in its proper place. Next time that item was needed, we not only knew where to find it, but we could also be assured that it was in good working order, ready to go.

As time passes, in our modern world of fast living, we got out of the habit of taking care of our things. We became a "throw away" society. If something didn't work, don't fix it, throw it away and find something new. We have even become that way about our bodies. Don't worry about our health until it goes bad, then pills will always cover up our symptoms. If it gets really bad we can always "cut it out" and get a new one (transplants and, now, even artificial parts have been devised).

It is time we got back to the basics of life and health. It is time to start learning to take care of ourselves before we break down and wear out. There is something you can do to prevent sickness and disease.

Chiropractors are trained to examine the nervous system and locate the underlying cause of problems, sometimes even before they have a chance to cause a serious break down in your health. If you will take the time to read the following pages I am certain we can answer most of your questions about Chiropractic and health. Take the first step toward better health today, call 455-3593 for an appointment for your free spinal exam. It is up to you, crisis therapy, the medical way, or back to the basics of life with Chiropractic care.

11 Danger Signals

Why Suffer Needlessly?

Many have been told, "Your trouble is nerves, just nerves, that's all." Nerves are too important to the body to be dismissed so easily. Nerves make possible all movements, nerves transmit all sensations to the brain. Nerves make possible sight, smell, taste and hearing. Nerves control blood pressure, stomach action, blood flow, speech and breathing. Nerves make the bowels move. Nerves make it possible to swallow. In fact, all functions taking place in the body are under the control and coordination of the nervous system, and when any of the 11 Danger Signals listed begin to appear in your body it is usually the forerunner of a serious condition. Tension or "pinching" of spinal nerves robs your body of vital energy, thus causing the 11 Danger Signals to appear, which in time, if not corrected, is the underlying cause of disease.

Falls, stresses, strains, sprains, slipping, scooping, stooping, shaking, jolts, jars, tension, poor posture, tugging, stretching, twisting, turning, pushing, jumping, sudden impacts, lifting, bouncing, blows, athletic injuries, exertion, stumbling, and bouncing up and down on tractor seats all day long can produce spinal pressure and tension on sensitive delicate nerves. These nervous system short circuits slow down normal nerve energy flow, and rob your vital organs of their proper controlling force.

Regardless of the health problem you or any member of your family may have, it is entirely possible that your family may have, it is entirely possible that your family chiropractor can replace despair and sorrow with glowing health and happiness. Spinal pressure and tension on sensitive, delicate nerves may cause many diseases.

Auto Accident Victims Chiropractic Care Is Vital

X-Rays shown are taken to determine the existence and degree of spinal misalignment and subluxation. This is extremely important for the precision adjustment (replacement of misaligned vertebra).

Neck and spinal injuries, as a result of automobile accidents, are among the fastest growing health problems in the country today. The ever increasing number of automobiles on our crowded highways provide the ideal opportunity for the type of accident that results in sudden impact injuries.

Whiplash is the most frequent result of the sudden impact injury. The victim experiences severe headaches, shoulder pain, neuralgia of the neck and many other symptoms which are seemingly unrelated. When the head and neck are violently thrown forward and then backward, one or more vertebrae in the spine can slip out of its normal position, interfering with the transmission of vital nerve energy.

Another common injury occurs when a person is thrown from the seat to the floor of a car, or against the car door. The sudden impact will be to the lower spine and, if the shock is great, vertebrae in this

area will become dislocated. The symptoms of such an injury can include severe back pain, bladder disturbances, kidney disorders and menstrual distress among others.

As a result of any sudden impact injury, there may be sharp impingement of the nerves and consequent ill effects upon the victim's general health.

With modern scientific methods, we can quickly locate the vertebral injury. Then, with scientific and corrective spinal adjustments, we can realign the vertebrae involved. Even a minor spinal injury can result in an unlimited variety of distressing and painful effects. Many disabling conditions occur years after an automobile accident, but can be traced back to the sudden impact injury.

Our Chiropractic office specializes in treating sudden impact injuries. See us immediately after any type of accidental injury.

What You Ought To Know About On The Job Injuries

The welfare of the American worker is of great importance to all members of our society. As a result, extensive research has been done to study all aspects of occupational injuries.

On the job injuries, which cost American businesses 100 million man hours annually, represent a tremendous loss in production and revenues.

But our greatest concern is with the pain and anxiety suffered by the American worker — their family, friends and neighbors — when such injuries occur.

The most common occupational injury is sacroiliac strain. It occurs when the sacrum or tailbone slips from its normal position in relationship to the bones of the pelvis. There is extensive muscular and ligamentous strain. The pain is excruciating and movement of the legs is restricted. Often the sciatic nerve becomes involved which produces even greater disability.

A person suffering from sacroiliac strain assumes a bent forward position. Any attempt to stand tall results in a sharp and stinging pain. This type of strain is serious. If unattended a sacroiliac strain can lead to chronic weakness of the region. This injury results from improper lifting, straining when pushing heavy objects and

poor working posture. It can be felt anywhere along the spine. There may be an injury to one or more vertebrae. If the strain occurs in the upper back, shoulders and arms may become involved. There is muscular tension and soreness. Any type of motion causes increased pain and all positions, whether sitting, standing or lying, may be uncomfortable.

Spinal and sacroiliac strain are only two of the disabling conditions a worker may suffer with as a result of an on the job injury. But since back injuries account for one-tenth of the total time loss injuries in industry, it is this area which deserves attention. And it is this area in which chiropractic can achieve great success. Chiropractic attention will quickly reveal the involved vertebrae and corrective adjustments will bring about a quick relief of the symptoms and a rapid correction of the disorder.

The spine is the life line of the body and good general health depends upon good spinal health. If you or one of your loved ones are hurt on the job, consult our Chiropractic Clinic immediately. Modern scientific chiropractic procedures reduce suffering, time loss and the possibility of permanent serious injury.

OUR PATIENTS SPEAK

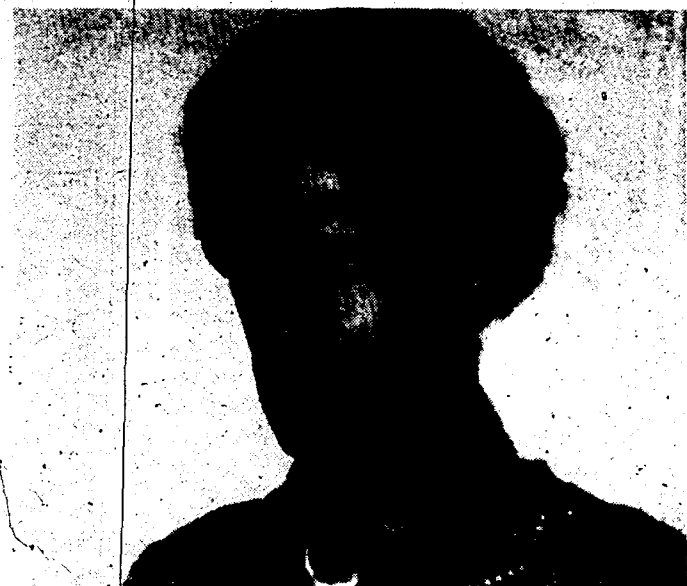

Thank you, Dr. Chase

I don't know how to thank Dr. Chase for all the help he has given me and the relief I feel from chiropractic adjustments. When I came in I could hardly walk, and now after a couple of spinal adjustments I feel fine. I only wish people would think and go to Dr. Chase when they feel bad because he sure has magic in his hands.

I know I'll never think I can take care of my aches and pains myself again, chiropractic adjustments have helped me so much that now I can even do my housework. I couldn't when my back was out of place. I hope people won't wait like I did until they are so bad they can't move. Thank You Again.

Lillian Muscott

Headaches Gone, Eyesight Improved

I gradually developed some weakness in my eyes and many bad headaches over a three year period. I fatigued more than normal and seemed to lack energy. After receiving negative results from an ophthalmologist, a neurologist, and several hospital tests, I asked my doctor about Chiropractic care. He said it couldn't hurt.

After a Chase Chiropractic examination and x-rays were taken, a plan was developed for treatment. Some minor back aches developed from the regular adjustments. However, the change and improvement was very noticeable.

My headaches are now very few and far between. I very seldom feel fatigued. My energy is back to its normal level, and my eyes are much better. Overall I feel a considerable improvement, and recommend chiropractic care to all my friends.

Help Us Help Others

My name is Andy Orlando. I first started as a patient at the Chase Chiropractic Office approximately in March of 1980. I was referred by Mrs. Juhnke. My problem was a pinched nerve in the neck. I have received about 6 adjustments to date and feel GREAT. I first began feeling relief after my first adjustment. I would like to recommend the Chase Chiropractic Office and Dr. Chase to anyone with a health problem. Try them, you'll see!

Chiropractic Care, Don't Ever Underestimate It

Three years ago when I first placed myself under the Chiropractic care of Dr. Chase, I was suffering from severe headaches, extreme mental depression and a stomach that could hardly retain anything.

I had been under the constant care of my family medical doctor who finally informed me I was not holding my own and if I did not start doing better, I was not going to make it. It was at this point, through friends that I became acquainted with Dr. Chase.

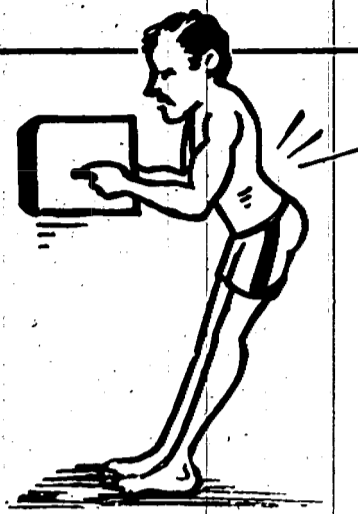

Today I no longer have any physical problems. I never looked or felt better. I feel extremely well. I have also had a subsequent back problem and knee injury completely corrected through Chiropractic care. From experience I have discovered that Chiropractic care should be considered first. Don't ever underestimate it, and don't deprive yourself of it.

This spinal chart is directed especially to people who have tried to regain their health through methods other than chiropractic, and have failed. **THAT FAILURE SHOULD NOT LEAD TO DISCOURAGEMENT**, but to greater determination to discover the fundamental cause of all disease. If your condition is not described in the chart, contact your chiropractor for a consultation, examination and x-rays, if necessary. He will determine by his analysis of your spinal condition what you can expect from chiropractic care.

OUR PATIENTS SPEAK

Asthma Relief After 40 Years of Suffering

In August, I took the flu. I went to our family doctor, he gave me a prescription for pills and liquid medicine. I took them and felt some better, but never was well.

I worked all that winter and just got worse. On the 18th of March I went home and called our doctor for an appointment. He said I had pneumonia. I was shocked. I was told to stay home and rest. I did, but felt I had to get back to work. The doctor said if I felt like it I could go back the 5th of April.

I went back but could not work, so back to the doctor again and more medicine. I felt some better so, April the 12th I went back to work and worked to April 16th.

Each day my boss said, "you don't look so well; why don't you go home." I told him I was trying to stay the week out, but if I was not better I would not be back Monday. In the meantime I received an advertisement letter in the mail from Dr. Richard Chase.

I had taken so much medicine my stomach hurt if I ate or if I didn't eat and every pill I took made it worse. I wish I didn't have to take any more pills, so I said to my husband I am going to Dr. Chase the Chiropractor. I couldn't lose and at least I wouldn't have to take any more pills.

After three weeks, I was sorry I did not know about Dr. Chase a long time ago. I have all kinds of allergies, hayfever, sinus trouble and asthma. I can breathe better now than in years. I am sure if I keep up my Chiropractic adjustments I will be well. If I had known years ago, I would have saved myself a lot of suffering.

Accident Victim's Mother Recommends Chiropractic

I am Leota Begin reporting an auto accident my daughter Anmarie had in April. She was seriously injured with neck and back problems and was temporarily paralyzed. I immediately notified Dr. Chase at The Chase Chiropractic Office in Plymouth. Prompt visits and treatments, upon release from the hospital, to Anmarie were outstanding and saved her from a lot of serious pain and permanent damage. Anmarie is fine today. I sincerely recommend The Chase Chiropractic Office for accident and general health care for your entire family.

Pain Made It Difficult To Walk or Climb Stairs

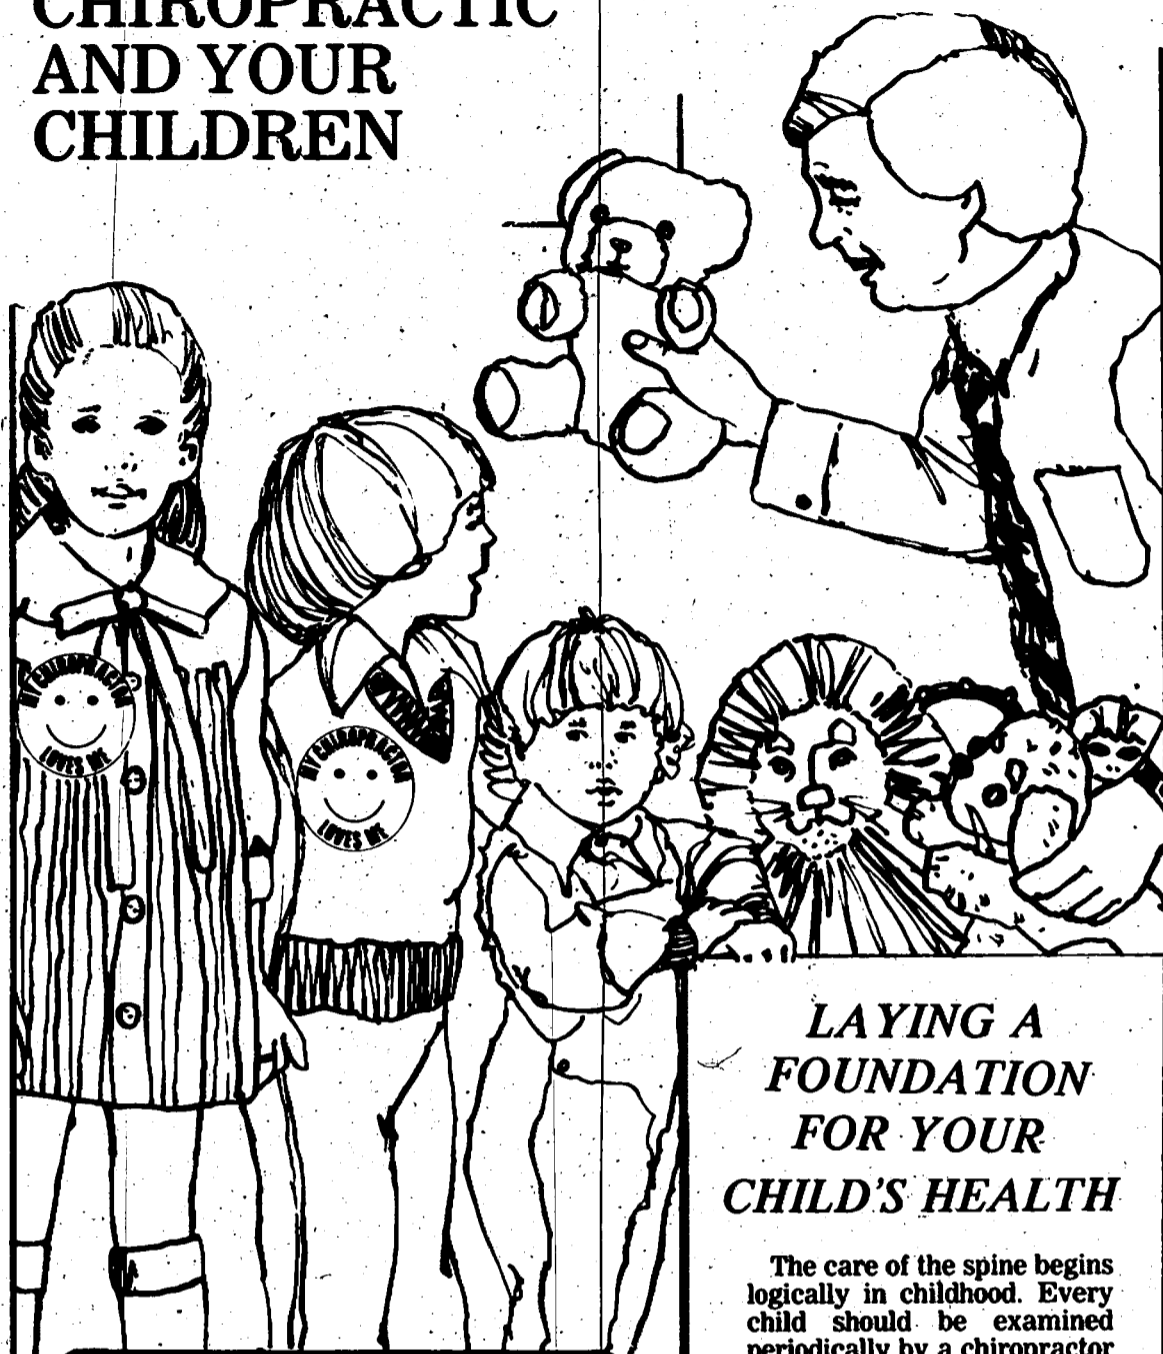

I am 76 years old. I have been suffering with backaches for a long time. The pain extended to my right leg making it difficult for me to walk and climb stairs.

Because of my age, I didn't think anything could be done. Finally, I decided to try chiropractic treatment and went to see Dr. Chase.

After a number of treatments, I improved. I am walking normally now and am beginning to see improvement in climbing stairs.

CHIROPRACTIC AND YOUR CHILDREN

LAYING A FOUNDATION FOR YOUR CHILD'S HEALTH

The care of the spine begins logically in childhood. Every child should be examined periodically by a chiropractor to insure the spinal column is developing properly.

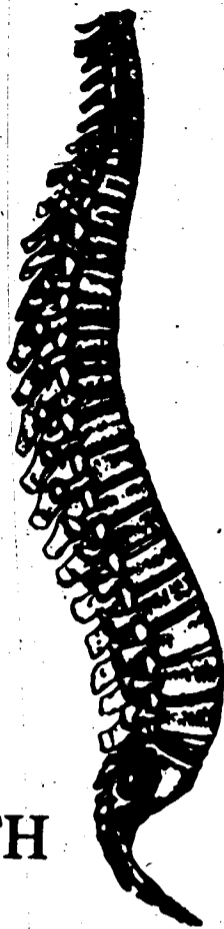

When your child suffers a fall or injury or complains of pain he should have the immediate benefit of a spinal examination. Spinal strains in childhood may lead to the poor health of an adult.

Please ask about the latest technique used for the spinal care in children. This gentle method of balancing the spine has shown great results in children.

Questions

& Answers

Q. Does my health insurance (Blue Cross-Blue Shield, John Hancock, Aetna, etc.) pay for chiropractic care?

A. Yes.

Q. Does my health insurance pay for chiropractic X-Rays and any other examination?

A. Yes.

Q. Does my health insurance pay for regular chiropractic office calls?

A. Yes. Many major insurance companies, including Blue Cross-Blue Shield Master Medical Program (General Motors salaried employees, Ford Motor Company salaried employees, Great Lakes Steel, etc.) Aetna Insurance, Metropolitan, Prudential, and Travellers pay a portion if not all regular chiropractic office calls.

Q. If I receive injuries due to an automobile accident, does my no-fault auto insurance cover any chiropractic care that I may need?

A. Yes. All auto insurance coverage in the state of Michigan pays chiropractic care due to injuries sustained in accidents.

Q. I am a senior citizen. Will my Medicare pay for chiropractic adjustments?

A. Yes.

Q. Are chiropractic services covered by Workmen's Compensation Insurance, such as on the job injuries?

A. Yes. The Workmen's compensation law allows you to seek the doctor of your choice after the first 10 days following occupational injury. During the first 10 days, you may require employer authorization.

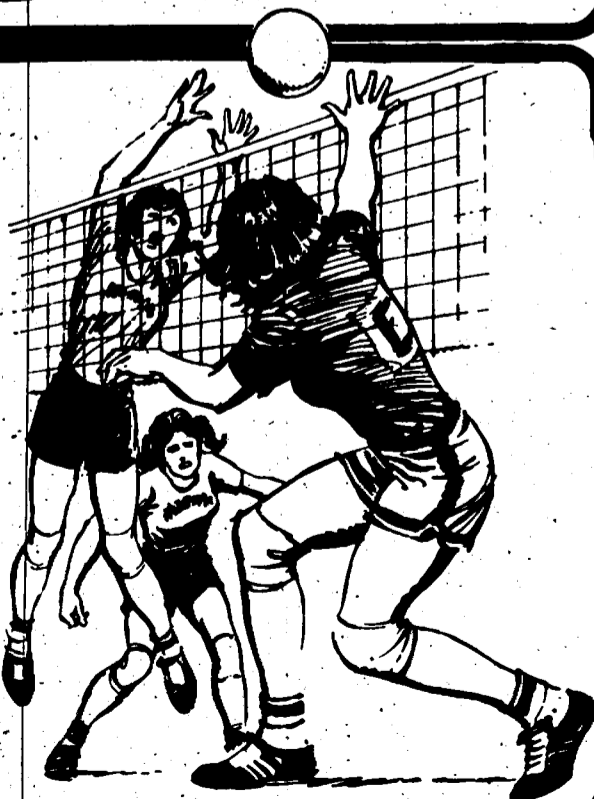

Q. Does Medicaid cover chiropractic adjustments and do you accept Medicaid patients?

A. Yes, Medicaid covers chiropractic adjustments and our office will be happy to accept Medicaid patients and any other patient who requests adjustments.
