Marathon Gasolines STOP HOT-WEATHER STALLING

Your wife counts on you to keep the car in good shape. And you do. It's washed, serviced and tuned. But all the tuning in the world won't protect it from hot-weather stalling. You've seen it happen. The frantic effort to get it started. The pile-up of traffic. Heard the hoot of horns. It's embarrassing, annoying, frightening. It won't happen with Marathon gasoline in the tank.

Marathon gasolines are power-processed for Midwest summers Marathon SUPER-M® and MILE-maker® gasolines are power-processed to help end hot-weather stalling. Laboratory controls provide gasolines that guard your engine against choking and strangling caused by vapor lock.

These Marathon gasolines are also scientifically filtered to clean out engine-stalling bits of dirt that can clog fuel systems. This summer, make it Marathon, for gasolines that are all go 'til the last drop's gone.

RICHARD L. The July 25 meeting of V F. W. 6695 was honored to have the Fourth District Com-mander Don Eiden as guest. He outlined the Fourth District program for the coming year. Membership is still one of the bigger programs along with hospital work which Commander Eiden is asking for more Post member help. On the Saturday nights of Aug. 5 and 26 from 8 p.m. to 2 a.m. the hall will be opened for juke box dances. No admission charge to members and friends. Come out and enjoy yourselves. The monies for the trip to

Miami for the color guard competition in the National are still coming in though the fund is still several hundred dollars short. The Post voted \$200 for the cause.

Don't forget the National Home trip on Aug. 20. It will be very worthwhile and an interesting trip. Paid up members can see the accommodations their children could have if it were neces sary. Those that are eligible for the V. F. W. can also go along and see what insurance their family is missing by not belonging.

"Everything works-nothing rattles!" Mrs. Manville adds: "With children, stroller and 'two bicycles, we're luxuriously uncrowded. And my thrifty heart rejoiced at a price about \$1000 less than we'd have ordinarily paid!" Enthusiastic praise like this comes in unsolicited letters from Rambler owners everywhere. "My most trouble-free car!" ... "53,000 miles-no repairs!" . . . "Never before such quiet, carefree comfort" . . . "Not even a squeak!" And what makes this beautifully silent performance? Rambler's all-welded Single-Unit construction, for one thing. Too, the acoustical ceiling of molded fiber glass cuts road noise 30%. Other exclusives include Ceramic-Armored muffler and tailpipe-plus Deep-Dip rustproofing-to protect against annoying rust-out. But ask any Rambler owner, "Say! How do you like your Rambler?" Then see your dealer. You'll like your Rambler, too.

Plymouth Post Office Warns Kids on Safety

The U. S. Post office at Plymouth reported today: "At this time of the year, children being on vacation, again it becomes necessary for the Postmaster to warn mothers to keep their children from running out to meet the mail truck delivering mail. "It is hazardous, and in several instances the carriers have reported serious injury

could have occurred if they had not been on the alert."

Many sincere people regard the Bible as the sole authority for Christian belief.

And they reject the teachings of the age-old Catholic Church because these teachings and forms of Catholic worship are not mentioned by name in Holy Scripture.

"Where," some will ask, "does the Bible say anything about the Mass or Purgatory? And how about confession to a priest, praying to Mary, and those seven Sacraments you Catholics talk about? They're not in MY Bible."

Although everything contained in the Bible is true, yet the Bible is not the sole source of all truth. For example, we know that Christ established His Church . . . that the Church existed long before the Bible was completed ... that millions lived and died in the Savior's truth without ever having seen a Bible.

But we are willing to set aside these historical truths for the moment and judge Catholic beliefs and practices by the Bible.

Take first, for instance, the fact that the Bible does not mention the Mass or Purgatory by name. Well, neither does it mention the word Bible by name. Furthermore nowhere within its covers is it stated what are the writings which contain the inspired Word of God. The only authority you have for this is the word of the Catholic Church, which preserved and collected the Scriptural writings and put them between the covers of a book.

The word "Sacrament," mean-

deputizing of the successors to the Apostles.

The Sacraments were in possession of the Church and in daily use before a single line of the new Testament was written. People were being received into the Church by Baptism long before there was a New Testament. They were receiving Confirmation, were being married according to Christ's teaching, and praying over and anointing the dangerously sick.

Christ definitely did establish His Church. He did deputize His Apostles, and their successors, to continue His teaching. He did promise that His Church would endure forever, and could not fall into error. But He never did say: "All My teachings shall be in a book. Read and believe nothing else."

A tremendously interesting pamphlet explaining the Catholic teaching concerning such things as the Sacraments, Purgatory, why Catholics do not eat meat on Friday. why we call it Catholic Church instead of "Roman" Catholic will be sent in a plain wrapper on your request, and nobody will call on you. Write for Pamphlet PMKC-28.

SUPREME COUNCIL NIGHTS OF COLUMBUS

The Bard Lives Again at Canadian Festival

-THE PLYMOUTH MAIL

THE AVON RIVER stretches out before young George Spelvin as he contemplates the universal truths heard in the afternoon performance of "Coriolanus." Picnickers nearby munch their food in the stillness of this lovely Ontario town of Stratford. You'll find the picnic benches filled since Stratford invites such pleasant out-ofdoors eating. Of course, for the more metropolitan individuals the Festival city provides plenty of inside dining with hearty cuisine to appease all avid appetites. Young George had little time to rent a canoe or take a ride on the special

"swanboat" that plies the Avon River and Lake Victoria as the evening performance of "Henry the VIII" with Douglas Campbell was a scant 40 minutes off. Soon the trumpets would rend the stillness of the Stratford countryside with their strident reminder that the Bard's poetry would be exhibited on-stage. Thousands of folks, some quite leisurely clady would climb the slight hill to the magnificent Stratford Festival Theater for another welcome visit with a Shakespearean drama as only the Ontario Festival Players can perform them.

JOHN COLICOS as the rebel leader, Tullus Anfidius, looks on as Coriolanus (Paul Schofield) and Menenius (Douglas Campbell) discuss Coriolanus' banishment and his plans for revenge.

A pleasant four-hour drive through the Canadian countryside on Routes 2, 4, and 7 can bring you into a world of entertainment rich with cultural benefits. If you have yet to make the trip to the Festival city, Stratford, Ontario, make up your mind that it is high time. The ninth season has something for everyone. Gilbert and Sullivan's "Pirates of Penzance," weekend concerts, a film festival, new plays by a Canadian author, and, of course, the Bard is featured in three of his finest: "Coriolanus," "Henry VIII," and "Love's Labour's Lost." Send a card to Stratford Shakespearean Festival, Stratford, Ontario, for order blanks and complete details.

When it comes to providing truly complete service, people must have proper equipment at their disposal. The more-than-adequate equipment at the Schrader Funeral Home enables our dedicated staff to provide complete service.

The Navy's sleek new guid-

sure would like to.

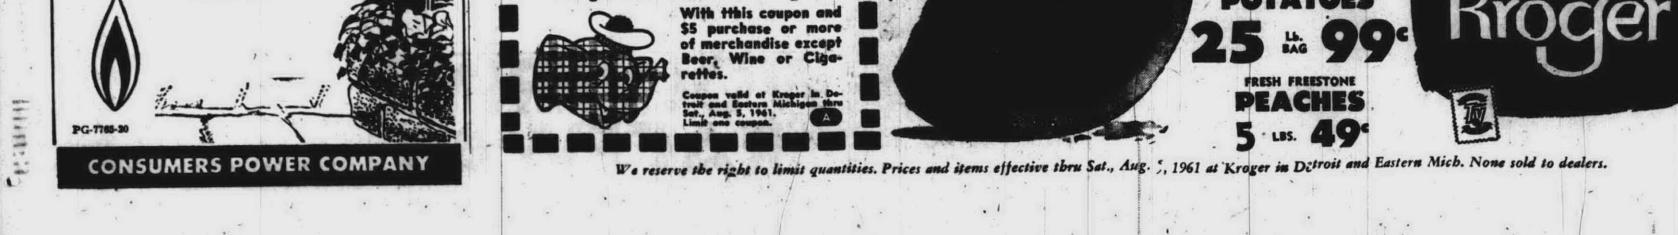

Only the whisper of a fan is heard in the kitchen but it's music to the ears of the modern homemaker! This slight sound assures her that a tiny blue flame is performing refrigeration magic in her All-Gas kitchen.

The handsome, modern Gas refrigerator quietly and dependably goes about its job of replacing ice cubes as fast as they are used, keeping meat and produce fresh and tempting for days, speedily chilling drinks and desserts. And because it is cooled by Gas there are no moving parts, thus reducing the annoyance of breakdowns and chance of costly service expenses. It saves time, trouble and money for the homemaker.

Handsome to look at, outstanding in performance and wonderfully economical - the Gas refrigerator is another example of the superior quality and outstanding efficiency of Natural Gas for modern housekeeping.

GAS CONTRIBUTES SO MUCH TOWARD LIGHT-HEARTED LIVING!

City Manager Al Glassford said several trees had been tagged by the State, with red tags indicating presence of the blight. These trees must be removed within 10 days. have the disease will also moved by city cmoolees and equipment, but those on private property are the rection-

sibility of the owner. The City also sprays city trees during the spring. A Dutch Elm ordinance is being considered by city officials. The State may prosecute owners of any trees not removed within the 10-day limit, but officials hope a city ordinance can be drafted to provide special assessment for those who fail to remove diseased trees before the deadline

After exploring the castle of Edinburgh, seeing the Queen and Duke, shopping in the stores on one side of Princes Street and walking through the Princes Gardens on the other side, and driving to Queensferry to see the Forth Bridge spanning the Firth of Forth, we left the city of Edinburgh and drove home, singing "Cock Robin" on the way. School was still in session at Keswick but because of

vonia pace; Sept. 7, \$10,000 Li-added Bombs Away trot for IT with Worthy (2:00.3), Clint examinations being taken. Dorothy had few lessons and many afternoons off. During these afternoons we often went walking, taking a picnic lunch with us including, of course, a flask of tea. One walk took us to the Castlerigg Circle, formerly known as the Druid's Circle. It is a miniature stonehenge having large stones curiously arranged in a circle with ten stones inside resembling some type of altar. It was thought that the Druids were the first to use it for their religious rites but it is now believed to be much older, hence the name was changed. On this walk we also vis-ited St. John's-in-the-Vale Church, situated between two valleys from which the congregation came. On a hill above this small, quaint church, we stopped for our lunch.

On another walk, Dorothy and I joined some girls from school to climb Styhead, Pass, which used to be a pack horse trail between two valleys. Below the pass it is known to be the wettest spot in England. We could well imagine why because it rained for part of the walk up and if we tried to avoid the difficult rocky way by seeking the grass, we would sink into bogs. At the top of the pass we were just under Scafell Pike, the highest in England, yet only 2,210 feet. There was also a peaceful town - small lake and we could see the Irish Sea in the distance. We watched some rock climbers swinging on their rones un and down the peaks and then we retraced our steps, finding it much easier going down than up.

Although it seemed like it had just started, my stay with the Waltons was soon over. I had had a wonderful tags are being checked by the time seeing almost all of the beautiful lakes and countrylab in Lansing. Any found to side, meeting friends of the Waltons, and just living with have the disease will also the Waltons. I had felt so much a part of the family that when I left I was homesick for TWO homes! The day finon city property will be re- ally did come to leave and with my luggage, grown heavier with presents and the delicious lunch made by Mrs. Walten, I boarded the train and sadly left the Waltons, Keswick, and the Labe District. I was headed south now toward the Midlands and another home.
