Something that Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden, S. C., Messenger. For sale at Meiler's drug store.

Mail Delivered by Automobiles.

A Washington special to the Detroit Free Press says:

The postoffice department is considering the proposition to use automobiles in connection with the rural free delivery system and wipe out all of the fourth-class postoffices. County services are now being mapped out in a number of the states and will be started as soon as possible. Michigan will have two counties started by March 1, Clinton and Ingham, and it is probable that the automobile may be given an extended trial in one of them.

Recently experiments were made in Lenawee county under the direction of Postmaster Friddy, of Adrian, who has submitted his report. The machine was furnished by a private concern and made the route of 24 miles, with 140 stops, in about three hours, using 2 1/2 gallons of gasoline. This is less than half the time required by horse and wagon. Among other things Postmaster Friddy reports that the automobile did more to induce the farmers to keep the roads in good condition than anything else, and was a great success.

By perfecting the county service and using automobiles it is figured that all the fourth class postoffices can be done away with, thereby saving the cancellation fees which now go to these postmasters. The proposition is to map out routes forty miles in length and have them start from salaried offices. As yet nothing definite has been accomplished, but the plan is under consideration, as feasible. It would cut down congressional patronage, but would greatly improve the mail service.

Map It.

A surprise party was given little Miss Vera and Master Lynn VanVleet at their home on Main street by about fifteen of their little friends last Saturday afternoon, the occasion also being Lynn's 10th birthday. Refreshments were served and a pretty souvenir of the occasion was presented each boy and girl. It is needless to say that the little folks had a nice time.

The council on Monday evening passed a resolution to purchase the Bennett property, corner Union and Sutton streets, and widen the former street to its full width. The price to be paid is \$1,200. The land is a trifle wider than the street proper, which strip will be purchased, we understand, by Mr. Markham, whose property adjoins. When the deal is finally completed, the village will not be much money out of the treasury, and the property owners will be much more pleased and convenience.

Mrs. Hert Taft gave birth to a son last Thursday. Puerperal fever set in shortly afterwards and the lady died Wednesday evening, about 9:30. Deceased was nearly 37 years old and leaves two children, husband, parents and brother and sister to mourn her loss, being a daughter of Mr. and Mrs. Henry Leadbeater. She was a devoted wife and mother and her death has cast a shadow of gloom over her large circle of friends and relatives. The funeral will take place this afternoon from the house, services being conducted by Rev. T. B. Leith.

Plymouth Savings Bank.

The annual meeting of the stockholders of the Plymouth Savings bank was held Tuesday, the 19th inst. From the report of the cashier the bank was shown to be in a very prosperous condition, having paid its stockholders a five per cent dividend.

During the year several prominent Detroit gentlemen have become identified with the bank, adding greatly to its strength and efficiency. Among the more prominent are William Livingston, president of the Dime Savings Bank, F. A. Smith, cashier of the Commercial National Bank, Hoyt Post, Attorney for and director in the Michigan Savings Bank, A. W. Comstock, banker and railroad contractor, and A. E. F. White, of D. M. Ferry & Co., and also a director in the Commercial National Bank.

The following were elected directors for the ensuing year: T. C. Sherwood, W. O. Allen, T. V. Quackenbush, J. B. Tillotson, Geo. S. VanSickle, William Livingston, Hoyt Post, F. A. Smith, E. K. Bennett. At the directors' meeting which followed the stockholders' meeting, T. C. Sherwood was elected President, E. K. Bennett cashier and Charles Butterfield assistant cashier.

Mr. Sherwood is not a novice in the banking business, as he was the first president of the Plymouth National Bank which was incorporated Dec. 12th, 1883, and remained at its head until Jan. 1st, 1889, when he resigned to become Commissioner of the State banking department. Mr. Sherwood brings to the bank the varied experience of a successful banker, and will maintain the high standard of excellence the bank has already attained. Although Mr. Sherwood is the president of the Norris Company, Detroit, employing over 250 persons, he intends to give at least half of his time to the bank.

The concert on the 29th of this month, at the opera house, by the Schiller Male Quartette, will be a rare musical treat. This company ranks with the Boston Temple Quartette, which is all that need be said in its praise. Each member is a fine soloist and the harmony and phrasing in their quartette work is splendid.

On the 10th of Feb. the Royal Entertainers appear, and the 12th of March the harp concert by the DeBarrie-Gill Co. Both of these attractions promise to be unusually pleasing. The committee will sell a ticket for these three numbers for 75cts. Reserved seats at half price. The school ticket the same as at the first of the season. Tickets can be purchased at the Wolverine drug store, or of any member of the Woman's Club.

The presiding officers of the Michigan legislature made their committee announcements last Wednesday night and the respective bodies may now be said to be in "working order." Rep. Neal gets the chairmanship of one of the most important committees—ways and means. Senator Goodell also gets several good chairmanships. The Senator introduced a bill Wednesday evening, at the first opportunity, to assess mortgages to the holders thereof and deduct the same from the assessment of the mortgagor. A measure similar to this was vetoed by Gov. Bliss at the last session, but the equitableness of the measure is so plainly apparent that we hope it may become a law this time, and we urge the Senator "to push it through."

Forrest Hudson and Albert Birch, two young men, were arrested by Constable Dan Smith on Monday on complaint of Special Agent Loudon, of the Pere Marquette, for breaking into and entering a freight car in the yards here, and stealing a five-gallon cask of whiskey, on the night of January 11th. They were brought before Justice Valentine on Tuesday and admitted their guilt. The case was one for the circuit court to deal with and they were accordingly bound over in the sum of \$500. Being unable to furnish it they were taken to the county jail.

There was a little shake-up in the directorate of the First National Exchange bank Tuesday afternoon, some of the older gentlemen on the board being replaced by a younger element. Only two of the old directors were re-elected, the following being chosen: D. D. Allen, Peter Voorhies, Geo. A. Starkweather, O. A. Frazer, Chas. A. Fisher, E. N. Passage and E. C. Hough. At a meeting of directors Wednesday afternoon the following officers were chosen: D. D. Allen, president; O. A. Frazer, cashier. The new president is one of our most solid and prominent farmers and business men and under his direction and with the advice and counsel of his associates on the board, the bank will continue to have the confidence of the community and an increase of business will certainly follow.

During the month of January I will be in the old store after 6 p. m. every evening, or can pay during day to E. L. Riggs during January.

The city of Detroit has gone into the soft coal business and is selling to small consumers at the rate of \$6.00 per ton, not delivered. The coal barons of Detroit, like those of other cities, are playing a game of hold-up and are charging all kinds of prices. Plymouth coal dealers are charging \$6.00 per ton delivered, and there is no reason why Detroit should not get its coal at the same price or even less.

COLLECTION OF TAPA CLOTHS.

Specimens at San Francisco Are as Fine as Silk.

In the collection of South Sea curios now being installed in the park museum at San Francisco are some curious and diversified specimens of tapa cloths from various island groups, showing the decorative figures and patterns peculiar to the Samoans, the Fijis, the Tonga Islanders and the ancient Hawaiians. This tapa cloth collection will be particularly interesting to fanciers of such things, now that tapa cloth is becoming rare and old patterns are worth much more than they were a few years ago. There are some tapas in this exhibit of the softness and fineness of silk, and they were used as loin drapes by dancing girls. Some are a delicate yellow, some a leathery black, some a silvery white and some a grayish black, while there are many ranging through the tan shades and the terra cotta so familiar to possessors of tapa cloths.

WANTED TO BE SURE.

Convivial Clubman Uncertain Whom Drink It Was.

The newly completed skyscraper at the intersection of Broadway, Fifth avenue and Twenty-third street is advertised in a novel way by illumination of its various stories with encircling ribbons of light, so that it presents a striking effect at night. Recently two clubmen who are noted for their convivial proclivities dined generously at a restaurant in the neighborhood, spending the major part of the evening in the cafe, consuming liqueurs, highballs, P. P. C.'s and "just one more for the last." As they were about entering their cab one eaped the tall building with its alternate bands of light and shade dying away in deep shadow at the base and said: "Say, chappie, iss zat your pousse-cake or iss it mine?"—New York Times.

A Long Way From the Finish.

The Cape-to-Cairo railway would be 5,700 miles long in a direct line between Cape Town and Cairo. At the present time the rails are laid to within 200 miles of the Zambesi, or about 1,500 miles from Cape Town, and there is now a railway from Cairo to the junction of the blue and white Nile, or 1,400 miles from Cairo. It is thus seen that a line 2,800 miles long must yet be built to connect these terminal systems. The Uganda railway is built, connecting the port of Mombasa, on the Pacific ocean, with Port Florence, on Lake Nyanza; the length of the line is 500 miles. The Bulawayo-Beira railway connects the system with the ocean at the last mentioned port. At Bulawayo the line is 4,469 feet above sea level.

What He Had Not Noticed.

One of a family of girls renowned for their ready wit had occasion to cross Broadway with her brother, says the New York Times. Just in front of them was a very pretty girl, holding her skirts, well, rather high, thereby displaying a bewitching foot and ankle. The brother turned to his sister and said: "I sincerely hope that when you cross the street you hold your skirts less high. It's simply disgusting." The girl smiled a wee smile. "I'll bet you cannot tell me what kind of a hat she has on!" she answered. Needless to say, the brother has given no further advice.

Handsome Reward for Dog.

The first dog to receive benefit from an insurance company lives in Colorado. This distinguished canine won his reward by barking at a red light in Boulder county, which caused his master to awake and save a train from being wrecked in a burning bridge. President Frank Trumbull of the Colorado and Southern received a letter from Frank & Du Bois of New York soon after the occurrence. This letter was accompanied by a check for \$25. Now it happens that a twenty-five dollar check will buy a very large collar, while it was a very small dog that did the barking.

Calm Stage Manager.

Maurice Grau's stage manager this season is a Belgian named Almans, a man of high professional reputation in Europe and a wonder of sartorial perfection. Amid the scenes of confusion that occur between acts he stands the picture of faultlessly dressed composure. He wears immaculate evening clothes, never removes his white gloves however strenuous the action of his subordinates may become and under no circumstances allows his opera hat to fall from under his arm. New York has never seen his equal.

Truly, We Are a Great People.

The inhabitants of the United States, including Porto Rico, Hawaii and the Philippines, number about 82,000,000, barely 5 per cent of the world's total inhabitants. Yet we have possession of 25 per cent of the cultivated area of the earth. We produce 75 per cent of the world's supply of corn, 25 per cent of the wheat, 40 per cent of the iron, 55 per cent of the copper, 90 per cent of the lead, 33 per cent of the quicksilver, 31 per cent of the gold and 23 per cent of the silver.

Our Country's Growth.

At the beginning of the nineteenth century there were sixteen cities in the country which had a population of more than 4,000. Philadelphia was first in the list with 29,000, with New York a close second, while Baltimore had taken third place from Boston by 26,000 to 25,000. At the same period the population of the country was 3,500,000, of which only 5 per cent was urban.

A prominent club woman, Mrs. Danforth, of St. Joseph, Mich., tells how she was cured of falling of the womb and its accompanying pains and misery by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Life looks dark indeed when a woman feels that her strength is fading away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was advised that my poor health was caused by prolapsus or falling of the womb. The words sounded like a knell to me, I felt that my sun had set; but Lydia E. Pinkham's Vegetable Compound came to me as an elixir of life; it restored the lost forces and built me up until my good health returned to me. For four months I took the medicine daily and each dose added health and strength. I am so thankful for the help I obtained through its use."—Mrs. FLORENCE DANFORTH, 1007 Miles Ave., St. Joseph, Mich.

A medicine that has restored so many women to health and can produce proof of the fact must be regarded with respect. This is the record of Lydia E. Pinkham's Vegetable Compound, which cannot be equalled by any other medicine the world has ever produced. Here is another case:—

"DEAR MRS. PINKHAM:—For years I was troubled with falling of the womb, irregular and painful menstruation, leucorrhoea, bearing-down pains, backache, headache, dizzy and fainting spells, and stomach trouble.

"I doctored for about five years but did not seem to improve. I began the use of your medicine, and have taken seven bottles of Lydia E. Pinkham's Vegetable Compound, three of Blood Purifier, and also used the Sanative Wash and Liver Pills, and am now enjoying good health, and have gained in flesh. I thank you very much for what you have done for me, and heartily recommend your medicine to all suffering women."—Miss EMMA SNYDER, 218 East Center St., Marion, Ohio.

"FREE MEDICAL ADVICE TO WOMEN." Women would save time and much sickness if they would write to Mrs. Pinkham for advice as soon as any distressing symptoms appear. It is free, and has put thousands of women on the right road to recovery.

Mrs. Pinkham never violates the confidence thus entrusted to her, and although she publishes thousands of testimonials from women who have been benefited by her advice and medicine, never in all her experience has she published such a letter without the full consent, and often by special request of the writer.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Party Was in Danger.

On a homeward-bound trip from London the late "Tom" Reed was with a party of Americans in the Euston express for Liverpool. Something went wrong with the brakes, and the train pulled up with a vast amount of jerking and screeching at a little town called Hellaby, between Chester and Liverpool. Mr. Reed poked his head out of the window and read the sign on the station platform. "Hell's by!" he exclaimed. "Good gracious, I hope not."

WEAK WOMEN.

CONSTIPATION STARTED YOUR SUFFERING. CURE IT AND YOUR AFFLICTION WILL VANISH. Mull's Grape Tonic Cures Constipation.

When the bowels move irregularly the entire bodily system must suffer. Constipation more frequently occurs among women and it manifests itself in provoking profuse leucorrhoea and other serious female diseases. Regular bowels will result in a complete cure when you use Mull's Grape Tonic. Unlike pills and ordinary cathartics, this remedy is a mild, gentle laxative in addition to being a greater flesh-builder, blood-maker and strength-giver than cod liver oil or any other preparation recommended for that purpose. Mull's Grape Tonic will permanently cure the most obstinate case of constipation, and the numerous affections that invariably follow in its wake. No matter if it is piles, liver complaint, kidney disorder, vertigo, palpitation of the heart, diarrhea or the self-poisoning which follows emptying highly diseased germs into the blood, such as typhoid and malaria, Mull's Grape Tonic will positively cure. Large sample bottle will be sent free to any address on receipt of 10 cents to cover postage, by the Lightning Medicine Co., Rock Island, Ill. Send name of your druggist. All druggists sell Mull's Grape Tonic at 50 cents a bottle.

18 BELOW IN MINNESOTA.

Zero Weather Prevalent All Over the Central West.

Seven degrees below zero was the record at St. Paul, Monday night. Moorhead, Minn., reports 18 below. Duluth 6 below. Lacrosse, Wis., 8 below. Fuel is scarce, and, although there is not yet an actual famine, there is much suffering.

Zero weather prevailed in Kansas City at 7 o'clock Monday morning. Suffering because of lack of fuel is severe. Similar conditions exist at all points throughout this part of the southwest.

Two-tenths of a degree above zero was the record at Cincinnati, O., Monday morning. Fortunately Cincinnati has no coal famine.

The lowest temperature of the winter was recorded at Cleveland Monday, 4 degrees below zero. At other points in northern Ohio the temperature fell to 8 below. The scarcity of fuel in many quarters caused much suffering.

Michigan Will Not Oppose.

Senator Burrows succeeded in bringing about an amicable settlement of the Cuban reciprocity treaty trouble, which is entirely satisfactory to the beet sugar manufacturers of his state and which insures the support of both Michigan senators. He had an extended conference with the president and the members of the senate committee on foreign relations and succeeded in convincing them that the future stability of the beet sugar industry demanded a fixed reduction of the tariff for a fixed period. In other words, he demanded that, if the beet sugar manufacturers are to submit to a reduction of the sugar tariff, it should be a fixed reduction and for a definite period, in order that they might carry on their business without fear of further disturbance.

President Roosevelt is gratified over the settlement. There will be no more objection on the part of the beet sugar manufacturers and the only point to be determined is whether the Cuban government will accept the terms. It is believed that Cuba will be glad to do so.

Wife of a Drunkard.

The first notable case under the licensing act, which went into effect Thursday, came up in a London police court Friday, when Sir Charles Allen Lawson, the Anglo-Indian newspaper editor and writer, applied for a summons against Lady Lawson, whom he described as a habitual drunkard. The summons was granted.

The new act enables either a husband or wife to secure a separation in the case of habitual drunkenness, and allows the police to arrest an inebriate anywhere except in a private house, whether disorderly or not.

A direct freight carrying road from the Soo to St. Ignace will be at last laid in the new electric line which, it is announced, will be built early in the spring. The run will be made in an hour, with power from the Michigan Lake Superior Power Co.

A more active demand is expected in case of sustained cold weather, but with mild spells there is little chance for more demand. In potatoes there is a fair demand, but fruits and vegetables are moving slowly.

HEALTHY WOMEN

Praise Pe-ru-na as a Cure for Colds and a Preventive of Catarrh.

MRS. M. J. BRINK
FIRST STAGE OF CATARRH.
A Serious Mistake Which Thousands Are Making.

The first stage of catarrh is what is commonly known as "catching cold." It may be in the head, nose, throat or lungs. Its beginning is sometimes so severe as to cause a chill and considerable fever, or it may be so slight as to not hinder a person from his usual business. In perhaps a majority of cases little or no attention is paid to the first stage of catarrh, and hence it is that nearly one-half of the people have chronic catarrh in some form.

To neglect a cold is to invite chronic catarrh. As soon as any one discovers

the first symptoms of catching cold he should at once begin the use of Peruna according to directions on the bottle, and the cold is sure to pass away without leaving any bad effects.

Unless this is done the cold is almost sure to end in the second stage of catarrh, which is making so many lives miserable. If Peruna was taken every time one has a cold or cough, chronic catarrh would be practically an unknown disease.

how glad I felt when it began to relieve me in a very short time. In less than two weeks I was completely cured."—Sibyl A. Hadley.

Miss Sarah McGahan, No. 197 Third street Albany, N. Y., writes:

"A few months ago I suffered with a severe attack of influenza, which nothing seemed to relieve. My hearing became bad, my eyes became irritated and feverish. Nothing seemed right and nothing I ate tasted good. I took PERUNA and within two weeks I was perfectly well."—Sarah McGahan.

Miss Elizabeth Ober, No. 57 Bassett street, Albany, N. Y., writes:

"I have always dreaded unsettled weather because of my extreme liability to catch cold, when a catarrhal trouble would quickly develop through my entire system, which it would take weeks to drive away. I am thankful to say that since I have taken PERUNA I do not have any reason to dread this any more. If I have been at all exposed to the damp, wet or cold weather, I take a dose or two of PERUNA and it throws out any hint of sickness from my system."—Miss Elizabeth Ober.

Mrs. M. J. Brink, No. 820 Michigan avenue, St. Joseph, Mich., writes:

"This past winter during the wet and cold weather I caught a sudden and severe cold, which developed a catarrhal condition through my entire system, and so affected my general health that I was completely broken down, and became nervous and hysterical and unfit to supervise my home. My physician prescribed for me, but somehow his medicine did me no good. Reading of PERUNA I decided to try it. After I had taken but three bottles I found myself in fine health."—Mrs. M. J. Brink.

Sibyl A. Hadley, 26 Main street, Huntington, Ind., writes:

"Last winter after getting my feet wet I began to cough, which gradually grew worse until my throat was sore and raw. Ordinary remedies did not help me and cough remedies nauseated me. Reading an advertisement of what PERUNA could do I decided to try a bottle, and you can imagine

WORKMEN FIND A "BIRD STONE."

Fine Specimen of Prehistoric Relic Unearthed at Streator, Ill.

A fine specimen of the prehistoric "bird stone" was unearthed at Streator, Ill., by workmen employed by the Chicago & Alton railroad. It is five and a half inches long and an inch and a half high, and archeologists have pronounced it a magnificent specimen.

A "bird stone," while of the undefined class of prehistoric ornaments or charms which have been called "ceremonials," represents stone age art of no mean degree. This specimen is finely finished and polished and is extraordinary in its workmanship, gracefulness and beauty. It represents, perhaps, the highest achievement of prehistoric American art.

Many theories regarding the use made of "bird stones" are fanciful. It has been asserted that they were worn by married Indian women. Again, it is claimed that "bird stones" were worn by Indian conjurers, and still another guess is that they were bound to the prows of canoes. It has also been guessed that they were employed in playing a game; that they were totems of tribes and clans, and that they were talismans in some way connected with the hunt for water fowl.

This "bird stone" unearthed by the Chicago & Alton engineers must have been hammered or pecked into shape, and afterward ground to its present form, and then polished diligently, for it is nearly as smooth as glass. Consideration of the then existing conditions demonstrates the difficulty of making the object and the dexterity and workmanship required.

The March of Science.

Oolittle, Ind., January 12th.—That Oolittle is right abreast of the times in the use of the most recent discoveries in Medical Science is shown by recent cases in which those dreaded Kidney Complaints that cause so many deaths have been completely cured by the new Remedy, Dodd's Kidney Pills.

Many people in this neighborhood tell of aches relieved and pains departed because of the use of Dodd's Kidney Pills. One of these is W. A. Terry, the well-known Grocer. Here is his story:

"I suffered for four months with Kidney and Bladder Trouble and was so bad that I was almost confined to my bed. I could get no relief until I commenced using Dodd's Kidney Pills.

"I could notice an improvement the second day I took the pills. I would recommend Dodd's Kidney Pills to all sufferers from Kidney Complaints."

NOW SCOTT WAS CAUGHT.

Unfortunate Incident Disclosed Great Novelist's Secret.

Wordsworth, though he had the appetite of a healthy mountaineer, drank neither wine nor malt liquors, and this abstinence Sir Walter Scott seems to have found rather trying while he was the English poet's guest at Rydal Mount. But there are many good wayside inns in the lake country, and into one of these Sir Walter would slip during his daily constitutional walk, and there drink a pint of honest malt liquor. It is needless to say that when he and Wordsworth strolled out together he would pass the inn with a dry throat, for Sir Walter was one of the kindest and most courteous of men, and he did not wish his brother poet to know that the water and tea served at his table were not wholly satisfying to the Laird of Abbotsford. But one day while out together they were caught in a storm and took shelter in the inn where the Scotch poet obtained his pint of "heavy wet." As a result, no sooner did the landlord set eyes on him than he greeted him with the query: "Well, Sir Walter, ha' ye come for your pot o' ale?"

FORTUNE IN WALL PAPER.

Residence in Albany, N. Y., Has Most Costly Adornment.

A portion of one of the walls of an old-fashioned, unpretentious residence in Albany, N. Y., is adorned with wall paper valued at upward of \$200,000. To be more specific, the wall paper mentioned is valued at the rate of \$50 per square inch. This high-priced wall paper consists of very rare revenue stamps, priced in current stamp catalogues at \$150 each, and readily sell at \$100 per copy. Fairy tales of apartments having walls plastered with stamps of priceless value have gone the rounds of "stamp" journals, but this is a true story. A local stamp dealer has investigated the matter personally and vouches for the accuracy of the statements.

Bears in a Lawsuit.

At Berne, Switzerland, are kept bears that belong to the town, and are treated, as citizens. Their ancestors at the end of the eighteenth century were left a legacy by an admiral, and as the sum came to several millions of francs, their keepers used to enjoy themselves very much, the bears being looked upon as minors. But after the French revolution Gen. Bruns, who had invaded Switzerland, walked off with the bears' property and left them penniless. Another admiral has now left them a legacy, but the bears are still unfortunate, for the parish of Porrentruy lays claim to the money and intends to bring the matter before the law courts.

Gardening Superstitions.

In Somerset we plant cabbages with the waning moon, certain that so they will grow and be lusty. If we put them in, or set any flower or fruit tree when her white ladyship was gibbous in the attenuating scale, our labor would be vain, for that which we planted would but wane with Diana. Just so, when horseradish needs, as this engaging plant generally does, to be eradicated, the right time to begin is in the moon's eye of the veil. Another West Country tradition forbids lilies of the valley to be set in a bed under pain of not distant death to the operator.—London Garden.

How Girls Carry Car Fare.

The up-to-date girl has a new danger upon her chain, says the Chicago American. It is a cylindrical-shaped affair, small in size, and from it a nickel springs out whenever the fair one wishes to pay her carfare. These new coin carriers are dainty little affairs in gun metal, not much larger than a five-cent piece. But they are handsomely finished and mounted, and in themselves are an ornament. They are attached to the long chain that every well-dressed woman is wearing these days. But since the ornament is of gun metal the chains are perfectly of gun metal also, set with crystals.

Wife's Graceful Compliment.

On the eve of Minister Wu's departure from Washington a young woman of his acquaintance said to him that she hoped to visit China some day, as what he had told her about his native country had been so interesting. "But you have never explained," she added, "why Chinamen take four or five wives." With a grave bow the oriental diplomat said: "My countrymen take so many in order that they may find in all of them the beauties and accomplishments of one such young lady as you."

Anyway, He Got the Kiss.

A few months ago a young Englishman was sentenced to a fortnight's imprisonment for kissing his fiancée in the streets of Odessa. It is strictly illegal for lovers to osculate in public in South Russia, and it was only after considerable trouble on the part of the British consul that the too amorous youth was liberated at the expiration of three days' captivity, and even then his sentence was commuted to a fine.

Large Catches of Fish.

Catches of fish were never larger or either side of the Atlantic. More than 60,000,000 of herrings were taken in nets in one haul of the boats off the English coast. If the prices of cattle on the ranges, and in the stockyards, are kept so high that the poor man be compelled to banish beef from their tables, the salt water crops are so profuse and abundant that they will go a long way to supply a substitute.

COURSES AT CHINESE DINNER.

Wondrous Edibles Served at San Francisco Banquet.

At a Chinese dinner given in San Francisco in honor of Mrs. Robert Louis Stevenson these were among the queer things served: Eld's nest soup came in four different courses. According to one guest, it was transparent, tasteless, utterly unwhiting, and more like wallpaper paste than anything else. Chinese nuts took the place of salted almonds. Then there were dried eels sliced in chicken broth, sharks cooked in a dozen ways and served in several courses, "Jotus flower," consisting of a slice of fat pork, a slice of dried duck and a piece of preserved watermelon, so arranged that one could take a bit of all three at once; dried mushrooms, turtles, preserved ducks' eggs, sharks air bladders in oil, abalone meat, a dainty worth its weight in gold, being a tiny part of a little sea animal; the web of duck's feet, duck which had been baked, stuffed with mushrooms and steamed, and almond gruel.

WHY SUCCESS DOES NOT COME.

Many Men Allow Their Opportunities to Escape.

A great many men have been left behind because of their listlessness, their easy-going ways. They were too slow. Opportunities would not wait for them. They would have taken advantage of them, would have succeeded, if the chance had not hurried by so fast. If the opportunities had tarried a while, had given them a chance to look them over and consult their friends, or if they had only come back these gentle people would now be on the heights instead of looking wistfully up from the foot of the mountain. But alas! opportunities never return, and he who is not ready to seize them as they flit onward will have only regrets for his portion.—Success.

Remedy for Sleeplessness.

A physician, writing to a medical journal, declares that he finds peppermint water an efficient remedy for sleeplessness. This is a very simple cure, and it will not bring forth from the organs of professional opinion any declaration of unsafeness. It is added that a mixture of spirits of chloroform and peppermint water given in hot water to the victim of insomnia will produce sleep, but perhaps in the case of the admixture of chloroform water may claim a decided share in relieving the trouble. It is at least easy to try peppermint water, and the theory of its action is believed to be founded on its effect in withdrawing blood from the brain by attracting a fuller flow to the stomach.

Secretary Moody Silenced.

Secretary Moody tried to have fun with President Roosevelt over his failure to kill a bear during his recent hunt in Mississippi. "I may not have killed a bear but I did not mistake a colored woman for a wild turkey," retorted the president. "I can have just as much fun with you as you can have with me," Mr. Roosevelt continued, and he spoke very loud as he told how the secretary while on his recent hunting trip in South Carolina filed a colored woman full of shot, mistaking her for a turkey. The president put a few fine touches on the story and before he had finished it he had the secretary buying a flock of chickens at a fancy price in order to pacify the angry negress.

A Bald-Headed Monarch.

Edward VII. is the first English sovereign to figure on the coinage as bald-headed. It is very possible that several of his predecessors had less of nature's crown than his majesty and that when taken to pieces for the night they became almost unrecognizable instead of remaining in the ever-tame condition of present-day kings and emperors. However, their coinage represents these bygone monarchs in caps and crowns or voluminous wigs and wreaths or skillfully arranged toupees that are very like the genuine thing.

Extreme in Experiments.

Lady Bancroft, the London actress (this was before her husband got a handle to his name) accidentally cut her hand one morning. In the evening she was talking about it to her fellow players. "It is a lucky thing for me," said she, "that I am not a drinker, for a wound such as this might be a very serious thing if I had much alcohol in my system." "Oh, yes," coincided a bon vivant in the group, "that's a well-known fact. Indeed, I often cut my finger to see whether I've had enough."

Single Thought and Two Souls.

"Smoking on the car!" exclaimed the disgruntled woman as Dennis Flaherty with his short-stemmed pipe took his seat beside her. "Oh am!" rejoined Dennis between long and determined puffs. "And av ye don't loike it go wan up front. These sates is resalvred fer smokers." "If you were my husband I'd give you poison." "Would ye, now?" Puff, puff. "Oh think av ye wor me woife!" puff, puff. "O'd take ut."—Lippincott's Magazine.

Stonework Resisted Gases.

A French scientist visiting the ruins of St. Pierre, Martinique, notes that while much of the stone masonry is well preserved, every vestige of iron-work and other metals was destroyed by the fearful blasts of hot gases that came from Mt. Pelee, nothing left but a black powder. Evidently some extremely rapid chemical action took place, which changed the metal into oxide, etc.
