A number of D., P. & N. employees were discharged from the road a few days ago, and it has been reported that their dismissal was caused because of a Union being organized here a week or two ago. Supt. Burton informs The Mail that the men were discharged for other reasons entirely.

LOST.—An insurance book; under please return to Samuel Ableson.

Mrs. Oscar Huston visited her mother, Mrs. R. Smith, in Springwells, last Saturday, and while there she was the recipient of a large china platter which her mother has had and used for 80 years, and it is now as well preserved as the day it was bought. Don't let the state fair keep you away from the Plymouth fair. It doesn't cost much to attend both.

Plymouth pays \$4,527 for teachers' salaries this year which is \$452 more than Northville is to devote to a similar purpose.—Record.

A sight worth seeing last Friday night was a Night Blooming Cereus in blossom at the home of Mrs. Mary Jane Weeks. The plant contained two beautiful flowers and was admired by many persons.

The Plymouth fair next week is to be a hummer, say the fair managers and the indications are it will be the best show given in years. Special efforts have been made to get the people to take an interest in it and the exhibits promise to exceed anything shown for some time. Everybody should attend at least one day.

Mrs. Dr. Adams entertained her Sunday-school class at her home on Sutton street last Friday afternoon, from 2 to 5, o'clock. About 30 boys and girls were present. Two ground moles caught in the same trap at the same time, and each coming from an opposite direction, sounds a little fishy, but nevertheless true. A. A. Tafft had one of the Wherry Mole traps set in his yard one day this week and caught two moles in this remarkable manner. Mr. Wherry who has been manufacturing the traps for thirteen years has never heard of an instance like this before.

PUBLIC MEETING.

Called for the Purpose of Organizing a Canning Company.

A public meeting has been called to take place in the village hall on Saturday, Sept. 21, at 3 o'clock, for the purpose of obtaining an expression of the people of the advisability of organizing a stock company to operate a canning, pickling and preserving factory. With this object in view it is especially desirable that the farmers be present and give their opinions, as it is quite necessary that the farmers must become interested in order to obtain the "raw material" for the factory. The business men of the village are equally interested, as during the season considerable money is paid out to operatives—mostly women and girls—which all finds its way to the stores. The farmers can make good money in raising truck—double and treble what they get for wheat, and with less chances for failure of crops.

The gentlemen behind the scheme are from Detroit, all skilled workmen now employed in a factory there, and are ready to put in a capital of \$2,000 if the village people will agree to take some \$3,000 more. They will be here on the Saturday mentioned above, with a full line of specimens of their product so that all may see and hear. They were in the village the fore part of the week and enough of our leading citizens have become sufficiently interested in the proposition to call a public meeting, as above stated. The proposition is a most feasible one, will pay a good dividend on money invested and will pay out thousands of dollars to growers and employees, most of which will pass back over the counters of our stores. Push it along; it's a good thing to have.

Stands Well at Home.

Elsewhere The Mail prints a proposition of A. P. Wagner, of Sidney, O., to locate a tool works in Plymouth. The proposition is a fair one, as no money is paid until Mr. Wagner has a building of his own construction ready to receive the machinery. Yet there appeared to be something back that had not been told, and with the idea of elucidating this point, without prejudice to Mr. Wagner, The Mail wrote the publisher of the Sidney Gazette and received the following reply, which certainly is in no way detrimental to the project of locating the works in Plymouth. With the personal misunderstanding of the Wagners, Plymouth has nothing to do. Let Mr. Wagner put up his building, which will cost him \$8,000 to \$10,000, and if there is a hitch in the removal of the machinery, it will be Mr. Wagner's loss and no one else's. The letter follows:

SIDNEY, O., Sept. 10, 1901.
MR. F. W. SAMSEK, Plymouth:
Dear Sir: Mr. Wagner has a good factory with a No. 1 tools and machinery. I understand that the reason it has not been operated is that he and his brother had a misunderstanding and he said he would not run it here any longer. The lathes and other tools he manufactures are good ones and the factory could be making a mint of money now if they would run it. Mr. Wagner comes out of the best families in town. Hoping you will find this useful, I am
Yours, etc.,
J. H. WILLIAMS.

A North Side Burglary.

The north side seems to be an "easy mark" for burglars and they have safely secured a number of hauls within the past year. Like the others, there appears to be no clue whatever as to the identity of the visitors of this latest piece of robbery and they may go unpunished. The gents were very successful Saturday night, when the store of Jolliffe Bros. was ransacked and goods to the value of \$100 were taken, consisting of shoes, underwear, stockings, etc. Entrance was gained, as near as can be surmised, through a window of Gleason's shoeshop, located in the rear of the store. On Monday Carl Heide found a few articles of the stolen plunder on the railroad near Starkweather's woods. The county sheriff's force ought to make some effort to locate the miscreants there is a probability or a possibility of doing so.

FOR SALE.—House and lot on Ann Arbor st., near the fair grounds, and twenty acres of land one and one-half miles east of Plymouth. Address H. E. Bradner, Lansing, Mich.

WONDERFUL ACCOMPLISHMENT.

Around the World in One Day—A Great Achievement in News Gathering.

In the matter of newspapers, the first impulse is, of course, to provide yourself with the local journal, which presents in detail the important happenings in your immediate vicinity, the doings of your friends and neighbors and keeps watch for you over your city or county government. But in these days of rapid transit and electrical communication, the community is no longer a unit in itself. Even the farmer, with his free rural delivery, is beginning to feel himself a part of the great whole, and to recognize the necessity for keeping in touch with the world and its doings. This can be effectively realized only by taking a metropolitan daily, and, fortunately, the developments of modern journalism have made it possible to do this at so slight an expense that it will hardly be noticed. When you can get The Detroit Evening News for 6 cents a week, you have no excuse for not knowing the latest international, national and State affairs. Its enterprise and activity have laid all the nations of the globe and the islands of the sea under tribute for the information they can furnish, and the news in every department of human endeavor from empire building to berry picking flows into its columns for the benefit of its continually increasing and always satisfied army of readers. It spends money not only to get the news but to have it written and edited in the brightest, freshest and crispest fashion possible, and to provide such intelligent comment and explanation as double and treble its value. If you see it in The News, its new, and it isn't colored by prejudice, partisanship or private interest.

A W. C. T. U. catechism will be conducted to-day by Mrs. J. G. Morgan. There will be no meeting next week on account of the Plymouth fair. The subject for Friday, Sept. 27, is "The American Boy—what shall we do with him?" In charge of Rev. F. I. Beckwith.

John L. Smith, living near Newburg, died Tuesday morning. Deceased was born in Livonia township, April, 1833. He was father of seven children, three of whom have passed beyond. The funeral occurred yesterday afternoon, services being conducted by Rev. Shannon, of Wayne, assisted by Rev. W. G. Stephens. He was a member of Plymouth Rock Lodge F. & A. M., who attended in a body and conducted the burial service of the Order at the grave. Mr. Smith was a man highly regarded in this community, where he had long lived and was well known. The family have the sympathy of many in their bereavement.

Northville Record:—A year or so ago the council ordered the president and clerk to settle with the Electric Light Construction company. In making this settlement it seems there was borrowed three or four thousand dollars at the bank. Notes to that amount have turned up so far and there is no record of the transaction no one knows officially just how many more there are. This at best is questionable way of doing business. The law is explicit in saying that no money shall be borrowed except by an aye and nay vote of two-thirds of the council, and there is no record of any such vote being taken. And in addition to this the law

is also explicit in saying that in any event no amount greater than one-fourth of the tax shall be borrowed in any year by the council. The tax was \$6,000 in 1900 and yet there was evidently notes given for more than \$3,000 that year. A greater amount than one-fourth the tax (or in this case \$1,500) could not lawfully have been borrowed. The treasury is now again about "busted" and the prospects are good for a need of \$2,000 more to carry things through until next tax time. The present council knew nothing about these electric light notes and consequently did not spread a tax in anticipation of them.
