## J. R. Rauch & Son

### Pencil and Pastepot

Weather prophets are certain this is to be a mild winter. The fact that there are few, if any hickory-nuts, is taken as an indication of mild weather.

A Durand girl saw an advertisement for a recipe to make the hands white. She sent the cash for it and received this good advice: "Soak them in dish-water two hours each day while your mother rests."—Ex.

South Lyon citizens at an enthusiastic meeting decided to accept the proposition of J. C. Rauch of Vermontville to erect a flouring mill. He wants a bonus of \$1,000 and half the amount was raised at the meeting and a committee was appointed to hustle for the balance.

No matter how neat a farm may be kept, it will never be in neat appearance if the roadside is neglected. The roadside is the setting for the farm, and if allowed to grow up to weeds and brush will cheapen the looks of the farm. The shiftless farmer who resolves to reform and clean up should commence outside his fences.

The past month has been the warmest October in 21 years, according to the official records of Weather Man Pague and only once has the record been equalled since the establishment of the Detroit weather bureau in 1871. The average October temperature, as recorded in the Detroit office, is 51 degrees, but this month an average of 59 degrees was registered, the same as in October, 1870. October of last year was also unusually warm, the average being 56 degrees, and the same in 1897.

Knowing the good-natured disposition of Frank Graves, we feel safe in telling a little joke on him. One day last week he and Morgan Van Amburg each took a load of potatoes to Ann Arbor. As it was quite late at night when they were returning Frank dosed off to sleep and was not cognizant of the fact that one of the rear wheels of his wagon had run off until the axle had plowed along over the sand and stones for more than five miles. This would not seem so strange if Frank was not a strictly temperance man.—Brighton Argus.

Milford Times: The operations of the two excavators along the Pere Marquette, between here and Highland Station, was an attraction for many people from both places last Sunday. For considerable distance each side of the highway crossing south of the Pettibone the tracks are being lowered several feet. In the hill a short distance south of the above crossing the excavator encountered an extensive stratum of "water gravel" only four or five feet below the old grade. The water issued from the gravel in streams and formed a good sized brook. If the flow keeps up it might come in use some time as a source of supply to the village.

Northville Record: A few days ago a large number of our young married people arranged to perpetrate a surprise on some one down toward Farmington, and in the hustle and bustle incident to catching the car, two fair dames, one with her little daughter Thelma, arrived just in time to see the car gliding down the hill toward Du-buar's factory. "Stop! Stop! for mercy sake, Stop!" they all yelled, and gathering their skirts in their arms, they began a foot race down Main street, but the marble hearted conductor would not heed to their appeals. Finally Pitt Johnson offered to take them in his buggy and catch the car. He played the gad and headed off the car near the railroad bridge, where the motorman stopped the car and the two exhausted ladies climbed on, leaving poor little Thelma in the buggy with Mr. Johnson, who was seemingly a child ahead in the deal. After the car had gone two or three more miles and Mrs. A. had regained her composure, she missed her child. And yet they are all telling us that the men are always forgetting something.

A Village Blacksmith Saved His Little Son's Life.

Mr. H. H. Black, the well-known village blacksmith at Grahamville, Sullivan Co., N. Y., says: "Our little son five years old, has always been subject to croup, and so bad have the attacks been that we have feared many times he would die. We have had the doctor and used many medicines, but Chamberlain's Cough remedy is now our sole reliance. It seems to dissolve the tongue mucous and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled. There is no danger in giving this remedy for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Mieler's Drug Store, Plymouth.

The vote in Michigan on Tuesday was a surprise to Republicans as well as Democrats. The returns yesterday morning showed that McKinley had a plurality in the State of 98,000, and that Bliss, for Governor, was only about 16,000 behind. Every Republican State Senator was elected, and but eleven Democrats were elected to the lower house.

The majorities in Wayne county are as follows, all being Republicans: Mc Kinley 8,473; Bliss 492; Sheriff-Dickson 4,233; Probate Judge—Durfee, 8,811; Treasurer—Buhner 5,245; Clerk—McGregor 9,336; Register—Kingsley 7,887; Prosecuting Attorney—Hunt 1,604; Auditor—Christian 7,110; Circuit Court Commissioners. May 7,935, Corlette 7,522; Coroners—Hoffman 7,788, Forth 6,413.

In furnishing a house, consider where and how you are to live, and the number of pairs of hands there are to do the work, and select your furnishings accordingly. If the articles you are buying are well made and good in shape and color you will make no mistake in selecting them, no matter how simple they are; indeed, the simpler they are the better. Do not be in a hurry to fully furnish your house. When buying a new piece of furniture, a drapery or a rug, keep in mind the fact that it should harmonize with the old furnishings. —November Ladies' Home Journal.

The office of Experiment Stations of the U. S. Department of Agriculture will soon issue a bulletin on "Irrigation in New Jersey, and describing experiments there in 1899. It is generally thought that the region west of the Mississippi River, but repeated crop failures in the East and successful farming in the West have called attention to the importance of controlling the moisture of soils rather than accepting the conditions as they exist. The experiments in New Jersey have proven enormously profitable.

On Friday evening, Nov. 16, a charming entertainment will be given in the Ladies' Library at Northville, under the auspices of the Presbyterian church ladies. It will consist of readings from Shakespeare's "Midsummer Nights Dream," illustrated by Mendelssohn's fairy-like music which was composed upon that drama. This will be a delightful treat, reading and vocal and instrumental music being combined in a very fine entertainment. The solo party will be taken by Mrs. H. S. Ten Eyck of Pontiac. Other vocalists are Mrs. H. A. Merritt of Pontiac, Mrs. Cranson, Mrs. Henry, Misses Clarkson and Buchner of Northville. Mrs. Penfield will read the selections. Pianists, Mrs. Jerome and Mrs. E. H. Lapham. Violinists, Miss Norine Clarkson. Admission 25 cents. Concert begins at 7:30 o'clock.

"The future wage-earning girl should have in her mind during the latter part of her school life the selection of her profession," writes Margaret E. Sangster in the November Ladies' Home Journal. "I think it well for her, too, very quietly, but with intention, to cast about among her friends for suggestion, to ask the kind offices of one and another and to make known her need of immediate employment so soon as she leaves school. Many good positions are lost because of indecision, or false pride, or unwise reticence on the part of those who seek them. The mental attitude of the girl in search of employment should be neither indifferent nor patronizing; she should set in motion every legitimate means, and let those who may be able to assist her know something of her situation. They can help, and she can seek with much greater hope of success if the goal in view be something definite."

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Rhippes, of Potosi Ark. "It cured me of bloody flux. I can not speak too highly of it." This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. For sale by Mieler's Drug Store, Plymouth.

When you are in need of suspenders again, call and see the 20th century. Once worn and you will wear no other.

The Plymouth election board finished the count of votes at four o'clock Wednesday morning. With the use of a voting machine the result would have been known five minutes after the polls closed. It is hoped that when another election occurs, the town board will have provided a machine, in the doing of which we believe they will have the full concurrence of the taxpayers of the township.

We notice by the Adrian Press that F. R. Beal, of Northville, has made a proposition to Adrian people for removing there with his refrigerator business, a portion of the Globe Manufacturing industry. He submits a detailed estimate of the items of expense in the manufacture of 5,000 refrigerators. Mr. Beal offers to be one of ten to furnish the capital of \$25,000 or he will use lumber and stock and furnish considerable more.

About one hundred Plymouth citizens went to Detroit Tuesday night to hear the election returns. Quite a large crowd also assembled at the depot where all bulletins going over the wires were taken off. By the kindness of the operator and Manager Bell, these were also transmitted by local phone to a dozen different places in the village. The Mail publisher was one who enjoyed receiving the bulletins at his home in that manner, which was much preferable to standing around in the rain and slush. That was only one of the many advantages of the phone.

Miss Blamer, Dress Maker, with Bailey & McLaren, has been in Detroit a few days studying the latest styles. Ladies call and get her prices.

When you feel that life is hardly worth the candle take a dose of Chamberlain's stomach and Liver Tablets. They will cleanse your stomach, ease up your liver and regulate your bowels making you feel like a new man. For sale by Mieler's Drug Store, Plymouth.

### THE VOTE IN PLYMOUTH.

The present was the first presidential election held in Plymouth since the division of the township, and the result shows the Republicans have not only maintained but added to their number of votes. Two years ago only 400 votes were cast in the township at the general election. This year the number is 602 out of 715 registered. The election passed off very quietly, but there was some hustling for candidates on the county ticket, the work done speaking for itself in the returns printed below:

The P. M. R. R. Co. has surveyed and staked the ground for a new Y from Union depot to their Toledo division track south which looks as though the cheese factory would have to be moved as it passes over the ground where the factory now stands.

### HIGH SCHOOL NOTES.

The total number enrolled and the number now belonging in the high school is 66; this is five more than the total enrollment for last year.

Last Monday the students of the High school and Grammar grades prepared for an election by dividing into two precincts and choosing two sets of election officers, Will Webber, Cecil Schreyer and Maynard Riley as inspectors, Walter Bennett and Bertha Warner as clerks and Carrie Stewart and Ralph Harlow as gate-keepers for the 1st or High school precinct, and Leigh Markham, John McLaren and Edna McKeaver as inspectors, Grace Nowland and Alma Rooke as gate-keepers and Laura Bell and Una Gonsolly as clerks of the 2nd or Grammar grade precinct.

Tuesday morning the officers named above visited the polls in the town hall and were shown every courtesy by Chairman Hoyt and the other officers and thus obtained a clear idea of the duties they would be expected to perform in the afternoon.

After dinner the students being assembled the ballot was copied upon the blackboard and fully explained, and ten minutes were allowed each party to present its platform. The Prohibition party found eloquent and forceful champions in George Davy and Leonard Stark; neither of the other parties presented its platform. The election boards then organized, took the prescribed oath and declared the polls open. The election passed off quietly and only one vote was challenged, that of Carrie Stewart; but it was sworn in. The polls were closed in due form and the ballots counted.

One vote was thrown out in the 2nd precinct because the voter wrote his name upon the ballot and two voters, also in the 2nd precinct through lack of knowing how to mark their ballots only voted for one candidate upon the ticket.

The result of the election in the two precincts was as follows:  
For President—  
McKinley.....53  
Bryan.....82  
Woolley.....34  
Governor—  
Bliss.....75  
Maybury.....57  
Goodrich.....29  
Sheriff—  
Dickinson.....74  
Hartz.....52
