## Church Sponsors Apple Sale at Saxton Store

A parishioner of St. John's Episcopal church recently donated 1,000 bushels of apples to the church which he specified are to be offered for sale. They are being offered at a price below the market, and are on sale at the Saxton Farm Supply store. All of the proceeds of the sale go to the church.

## City Insurance Agent Honored

Plymouth insurance agent, Joe Merritt, has been honored by the inclusion of his biographical sketch in the 1947-49 edition of the Prominent Life Underwriters of America book. This edition is reported to be just off the press.

There are estimated to be some 120,000 insurance men and women in the United States, and of this number only 1,200 are included in this annual volume. They are selected from the group of life insurance agents who have made records of distinction during the past year.

The Prominent Life Underwriters of America is published by an independent publishing house in Chicago, and all those included must meet rigid qualifications as to volume of sales. Mr. Merritt's biographical sketch told that he is at present district manager for the Wisconsin National Life Insurance company, and has held this position since 1940. He is reported to have started as an agent with Home Life in 1939-40. In the last seven months of 1946 he paid for \$300,000 worth of life insurance and 112 applications. Mr. Merritt served for five years in the air corps. He is a member of the Junior Chamber of Commerce, Kiwanis, and VFW.

It is a good idea to go over clothesrack bars with sandpaper and rub down any splinters that may be there. One small splinter can ruin a pair of nylon or silk hose.

## Engagement Revealed

Barbara Green Mrs. Richard F. Gray, of Elizabeth street, announces the engagement of her daughter, Barbara Green, to James W. Davis, of Farmington, son of Mr. and Mrs. Willard H. Davis, of Schoolcraft, Michigan. Miss Green is the daughter of the late Carlton Green.

Miss Green was graduated from Plymouth high school with the class of 1947, having attended St. Mary's Academy in Monroe for two and a half years. At the present time she is studying nursing at Harper hospital.

Mr. Davis is a graduate of Hillsdale college. He served as a Captain with the U. S. Marine Corps in the Pacific area for 28 months, with the third Marine division. At present Mr. Davis is coaching at Farmington high school.

No date has been set for the wedding.

## Girls Between 8-18 To Be In Show

The feminine talent of Plymouth will be displayed next Saturday evening at the Jaycee auxiliary all-girl amateur show. The sole entry qualification which has been set up is concerned with age. The contestant must be between the ages of eight and 18. Program chairman, Mrs. J. Rusling Cutler, has stated that many have already signed up, and that the talent so far consists mainly of tap dancing, piano playing, and baton twirling.

The show will take place in the high school auditorium at 8 p.m. Cash prizes will be awarded according to age groups. An audience ballot will determine which girl contestant is the best of the evening.

The idea for the amateur show came from Jaycee president George Todd, following a state conference. At that time the various programs of Jaycees throughout the state were discussed, and some of the groups told of their amateur shows which had proved successful. The Jaycees in Plymouth have in the past sponsored the soap box derby for boys, and the auxiliary has felt that something should be done for the girls. The amateur show seemed a solution to the problem, so the groups is sponsoring the show for the first time this year.

Any persons interested in taking part in the show, or desiring additional information, should contact Mrs. Cutler at 32.

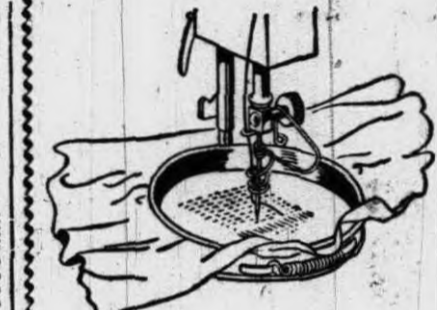

Mrs. Cutler has announced that the acts must be limited to 10 minutes or less and next Wednesday, January 21, is the deadline for signing up to take part in the program. She also stated that contestants should supply their own accompaniment if any is needed.

In Spokane, Washington, Alzar Arndt finally had the cast taken off his broken back after three months, went out to celebrate, got a slap on the back, went off to the hospital to have his back fixed again.

## "Landsakes, It's Past Seven!"

GRANDMA RILEY wasn't fooling either. "Past seven" was bedtime when Grandma was a girl. She was tired and tomorrow would be another hard day. She'd be up at 5:30 and busy every minute. Bread had to be baked and the wood stove had started smoking again. Then there were kerosene lamps to be filled—wicks trimmed and chimneys polished. And the oblong copper tubs had to be filled with clothes and steaming soap . . . then hand-scrubbed and put through the wooden ringer. Beating and sunning the rugs was another job that just had to be done. It had been put off too long already.

Today Grandma is living the life of Riley. She has electricity!

When a friend borrows ten dollars, about the best security you can have is a chain and padlock, a pair of handcuffs and a watchdog.  
"Why does your brother say 'Honk! Honk!' all the time when he is crossing the street?" "It's because he doesn't want people to know that he isn't an automobile."

And if you want to keep on having an automobile, we suggest you drive it in here and honk just once. We will come running to give you the finest service you can ask for—super quality gas, oil and lubrication. That kind of service will insure finer car performance for a long time to come.

**Kiwanians Add Three Members**

Three men were formerly initiated into Kiwanis club at a brief service Tuesday evening. The new members are: William Elzerman, Raymond Tisch, and William Thomas Paul Ramsdell, who conducted the initiation service, stressed that they should observe attendance and membership responsibility, including committee service. He also spoke of the privilege of membership, including community service and citizenship responsibility. Pins were presented by the Kiwanians who sponsored the candidates. Mr. Elzerman was sponsored by Byron Becker, and Mr. Tisch, formerly a member of the Lapeer organization, by Henry Fisher. William Thomas was sponsored by his father, Fred Thomas, marking the second father and son combination in the club's history. The first was composed of Henry Fisher and Roy Fisher. It was announced that Rabbi Fram, of Temple of Israel, will be the guest speaker at next week's meeting. Rabbi Framm, who is one of the outstanding Rabbis in that city, will speak on conditions in Palestine today.

**Sale Breaks All Former Records**

According to Norma Cassady, the sale event which they opened last Monday shattered all previous records of the store for events of this nature. The last day of the clearance event is this Saturday.

Plymouth Fire Loss for 1947 Drops Below Total For Preceding Year (Continued from page 1) were attributed to other unlisted causes, and one was unknown.

The 14 fires in the township, one was attributed to careless smoking, one to careless use of matches, two to defective wiring, one to kerosene or gasoline stoves, two to oil burners, and two to lightning.

The fire chief's report further stated that he and one man are available to leave immediately on the first truck upon the report of a fire, and the volunteer men report to the location of the fire in cars or on the second fire truck.

10 Point Plaque Awarded by Nash Motors

Charles W. Oliver

**CONGRATULATIONS TO CHARLES W. OLIVER**  
SALES—275 S. MAIN ST. SERVICE—1382 S. MAIN ST.  
ON RECEIVING THE NASH 10 POINT AWARD

NASH MOTORS is proud to announce the award of the Nash 10 Point Select Dealer Plaque to this outstanding dealer.

To qualify for this award requires meeting 10 standards which are the highest in the industry today—encompassing every phase of a dealer's service to his customer—sales, service, financial responsibility, business methods and the other qualifications described below.

We invite you to take advantage of these outstanding facilities. Visit their modern service department staffed with factory-trained mechanics.

And in their luxurious showroom, see the outstanding new auto-

mobiles of the year—the sensational Nash "600" and the distinguished Nash Ambassador.

You must see the Nash "600" to realize how far into the future this big car takes you today with economy that means 25 to 30 miles on a gallon at moderate highway speed . . . girder-strong unitized body and frame . . . no squeaks, no rattles.

Only Nash offers such headline developments as the Nash Weather Eye Conditioned Air System and the Convertible Double Bed—an added feature.

Drop in and get acquainted with your Nash 10 Point Select Dealer. You'll agree with us they are fine people who do fine work.

### THESE 10 POINTS OF ACHIEVEMENT MEAN YOU'LL ENJOY THE FINEST SERVICE AVAILABLE ANYWHERE

- CAPITAL**—Strong financial standing is proof that this outstanding dealership is a sound business organization—ready to meet your automotive requirements today and in the tomorrows to come.
- FLOOR SPACE**—You'll find adequate floor space for your comfort in all departments—new cars, used cars, service, parts and accessories.
- LOCATION**—Located for your convenience . . . easily accessible from all sections of the city.
- IDENTIFICATION**—The approved Nash sign identifies this dealership as the home of fine cars and friendly service. Look for the distinctive Nash sign.

- APPEARANCE**—From the very first glance you'll like the looks of this progressive dealership. It's light, clean, attractive—a place you'll be happy to visit.
- SERVICE**—Bring your car in for any service you need. Here are factory-trained mechanics, modern tools and equipment to provide fast, thorough work on everything from a minor adjustment to a major overhaul on any make car.
- PARTS**—This is your parts headquarters. Complete stocks of factory-built and factory-approved parts and accessories are carried for all Nash models.
- NEW CAR SHOWROOM**—Examine the new Nash "600" and the new Nash Ambassador in the spacious

- showroom. It's large enough to avoid overcrowding . . . especially designed to permit you to examine these fine cars from every angle.
- USED CAR DISPLAY FACILITIES**—You'll likely find the used car you want at this Nash dealer . . . a good, clean car that will give you many miles of driving pleasure. And you can look it over in comfort in the attractive used car department.
- ACCOUNTING**—All business transactions are properly recorded in the Nash Standard Accounting System. This means not only that the Accounting Department is modern and well organized, but that all transactions with customers will be handled in a businesslike way.

You'll say "It's Handy"

Any Little Store Can Grow!

All Kroger stores started from the one little store opened in Cincinnati in 1882. That store grew into many through pleasing the people it served. And today any little store can grow into a big store — or into many stores — through giving better service and values. That's the American system — the American way. It was — and is — the Kroger way, too.

**Officials Proceedings Board of Education**

A special meeting of the Plymouth Township School Board was held December 19, 1947 at 9 a.m. o'clock.

Present: Eaton, Hulsing, Strong, Sutherland and Williams.

Absent: None.

Sutherland moved and Hulsing seconded the motion that the Gideons be allowed to give New Testaments to grades 5-12 with the exception of those children belonging to Our Lady of Good Council Church which will provide the Catholic children with Testaments.

Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.

Mr. Nelson reported on the amount and cost of fuel being used per day. The school boilers use 500 gallons of oil per day at a cost of 11.9 cents per gallon, approximately \$60 per day. Coal to heat the same schools would cost about \$90 per day for 12-14 tons. The use of oil even at the increased rate is still cheaper than coal. In addition to the higher original cost of coal would have to be added the cost of firing. The Board expressed themselves well satisfied with the change made last year.

Sutherland moved and Strong seconded the following resolution:

Whereas: Because of their contact with young people, we believe the administrators, teachers, custodians or bus drivers employed by the Board of Education should abstain from the use of alcoholic beverages while coaching, sponsoring or leading a school group, wherever that group may meet.

Therefore: Anyone by their acts not in accord with this resolution shall be subject to immediate dismissal.

Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.

Nays: None.

A check was received from the Rotary Club for the Athletic Field for \$4,640.45 in addition to an earlier one for \$14.

Sutherland moved and Hulsing seconded the motion that the Board thank the Rotary Club for their very generous sponsorship of the Athletic Field. The whole project was a wonderful success and the boys and girls of Plymouth Township Schools will long enjoy the use of the field.

Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.

Nays: None.

Mr. Nelson reported that through the cooperation of the Police, a regular nightly check will be made of the buildings.

The secretary was requested to write letters to the seven holders of notes for the amount due on the uniforms for the band.

Strong moved and Williams seconded the motion that a double entry system of bookkeeping be installed for the school funds; that an auditor be employed to set up such a system and that an audit be made of all funds.

Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.

Nays: None.

Williams moved and Strong seconded the motion that the Board establish a retirement age of 65 for teachers, to be effective beginning with the school year of 1950-51.

Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.

Nays: None.

Hulsing moved and Sutherland seconded the motion that the salary of non-teaching employees be adjusted, to be retroactive to 9-1-47.

Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.

Nays: None.

Williams moved and Strong

seconded the motion that the question of immediate building be tabled.

Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.

Nays: None.

This action was taken because there is a movement to put before the people of Michigan two Constitutional Amendments. One of these would make it possible to raise the tax limitation for building purposes to 15 years instead of the present five. The second would change the number necessary to carry such a change from 2/3 to a majority. If these are passed the amount raised per year would not have to be as large. The superintendent expressed his certainty that in not more than a year we must have more room, due to an increased number of children of school age inside the district. This would be true if no outside districts had been added as the large growth is inside the city.

Williams moved and Hulsing seconded the motion to adjourn. The motion carried and the meeting adjourned at 11:20 a.m.

Respectfully submitted,  
Alice V. Strong, Secretary

A surprise shower was given in honor of bride-elect Roberta Lare on Thursday evening, by Mrs. Robert R. Smith, at the home of the latter's mother, Mrs. Mabel Evans. Games were played during the evening and supper was served. Roberta received many gifts from her friends and co-workers at the Michigan Bell Telephone company.

Ralph Johnson, recreation director, spent last Wednesday in Lansing attending the State Recreation Association meetings at the Hotel Olds. The representative from the State Department of Conservation spoke describing the new 6,000 acre recreation area opened at Wilderness, near Mackinaw. Mr. Johnson was chosen to serve on a committee, to work with Mr. Robinson, in Michigan Extension Service, to help formulate a course of training for summer recreation workers.

There was a man in our town  
And he was wondrous wise  
He saved his coal and saved his gas  
And did economize.

**AND WE URGE YOU TO ECONOMIZE THIS WINTER**

We dislike finding ourselves giving you advice instead of gas. Perhaps we can explain.

Your gas company was a war-time casualty, too. The demand for gas, both from domestic and commercial users, rose to an all-time high. More people came to agree with what we've been preaching right along — that gas is safe, clean and one of the most economical of all fuels.

Naturally, that made us pretty happy. But when it came to obtaining steel for pipe-lines, mains and other plant equipment producing and delivering gas, we were up against it. We learned that for the time being there simply wasn't enough steel to go around.

Until we have all we need, we regret having to curtail new sales of gas for house heating.

Do not miss these wonderful services.

**Rev. Matthews to Visit St. John's**

The executive secretary of the Episcopal Diocese of Michigan, the Rev. Gordon Matthews, will visit Plymouth's St. John's church next Sunday, January 18. Rev. Matthews will preach the sermon and officiate at a celebration of the Holy Communion at a service in the church at 11 a.m.

Mr. Matthews comes as representative of the Diocese of Michigan, holding one of the most responsible positions in the Diocesan organization. As executive secretary, he has the responsibilities for seeing that the programs of work authorized by the annual Convention of the Diocese are carried out within the budgets provided for them. He also has an important part in the administration of the Diocese. He acts as secretary of the various departments, and many of the smaller subsidiary groups, and endeavors to see that the work is done with as little overlapping as possible. He is also responsible for carrying out the details of the financial program of the Diocese, his office handling the collection and disbursement of moneys.

Mr. Matthews is also a member of a group of clergymen appointed by the Bishop of the Diocese to examine young men who are candidates for the Ministry.

Mr. Matthews had many years of experience as a parish priest before taking up his present work, and during that time he served on many of the Departments and committees for which he now acts as Secretary. His most recent parish, which he relinquished in 1943 to take up his present work, was the Church of the Epiphany, Detroit.

While he now has no settled parish, Mr. Matthews travels about the Diocese constantly, visiting the parishes and missions, and preaches in a different church almost every Sunday.

**Lecture to be Broadcast Over Station WJLB**

Directors of Eighth Church of Christ, Scientist, Detroit, announce that the Christian Science lecture which will be given in that church on Friday, January 16, by Earl McCloud of San Antonio, Texas, will be radiocast over Station WJLB.

This will enable a far wider audience to hear this important explanation of the knowledge of God that brings freedom. The subject of the lecture will be: "Christian Science: Its Annulment of Unjust Condemnation." Mr. McCloud is an authorized speaker, being a member of the Board of Lecturers of the Mother Church, The First Church of Christ, Scientist, in Boston.

The time of the lecture is 8 p.m. and for those who have never heard a Christian Science lecture, a section of seats will be reserved until 7:45. The lecture is free, and all are welcome. Eighth Church is located at Grand River avenue and Evergreen road.

ABOVE the city street a church's spire is climbing its bright ladder to the sky. The steeple's slates glow red, its tip is fire, A single burning finger there, and high Above that peak a flying white dove swings, A scarlet light upon its lifted wings.

These are God's emblems, and they call to men Above the darkening shadows of the street, Beckoning to them, bidding them hope again, Bidding them stay a moment their swift feet, Calling to them to lift their eyes, and there, Seeing that pointing finger, breathe a prayer. And the white bird flying heavenward bids them cease The clamor of their hearts and find His peace.

Y-TEENS SPONSOR PARTY FOR HI-Y AND VARSITY

Next on the agenda for Y-Teens is a square dance Monday, January 19 from 7 to 9:30 p.m. with the Hi-Y club and Varsity as the guests.

MINOR CHANGES ADDED DURING YULE VACATION

To the surprise of many a student as he entered the main corridor after a week of Christmas vacation, he found a new drinking fountain in place of the old one. It is a circular affair with three faucets instead of the usual one, so that more students might quench their thirsts in less time.

Although the Christmas vacation was a period of rest and relaxation for most of the students, it did not affect the janitors in the same way. They were busy plastering a partition to make a hall-like effect from the main hall into the guidance department.

Making love is like baking a pie. All you need is a lot of crust and some applause. (Then you mix with spoon.)

SENIORS BEGIN PRACTICE FOR ROLLICKING COMEDY

Rehearsals for the senior play, "Our Hearts Were Young and Gay", under the direction of Miss Louise Spence, began last week. The following people are in the leading roles: Kathleen Bloxson as Cornelia Otis Skinner, Barbara Ann Daniel as Emily Kimbrough, Tom Hopson as Dick Winters, Tom Corey as Leo McEvoy, Gerry Moffitt as Mrs. Skinner, and Rod Cassidy as Otis Skinner.

Others in the cast are: Bob Sexton, steward; Jack Carney, purser; Henry Knight, admiral; Allyn Williams, Harriett St. John; Betty Hitter, Winifred Blaughr; Lois Blankenhagen, inspector; Doris Waldecker, Therese; Betty Helmer, Madame Elise; and Dick Daane, Monsieur de la Croix.

The dates set for the Seniors to do their performing are Wednesday and Thursday, February 18 and 19, in the high school auditorium.

STUDENT COUNCIL MEETS TO DISCUSS PROBLEMS

Student Council members held their regular meeting at 2:30 p.m. Wednesday, January 7, in the high school cafeteria.

Alline Burns read a letter from UNESCO Paris, France, thanking the Plymouth schools for their generous contribution to the "March of a Million Pencils Drive," stating that more information would be sent at a later date.

Irving Stewart, chief of the police system, reported the good and bad points of the force so far and stated he hoped for present difficulties to be straightened out immediately. Discussion by the members followed as to how improvements could be used to make the force more effective.

Recognizing the immediate need for a public address system connecting all rooms in the building with the office, Bruce Kidston was appointed chairman to make arrangements with Northville, Redford Union, and Ypsilanti to view their communication system. Others on this committee are Beth Sutherland, Betty Salmon, Jack Scheel, and Dave Reitzel.

SEMESTER EXAMS SLATED FOR JANUARY 28 AND 29

Rushing upon the pupils of Plymouth High school is the thought of final exams which will be given on January 28 and 29. Announcements of the exam schedule were issued thus: Wednesday, January 28, from 8:30 to 10:15 a.m., first hour; 10:20 to 12 noon, second hour; 1 to 3 p.m., fourth hour. On Thursday, January 29, the third, fifth, and sixth hour exams are timed for 8:30 to 10:15 a.m., 10:20 to 12 noon, and 1 to 3 p.m.

Farm Bureau Has Roll Call Meeting

Farmers of Wayne County attended a Roll Call School of Instruction on Tuesday, January 13, at the Sheldon church.

A speaker from the state office addressed the group on "Farming—A Family Enterprise". He discussed with the Roll Call workers the need for the American farmer thinking, planning and acting collectively through a farm organization.

Wayne County Farm bureau organization manager, George Matevia, stated that "Our present membership is 254. We believe we can do better because we have many Wayne County farmers who believe enough in the Farm Bureau movement and will give voluntarily a few days of their time to put our Annual Roll Call drive over the top."

J. E. Brinks, of Plymouth, is Roll Call manager, assisted by the following township captains: George Malevia, Van Buren; J. Schroeder, Livonia; Jess Brown, Brownstown; George Hasselbach, Nankin; George Bowers, Romulus.

In addition to the present membership of 254, Wayne County has 4 community Farm Bureau discussion groups. Part of the program for the coming year is to increase the membership of this group.

A new and interesting division of the program is the newly organized Michigan Farm Bureau Women's activities. Heretofore, women were considered part of the family membership and usually did not participate too actively, but beginning with 1945, the chairman of the Michigan Farm Bureau program automatically becomes a member of the board of directors of the Michigan Farm Bureau.

**Nelson Speaks to Detroit Leaders**

Speaking before members of the Detroit Economic Club, Superintendent of Plymouth schools Helmar Nelson, stated that "education today can and is profiting from the work business and industry has done in research."

Mr. Nelson spoke to the group of Detroit's leading business and industrial leaders at the meeting which was held last Thursday, January 8. His topic was "What Are The Implications From Research in Business and Industry for Education."

Many of his comments were based on observations made last summer when he and numerous other superintendents toured places of business and industry throughout the nation.

It was reported that today business and industry are spending one and a half billion dollars for research. In connection with this, Mr. Nelson says that "Some of the proven methods and techniques are now being utilized in the schools." He stressed that "education does not have sufficient funds to carry on the necessary research programs," and emphasized that "it would be a sound investment for business and industry to assist the schools financially in research."

The speaker reiterated that the "ultimate aim of education is to prepare young men and women so that they will fit into the world of tomorrow and learn to work and live together in harmony. Research," he concluded, "would bring to light the unknown techniques and procedures necessary to develop these traits. We have the pliable youth, but we need your cooperative assistance."

them juicy.

The older birds are better if they are steamed for about two hours before stuffing. This is best done the day before serving so the fowl will have a chance to cool or it will be hard to handle. Roast the chicken in a moderate oven for one and one-half to two hours or until tender and brown, covering the pan for the first hour and adding some of the broth from steaming to keep the chicken moist.

**THREE MEALS FROM ONE**

A small family can use one large fowl or stewing hen as the basis of three tempting meals. For the dishes suggested below it's best to prepare them by simmering in water until tender.

For savory flavor be sure to add some celery leaves, a small onion with a clove or two stuck in it, a carrot, a sliver of bayleaf and a sprig of parsley. Strain the flavoring vegetables out of the stock and save every drop of it to make sauce or gravy.

**Savory Chicken Chouder**

Three-fourths cup diced cooked chicken, 3 tablespoons chicken fat, 2 tablespoons chopped onion, 1 cup diced potatoes, 3/4 cup diced celery, 1 1/2 cups chicken stock, 1 1/2 cups whole kernel corn, 1 1/2 cups milk, 3/4 teaspoon salt, 1/4 teaspoon pepper, 1 1/2 tablespoons minced parsley.

Add onion to fat and cook until tender, but not brown. Add chicken, potatoes, celery and chicken stock and simmer until vegetables are tender. Add corn, milk and seasonings. Heat thoroughly. Serve with parsley sprinkled over the top. Serves 4.

**Chicken-Rice Squares with Gravy**

Three-fourths cup uncooked rice, 1 1/2 cups cooked, diced chicken, 1 1/2 tablespoons minced parsley, 2 eggs, well beaten, dash nutmeg, 1 cup chicken stock, salt and pepper to taste.

Cook rice in boiling salted water until tender. Drain and combine lightly with other ingredients. Pour into shallow greased baking dish. Bake in moderate oven, 350 degrees F., for about 30 minutes or until set. Cut in squares and serve with chicken gravy. Serves 4.

**Chicken Vegetable Pie**

Three tablespoons chicken fat, butter or fortified margarine, 3 tablespoons flour, 3/4 teaspoon salt, 1/4 teaspoon pepper, 1 1/4 cups liquid (milk or chicken stock plus evaporated milk), 3/4 cup cooked sliced carrots, 3/4 cup cooked peas, 1 1/2 cups or more diced cooked chicken, 2 cups hot mashed potatoes or uncooked baking powder biscuits.

Make a sauce with the fat, flour and liquid and season to taste with the salt and pepper. Add diced chicken, carrots and peas. Heat thoroughly and pour into greased baking dish. Cover top with mashed potatoes or with baking powder biscuits. Bake in moderately hot oven, 425 degrees F., for 12 to 15 minutes or until brown. Serves 4.

**Ford Dealer to Conduct Open House January 16**

At an "open house" to be conducted January 16 by Plymouth's Ford dealer, Paul J. Wiedman, the first public showing in Plymouth of the new 1948 model Ford trucks will take place.

With the streamlined new trucks, the first post war products of the Ford Motor company, as the main attraction, Mr. Wiedman will welcome the public to his showrooms, service, parts and accessory and used vehicle departments. All of these departments will be open until 9 p.m. for this special event.

"We arranged an 'Open House' program for public announcement of the 1948 truck line because we feel that this is the most important new truck showing in Ford history," said Mr. Wiedman. "We are entering the greatest truck market of all time with the widest range of models and capacities Ford has ever produced. We expect to receive trucks during the coming months in quantities increased sufficiently to permit us to meet the heavy demand."

**Cancer Easier to Cure if Treated Early; New Tests May Save Many**

New tests for cancer, developed in recent months, offer new hope for the future in reducing suffering and the death rate, through enabling earlier treatment, says Albert Q. Maisel, who reports on some of these methods for detecting the disease, in McCall's for January, and explains that the tests are not made on the patient:

"Last year, more than 180,000 Americans died of cancer; more than one-third within less than a year of discovery of the dread disease. Death—in almost all these cases—was due to late discovery and diagnosis. The sad truth, up to now, has been that physicians have been unable to detect more than a few cancers in their early stages.

"With new tests we have the opportunity to find cancer in its earlier stages—not just some types of cancer, but the presence of cancer itself, anywhere in the body. From four separate research laboratories, in recent months, have come detailed reports of successful work in the development of cancer detection tests.

"The first hopeful news came last spring from Professor Howard H. Beard of the Chicago Medical School. Dr. Beard had been studying the effects of extracts of the urine of cancerous animals when injected into rats. Since last spring, Beard and his associates have extended their series of tests until now more than 150 have been made. As far as the work has yet gone, the Beard test has proved 97 percent accurate. However, it has some drawbacks. Each test requires at least eight laboratory rats and the services of highly trained workers. The test takes from two to three days to complete. Moreover, some cases—particularly the earliest and mildest—are expected to show inconclusive results.

"Dr. A. C. Ivy of the University of Illinois Medical School has been achieving equally surprising results with another test, developed some years ago by Dr. Benjamin Ruskin of Philadelphia. Dr. Ruskin used his test on numerous patients during the last decade and reported marked success. But it has not achieved—until now—any wide acceptance among physicians in general.

"The Ruskin test utilizes a blood sample taken from the suspected cancer case. Dr. Ivy's results indicate that this test is disclosing a high percentage of cancer cases.

"Unlike the Beard test, the Ruskin test requires the use of no experimental animals. The materials used cost, at most, a dime. More important still, the Ruskin test can be performed by a very well-trained laboratory worker; it does not require a specialist of pathology.

"Like Beard, Dr. Lewis Herly, of Columbia University's College of Physicians and Surgeons, did not start out to seek a cancer test. For years this research-minded surgeon has spent his off-hours attempting to trace fluorescent cancer-causing chemicals through the bodies of experimental animals. These experiments eventually involved Dr. Herly in the use of ultraviolet light on blood samples. The test seems highly accurate in the light of the 500 cases upon which it has so far been tried. Yet, Dr. Herly is far from advising its immediate, widespread use. Additional tests are being conducted at the rate of a hundred a week. Soon, if several thousand records bear out the results achieved by the first tests, its use as a general diagnostic procedure may be fully justified.

"Most advanced of all the new tests is that developed by Dr. Maurice Black of the Brooklyn Cancer Hospital. This test involves the use of two blood samples and is an extension and refinement of work originally performed three years ago by Drs. Raymond J. Savignac, Julian C. Gant and Erwin W. Sizer of Massachusetts General Hospital. It seems to depend upon some change which occurs in the albumin of the blood as a result of cancer.

"To date, the Black test has been used upon more patients than have any of the others. In nearly 700 cases it has produced 86 percent correct results. In 150 control cases—using the blood of individuals suffering from no disease at all—the test has proved 100 percent accurate.

"The Black test can be performed by any physician or laboratory technician, for its reading is dependent upon sharp changes of color. Thus, of all four of the new tests, this last would seem, for the present at least, to be the one most nearly ready for widespread use.

"One of the great problems of cancer treatment has always been to determine whether surgery or radiation has actually done its job. One of the great by-products of these tests is their ability to spot remaining cancers.

"As they stand today, the new tests cannot completely rule out all possibility of cancer by providing a negative reading. But they can flash the red light that shows the probable presence of cancer long before any other means we now possess! Cancer detection, at long last, can move out of our overcrowded detection clinics and move into the family physician's office—the only place from which early cancer detection on a large scale can ever hope to originate."

**The County Agent's Farm Tip Column**  
By E. I. Besemer  
Wayne County Agent

The beginning of a new year is always a good time to make plans to improve the farm business. One of the important basis of a successful farming program is a good soil conservation plan. We advise Wayne county farmers to consider these resolutions for more profitable farming and to adopt them as farming practices.

1. Establish a cropping program suited to the capabilities of the soils of the farm.
2. Make more adequate use of legumes.
3. Apply liming materials to acid fields.
4. Plan lime applications at least a year ahead of legume seedings.
5. Apply adequate applications of phosphate and potash with all legume seedings.
6. Use more alfalfa-brome grass meadow land for pasture.
7. Establish sod in all water-courses to prevent gullyng.
8. Keep a living, growing crop on the land at all times.
9. Work across the slope wherever practical.
10. Plow down a legume sod whenever an open cultivated crop is to be grown.

In Redwood City, California, Donald Brown sued Binney & Smith Co., crayon manufacturers, for \$55,243, claiming that after his young son ate some of the crayons his body turned blue and his blood chocolate brown.

Latest estimate is that this country will need 5,500 large transport planes on a minute's notice in the event we are suddenly attacked by some other nation.

**Koch's Sausage Is Back**

**Light Pancakes Are Easy to Make**

If you want especially light pancakes, you'll be better off if you separate the eggs and beat the whites very stiff. Then add the egg yolks to the beaten whites and beat the whole business again. For especially tender pancakes, adding 2 tablespoons of melted shortening to every 2 cups of mix does the trick.

Grease the griddle lightly with a piece of soft paper dipped in shortening. All you need is a very thin film of fat on the surface, just enough to keep the pancakes from sticking.

Test the griddle for correct temperature by putting a drop or two of water on it. Little balls will form and dance around. It is not hot enough if the drop of water foams up.

Drop batter on the griddle with a large spoon. Pancakes should never touch so don't put on too many at a time or the batter will run together and the cakes will be more difficult to turn.

Turn pancakes when they are brown on the under side and before all the little bubbles that have formed on top break. If a griddle is smooth it will not need further greasing.

**QUICK QUIZ:** Do you know how much telephone wire Michigan Bell put up in rural areas last year? Nearly nine thousand miles! It meant new service for thousands and fewer parties on many rural lines. Michigan Bell now serves 122,000 rural area subscribers—more than double the number in 1941.  
**STOP THEM WITH THIS ONE:** Ask your friends how many telephone companies there are in Michigan in addition to Michigan Bell. It's a treat on you if they guess the right number—one hundred and sixty. All connect with Michigan Bell and Bell System telephones.  
**USEFUL . . . AND FUN:** A survey shows that more than half the farm families served by Michigan Bell use their telephones for reaching the doctor, dentist and veterinarian, and for ordering parts, repairs, feed and supplies. "Visiting" with friends and arranging church and social activities are high up on the list too.

What makes Michigan such a great state? Is it some one big claim, two or three outstanding features that no other state can claim? Or is it a lot of little things that, when all put together, makes Michigan the giant and envy of every other state in the Union?

The answer is an easy one. It is the lot of little things that Michigan possesses and does which makes it a leader among the leaders of these commonwealths.

Michigan is famed because of its hospitals, both big and little. The University of Michigan hospital, the Henry Ford hospital and the Kellogg institution at Battle Creek—and then there are hundreds of smaller hospitals all through the state that collectively makes Michigan outstanding among the states for its hospital services to some nearly six millions of Michiganders.

True, Michigan like all other states, needs more hospitals, but these will come as we once settle down to work again for the benefit of all of us instead of cliques and clans and goon squads and plunders.

And it is the little things that have made both our little hospitals and big hospitals so outstanding.

But what are these little things, did you ask, that go to make up this greatness we are writing about?

That's the question—a mighty good one—and it is the question that is the basis for this article.

You know all about Cheboygan, do you not? It is one of those fine little northern Michigan cities that was exhumed from the sawdust piles when the lumbering giants had finished their wicked-raids on the great pine forests of northern Michigan and left that part of the state to flounder like a disabled ship at sea. Cheboygan almost overnight has been yanked from the wreckage of the sawmills and the pine tree peelings and sawdust to become one of the highly important municipalities of a great state.

Cheboygan rightly boasts of one of the best little hospitals in the country. It has the best of furnishings, the latest in electrical appliances for the preparation of food and the preservation of it in electrical freezers. Its windows have Venetian blinds, attractive drapes and the furnishings of the entire institution are in keeping with its unusual clean appearance.

Where does the hospital get all the money to buy these things with? Is there some rich bozo living thereabouts who walks into the hospital every now and then and leaves a big roll of bills and says: "Here, take this money and spend it for things that a hospital doesn't usually buy with such funds as it has available."

No—not at all.

But there are two women up in Cheboygan who can be numbered among the many people who are highly important factors in helping to make Michigan the great state that it is—and these are the two women who make it possible for the Cheboygan hospital to have so many little things and some luxuries that are not found in most hospitals.

Are they rich—and do they have a lot of money to give away? Of course not!

Mrs. Al Weber and Mrs. Guy Thompson, two pioneer residents of Cheboygan, have for years made and sold aprons for the benefit of the Cheboygan hospital. As a result of their work they have turned over to the hospital or made purchases for it amounting to thousands of dollars.

Each year they make hundreds of them, HUNDREDS! And every penny they make from the sale of these beautiful home-made aprons is donated to the hospital.

You have never seen a really nice looking apron unless you have seen one of those made by Mrs. Weber and Mrs. Thompson. No style shop in Paris, New York or Los Angeles ever turned out anything really quite so attractive as are the aprons these two women produce for the benefit of charity.

Like a whole lot of other people, as the two prominent women of the Michigan northlands grew older, they found now and then many idle moments. So instead of joining some bridge club or wasting their time worrying about their health and advancing years, they hit upon the idea of doing something useful and beneficial—and that is why the Cheboygan hospital is one of the best furnished in these United States.

So great has become the demand for the aprons made by Mrs. Weber and Mrs. Thompson that they have difficulty in filling the orders. Just a little thing, but these are the little things that help to make Michigan the great state that it is.

In Los Angeles, Marie Waterman, who caught her fingers in a window while she was naked, and was rescued by a stranger, sued her landlord for \$10,000 damages to her hand, \$2,500 damages to her modesty.

In West Allis, Wis., John Dehring and Sam Takerian, who work side by side in a foundry, each went to a wedding—John to his daughter's, Sam to his son's—met in church, discovered that it was the same wedding.

**BABSON SAYS**

**Babson Discusses Great Britain**

Washington, D. C., Jan. 16. I have always been in close touch with Great Britain. For many years I have had an office in London and have crossed the ocean many times. From the earliest part of World War II, I constantly stated that England would suffer tremendous losses and would be temporarily forced to become a second-class power. All of these forecasts have proven true.

**The Labor Government's Goal**

Today I am just as optimistic on Great Britain as I was pessimistic ten years ago. When reading the history of England, I am always impressed to see how many times, during the last thousand years, she has been "down and out." The English people have a character and steadfastness, which, in the end, is worth far more than money or even military power. They are the world's greatest authorities on colonial development, shipping, insurance and banking. I sometimes think that the poverty propaganda which England is now issuing is to help her make a good trade with the United States! However, we should not blame her for this as we cannot afford to have England collapse.

I was a friend of Winston Churchill during the War and was sorry to have him defeated at the last election. His rabid attack on the present Labor Government, however, is unjustified and sometimes seems almost treason. The Labor Government, like other pioneers, makes mistakes, but they have a worthy goal—namely to develop some fair policy as a bridge between Communism and Capitalism. In my humble judgment we should help them in their efforts, although they will succeed without a blessing from our National Association of Manufacturers.

**Watch Africa**

For ten years I have been urging readers to watch Africa. This was especially true directly following World War II when Russia was temporarily popular in this country. Now I say, "Watch Africa!"

Inside information indicates that the English industrialists are switching their energies and money from India and the Far East to Africa, which is both richer and nearer home. I forecast that England and France will form an economic alliance for the development of Africa which, with the British Dominions, will again make the British Empire the world's greatest power. Therefore, don't sell England short!

England will get out of India all that she has put in India with a good profit to boot. This also applies to certain other distant

At a meeting of the directors of the Plymouth Chamber of Commerce, held Tuesday evening, it was decided to hold a community banquet on Thursday evening, January 25, at 6:30 in the high school auditorium. Arrangements are already under way for one of the biggest banquets of the kind that has ever been held in Plymouth.

The best poultry show ever held in Plymouth, is the verdict of those who have seen the big exhibit of birds at the show being held in Penniman hall, under the auspices of the Plymouth Poultry association. There are about four hundred of the various breeds of chickens on exhibition, and poultry fanciers say they are the classiest bunch of birds they have seen at any of the shows this winter.

Mrs. Mary Hillmer visited in Detroit a few days last week.

Miss Clara Wolfe of Swanton, Ohio, is visiting her sister, Mrs. William Gayde.

Mrs. Edwin Hecker and Mrs. Fletcher were callers, and Mrs. H. E. Andrews and son, Bruce, and Mrs. Frank Andrews of Detroit, were Tuesday dinner guests of Mr. and Mrs. Louis Minehart and family.

Plymouth friends will be interested to hear of the birth of a little daughter, Virginia Irene, Tuesday, December 12, to Mr. and Mrs. H. C. Shaw, who reside near Ann Arbor. Mrs. Shaw will be remembered as Miss Irene Lyndon of this place.

Mrs. F. J. Wilcox of Wyoming, Ont., is a guest at the home of Dr. and Mrs. Luther Peck.

possessions which she gradually is relinquishing. India is cursed with an unbelievable large population and an impossible religion. Africa is richer in natural resources, has comparatively few people, and these, although called "heathen", are adaptable to the Christian religion. In addition to the rich undeveloped mines, water powers, forests, oil prospects, and other natural resources of Africa, it is nearby and already within Great Britain's grip. You hear nothing about giving up Africa.

**The Marshall Plan**

I find in Washington that the Marshall Plan will be adopted after careful tailoring. England is very glad to have it apply to France, Italy and Greece generously, but it is not so keen about Korea, China and the Far East. English diplomats tell me that it is foolish for the United States to try to "save the world." English statesmen of all parties are unanimous that the Mediterranean countries should be protected, so that the Democracies will definitely control the Mediterranean. England, however, is prepared to let the Chinese themselves handle the Russians; and they can do this very well by swallowing them up. The same applies to the people of India.

Let us also remember that the British Empire knows the secret of the atomic bomb. This is both very important for the protection of the British Empire, and also because atomic energy has an important future in the development of Africa. Therefore, let us be generous with Great Britain as otherwise, when World War III finally comes, she may remain neutral and take over all of Europe and Asia after both Russia and the United States are exhausted.
