College Future Up to Voters Tuesday

There is no point in dwelling at any length on the Community College proposal which will be offered voters of this district next Tuesday, Oct. 24.

Exactly the same principle is involved as when a similar measure was given stout voter support in each approved formation of the Northwest Wayne June. The size of the college district has been re- County Community College. But two other districts, any money propositions for the college. If the district duced since then, to eliminate the two Redford Redford Union and South Redford, rejected the pro- is formed, the trustees will decide upon the millage Township districts. No millage is involved in Tuesday's election. Any 8 to 1 in favor have moved ahead to form the col- election next June.) such request would have to go to the ballot, and that lege district. would happen later.

Tuesday's election would authorize the district. Voters also will select a Board of Governors.

The need for education beyond the 12th grade in our present society long ago became obvious. The most economical way to provide it is with a Community College under local control, close enough to residences so that board and room costs will be unnecessary.

The College will provide the first two years of academic work for those who aspire to a college degree. They would transfer to another institution for the final two years.

It also will offer trade courses for those who have no desire or aptitude for academic college, but who realize that there is hardly any place in business today for unskilled labor carrying just a high school diploma.

And the Community College will greatly enlarge the scope of work available to men and women who wish to fill their spare time in creative "Adult Education."

The college "campus" will enrich the local landscape, provide a cultural headquarters for the area, and indirectly increase the value of homes. This newspaper again urges an enthusiastic "Yes" vote.

AN OPEN LETTER TO THE CITIZENS OF THE PLYMOUTH COMMUNITY

On July 1, 1958, the Plymouth Credit Union began operations behind Agnew's Jewelry Store in the Mayflower Hotel. Our Assets were \$92,000.00 • and we occupied 100 feet of floor space.

In the Spring of 1959, we took pride in moving to our rented offices next to the City Hall with our organization which had grown to 1/4 of a million dollars. "Built with pride", we said in our moving notices.

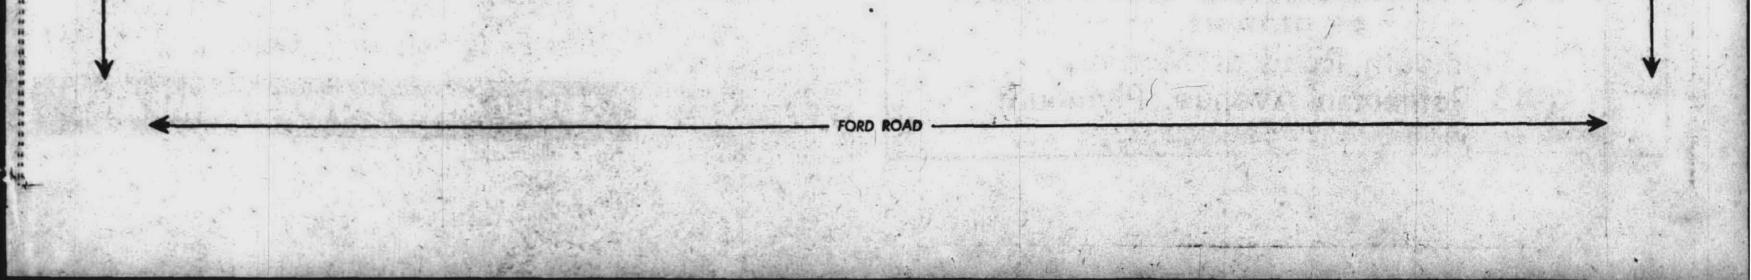

We have now moved again. We have put our roots down in our own building at 500 S. Harvey, and have become one of Plymouth's largest Homeowned Corporations with assets in excess of one million dollars. We hope we have grown big without becoming "biggety".

Although we pay a 4% dividend on Savings, and Ioan these funds to Plymouth families at low interest, we do not attribute our growth to this. From the beginning our goal has been to give Plymouth Community Citizens the very best in Financial Service, "plus a little bit more". This will continue to be our objective.

Because we owe every bit of our growth to the Citizens of Plymouth, we extend this sincere invitation for you to visit us during our Grand Opening celebration today, Friday and Saturday, October 19th, 20th, and 21st, and share our pride in the organization.

By HUGH C. BRONAUGH, Manager

LIKE THE housewife who shops for all sorts of things to keep her home running smoothly, your phone company buys many "housekeeping" items of its own. Last year, for example, Michigan Bell and

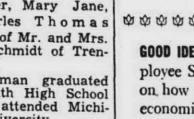

Western Electric Company, the Bell System's manufacturing and supply division, bought about \$62 million worth of supplies-ranging from trucks to work gloves-from about 1,400 Michigan suppliers. Add to that the wages and salaries of our employees, our construction expenditures and state and local taxes, and the total benefit to Michigan's economy was one-quarter billion dollars.

YOU'RE GOING to be hearing more and more about Bell Telephone scientists' work with a revolutionary device called the Optical Maser. It transmits the narrowest light beam ever achieved, along which can be sent enormous numbers of messages—many, many times more than by wire, cable, or radio. Light may become a whole new medium for telephone talk, TV images and data communication. It's constant research like this that makes possible the latest telephone service improvements for our customers at the earliest possible time and at the lowest possible cost.

GOOD IDEAS are valuable and at Michigan Bell our Employee Suggestion Plan is providing lots of good ideas on how we can serve you better, faster and even more economically. Last year, for instance, Michigan Bell employees came up with over 2,500 suggestions on how

Mr. Olefsky's accomplish-ments include principal cel-list positions with the Philadelphia, Robin Hood Dell, Chautauqua and Detroit Sym-phony Orchestras. He has studied with Piatigorsky, Primrose and Pablo Casals and in 1950 at the age of 24, he appeared as soloist at Carnegie Hall with the Philadelphia Orchestra under Eugene Ormandy. He is currently artist and conductor in residence at the State University of Iowa. He appeared here in 1957 at the Plymouth Col-ony Concerts and performed the Tchaikovsky work at that time.

Mr. Wise's composition. An Overture for Orchestra, was completed in 1954 and is a gay and festive work which was received with considerable enthusiasm by the capa-city audience at Sunday's concert.

Mr. Wise, a pianist, has been a member of the orchestra for two years. He was born in Detroit in 1929, re-ceived his A.B. degree from Wayne and his M.A. from the University of Michigan. During 1959-60, he studied at the Academy for Music in Freiburg, Germany, under a German Government Grant and in June of 1961 he received his Doctor of Musical Arts degree from the Univer-sity of Michigan.

To be warm and comfortable through the winter months is a good life, but to have "just-right" warmth ... solid comfort without effort is better!

When you heat with Gas you are comfortable without effort all winter long because Gas heat is completely automatic, completely carefree... that's why 8 out of 10 new homeowners specify Natural Gas for heating (where it is available).

With Natural Gas heat you have added comfort and convenience because Natural Gas is clean, silent and dependable. And Gas heating units are so compact you can put one almost anywhere-basement, crawl space, attic-sometimes even in a closet.

It's so fast and easy to change your good living to better-just convert your present heating system to Gas ... it usually takes less than half a day ... inexpensive too.

"It was a team effort," he said "Dart played a very strong running game. I've always figured that defense was our forte," he said when reminded that the Rocks had allowed only 'two touchdowns in the last four games, one a late period gift to Farmington after the game was safely tucked away.

The defensive unit is worth special attention. It is composed of guards Dale Hauk and Jim Bassett. tackles Rick Sweet and Jim Gavigan, ends Wayne Cummins and Dan Stremick, 'linebackers Mike Kisabeth and Dave Gothard, halfbacks Jim Dart and Dick Schryer and safety man Brian Gilles.

On offense, Hoben switches to guards Jim Ayers and Jared Stevens and often uses end Dick Egloff.

The defensive unit has been strong against ground attacks and effective in pass defense. Friday they picked off two passes and nearly collected three more.

It's a rugged unit that will be well tested in the next two games by two potent offenses. Both Trenton and Redford Union have scored with ease this season.

Plymouth's offense got going against Bentley and controlled the ball for most of the game. But it was a defensive play - the 74 yard pass interception and return by Schryer that broke Bentley's heart. * And at Homecoming, too.

An unheralded phenomenon of the Twentieth Century in America has been the vast expansion of equality of opportunity for young people to receive a higher education.

While there is some need to view with alarm the increasing numbers of students seeking college degrees, much of the problem has been blunted by a relatively new public institution.

This institution is the Community College.

The Community Colleges of Michigan are steadily increasing their share of the educational services provided to our citizens in the fields of higher and terminal education. This is quite evident in the ten year growth of these institutions.

In the Fall of 1950, there were 5,795 students enrolled in ten Community Colleges. By 1960, there were in excess of 27,000 students in attendance in sixteen Community Col-Paar has been fascinating in recent days. He leges. This is an enrollment increase of over 425 percent.

OLGC Observes Annual Forty **Hours Devotion**

Our Lady of Good Counsel Catholic Church observed its annual Forty Hours devotion this past week. This devotion traces its history back to Milan, Italy, where it became a custom in the 16th century to offer special homage to God for a period of 40 continuous hours. This adoration is held in the church itself by means of hymns and prayers.

Members of a parish are requested to spend one hour in church, thereby assuring the continuance of the 40 hours of worship.

Father Finan, C.P., of the Passionist Order in Detroit, was the guest speaker for the three nightly scheduled devotions. His sermons centered around the Eucharistic presence of Christ.

in 1847.

ALLEN SCHOOL'S P.T.A. will be entertained next Tuesday (Oct. 24) at 7:30 p.m. by a Girl Scout troop, two Brownie packs, a Cub den, a Boy Scout troop and an Explorer post, all sponsored by the P.T.A. Shown are three of the young ladies practicing their part of the program. From left are Nancy Horn, of Girl Scout Troop 345, and Brownies Karen Preuss and Dorothy McKenzie. All parents are urged to attend.
