

# \$9,000 Customized Car Winner for Local Youth

Ever since Mike Budnick, 21-year-old son of Mr. and Mrs. Leonard Budnick, 685 Herald, was 12 years old his main ambition was to own a custom-styled car and when he returned from the Rod and Custom Show held in Lima, Ohio in June he knew his dream had become a reality. Out of 75 other entries, Mike received the highest honors offered at the show, the 'People's Choice' and the 'Best Body Styling' awards, for his customized 1960 Pontiac, valued today at \$9,000. Mike read and studied every car book he could find from the time he was 12. At 16 he bought his first car, a 1951 Ford, and started put-

ting his customizing ideas to work. In 1958, he attended his first custom show in Detroit and was so inspired he decided someday, in some way, he would have a custom car of his own. Although he had many customizing ideas, he did not begin in earnest developing and creating a restyling until he bought a new Pontiac in 1960. He discussed his ideas with Alexander Bros., Detroit, specialists in customizing cars, and work was begun immediately. However, it was nearly three years before Mike returned his finished product to Plymouth. "I must have made at least

200 trips to Detroit during that time to see how the work was progressing," Mike said. First, the car was stripped and the hood, trunk and doors leaded to give it an uncluttered look. Twin tunneled aerials were installed in the door on the driver's side. One electrically operates the door and the other serves the radio. The tail lights were removed and replaced with recessed hand made lights measuring six inches across the top and tapering down to four inches. The front end was stripped and molded into one solid piece. The bumpers were eliminated and a 1959 Chevrolet tube grill was cut and worked to fit the car. Twin recessed headlights were then installed and the front fender wells enlarged to allow for a complete turning radius. The rear end was stripped and molded into one grill shell and a hand made aluminum grill was installed. Lastly, the frame was lowered eight inches to give it a longer and lower look, the engine accessories from the 318 hp engine were removed and chrome plated and a Mallory ignition system installed. Mike then took the car to Ray's Kustom Trim, Detroit, where the inside was stripped and redone in white pearl leather. The dash is padded with recessed pleats and the same effect is used on the headliner, back package tray and trunk interior. The carpet was dyed lime gold to match the exterior and four individual bucket seats were installed. A suspended console with button panel electrically controls doors, power vent windows and trunk. The car was painted 'lemon lime candy', chrome reverse rims were mounted on U.S. Royal Master tires, and the car was christened 'Fantasia in Lime Gold.' The car originally cost \$4,000, but 'I have approximately \$9,000 in it now. The interior alone cost \$2,000' Mike said. Mike plans to enter the Summer National Rod and Custom Show in Indianapolis, Ind., over Labor Day weekend and this winter he will follow the show circuit. He said he would sell the car even after all the time, money and effort put into restyling the Fantasia. Now he would like to own a show-and-go car to display and enter in racing competition.

UNIQUE grill styling and recessed head lights are just a few of the customizing ideas Mike Budnick used on his \$9,000 Fantasia.

## Rambler Dealer

(Continued from page 1)

After his discharge in May, 1946, he was in the insurance business in Detroit for two years. From 1948 to 1957, he was in the used car business and in 1957 bought the Detroit Rambler franchise.

DuCharme moved his franchise to Plymouth Aug. 1, 1958.

Mrs. DuCharme is a graduate of St. Joseph's Hospital and works in a doctor's office in Detroit.

DuCharme likes to play golf and he and his wife, Louise, spend many hours working in their yard. Each year they plan a fall vacation and spend a leisurely 14 days touring scenic parts of the United States.

In the last few years they have toured Canada, Williamsburg and New England. They also enjoy spending weekends at Higgins Lake.

"It has been a pleasure doing business in Plymouth in the past five years, and I know we will enjoy living here," DuCharme said.

INTERIOR of the Fantasia features pearl white leather plating, suspended console and four individual bucket seats.

## Company to Sink Another Oil Well

The Peake Petroleum Co., headquartered in Cleveland, Ohio, will begin work later this week drilling another oil well at its well-field area near Edward Hines Dr. and Northville Rd.

The Township official indicated that the well will probably reach down 4,600 feet. The Plymouth community is

situated over numerous natural resources, including both oil and gas.

This well, one of several operated by the Peake Co., is expected to produce oil.

The property is owned by Wayne County and leased to Petroleum Co. for drilling purposes. The company, if it strikes oil, will then pay a

percentage royalty to the County. The Township official said that more than a dozen producing wells are located at various points throughout the Township.

Reggie LaPorte, of Plymouth, is in charge of the petroleum company's efforts here. He lives at 15875 Park Lane.

Michigan pioneered in development and use of heavy motorized equipment for fighting forest fires. The Federal government and other states are using ideas developed at the experiment station near Roscommon, only one of its kind in the nation.

The University of Michigan was the first university west of the Alleghenies to pioneer in professional education, opening its medical school in 1850, its engineering school in 1855, and its law school in 1859.

# 14-Year-Old Realizes Dream

TOM ADAMS realized a big dream recently when he received his FCC ham radio operator's license. He is shown here in front of his radio set. The 14-year-old lives at 8955 Corinne, will enter the tenth grade this fall and hopes someday to become an electrical engineer.

Fourteen-year-old Tom Adams, who hopes someday to be an electrical engineer, achieved a long-sought goal recently when he received his general class ham operator's license from the Federal Communications Commission. He was all smiles last week telling about it.

Earlier he had operated a telegraph key under a novice's license, but now he is able to transmit and receive voice communication on the frequencies of his ham radio set, which is squeezed onto a table top next to his bed.

Tom, whose parents are Mr. and Mrs. George Adams, 8955 Corinne, had to take the FCC test three times before passing it earlier this year.

But he didn't feel badly about it, since many ham operators take the same exam upwards of 15 times before meeting with Tom's success.

The Plymouth youngster, who will become a tenth grader this fall, broadcasts under the call letters of "K8CUC" using a 22-foot antenna.

The big step from a telegrapher to a recognized ham radio operator took a bit of doing on Tom's part.

He saved his allowance for weeks on end in order to buy a receiver with which to complete his broadcasting set. Even still, Tom had to borrow some money from his father before making the \$300 purchase.

Tom has promised to repay his Dad, of course.

His interest in radio and electronics began when Tom was in the fifth grade. He read about a telegraph key in an encyclopedia and promptly built it. It worked.

Later, he assembled an amplifier and speaker that enabled him to broadcast to the radio in his home.

Tom hopes that he will be permitted to join the Sturtevant amateur radio society here soon.

A number of the nation's leading philanthropic educational and cultural organizations were endowed by eminent Michigan people.

ance of this proposed planning authority. "There is no question the activity is such that it should be supported, but the question is how," he said.

With the School District out of the picture so far as financial support of the planning authority is concerned, it is believed that Plymouth Township and Canton Township will decline to participate in the project.

City of Plymouth, the only taxing unit that has officially put up any amount of money — \$5,000 — will most likely withdraw its allocation, at least for the present.

School Board members said they would explore other means of achieving the same goals envisioned for the planning authority.

Michigan has some of the best water supplies in the nation. Eighty percent of the population drinks water supplies approved by public health agencies. Not one case of typhoid fever has been traced to the public water supply since 1934.

## Enrollment Increase

(Continued from page 1)

Plans to provide adequate classroom space for these additional youngsters have already begun to materialize and more are on the drawing boards.

On another facet of the School District's financial picture, the District for the first time since 1960-61 finds itself with a "satisfactory" cash reserve balance.

Cash reserves at the start of the new fiscal year July 1 were approximately \$210,000, an increase of \$79,000 over a year ago.

School administrators and Board members strive to maintain a 10 per cent minimum cash reserve balance,

but seldom actually reach this percentage.

Based on the current operating budget of \$2.6 million, the reserves this year should amount to \$260,000 in a perfect situation.

The reserves provide a wise hedge against the possibility of a sudden loss in revenue, due to such circumstances as a "no" vote on a requested tax millage renewal, and also against the possibility of an unforeseen expense for additional operating requirements.

The National Planning Association report sees Michigan's population 10 million in 1976.

Lawton Williams

A highly-successful country-western recording artist, who once lived in Plymouth, was residing here last week.

Lawton Williams, whose songs are recorded on the RCA label, was visiting his brother, Howard B. Williams, of 1393 Beech.

In 1947 Lawton Williams lived at 511 Holbrook.

Today he is gaining popularity by leaps and bounds as the voice in such hit records as "Fraulein," "Geisha Girl" and "Shame on Me."

"Fraulein" has sold more than 4 million records to date and "Geisha Girl" has passed the 1 million mark.

Williams lives in Fort Worth, Texas, and manages radio station KCUL there. He works frequently with Chet Atkins, another popular country-western singer, and the Jordainaires, who back up Elvis Presley, in fact, Williams often uses the same recording studio that Presley does.

His visit in Plymouth last week was a brief one.

He was passing through on his way to New York City where arrangements are expected to be made to merge his recording company with that of famed singer Eddie Arnold.

Williams' brother, Howard — better known as Ben — is employed by the Ford Motor Co.

Worth Talking About

By Pat Barton

**Gift Hit**  
Trying to find a gift that expresses an individual's interests is as difficult as walking the gang plank with no ship, but I discovered one at the Beyer Rexall Drug Store, 480 N. Main — an exotic new hobby kit.

The kit includes easy-to-follow directions and all the materials needed — a 19 1/2 x 7 1/2-inch plaque, crushed marble and clear drying glue. The distinctive three-dimensional mosaics embrace the latest decorator colors, and the wide range of selections will add to the continuity of any decor.

The unique designs include a banjo player, guitar player, dancing girl, Oriental man, Oriental girl, two still life, a circus clown and circus elephant — one to enhance the living room, den, kitchen, child's room or office. Used in pairs they are even more beautifully charming.

Go to Beyer Rexall Drug and take your pick from this stunning collection. A hobby kit is always a hit.

**Cool Comfort**  
I was feeling as downcast and looking as uncomfortable as a swordfish with an ingrown nose until I went to the new air conditioned House of Glamour Salon, 630 Starkweather.

Pat Hann, owner, just had the shop completely air conditioned and the Atmosphere alone would relax an iron horse in a petrified forest — the comfortable coolness, soft music and fresh cups of coffee.

Quality work is assured by eight full-time operators who keep up a training program throughout the year. Advanced training is taken in Detroit and they attend approximately 12 shows a year to learn and study new color techniques, advanced styling, and acquaint themselves with the latest beauty aids on the market.

House of Glamour operators are always familiar with each product they use — a guarantee of top quality results with the best products. They specialize on giving their personal attention to each customer's individual needs and every beauty detail — that's as hard to find today as a submarine with a screen door.

And to top it all off, if you get a permanent on a Monday, you'll be satisfied down to your finger tips with a Gift manicure.

Pat and the House of Glamour Care about you, your appearance and your beauty. Call them today. GL 3-5254.

**Shirt Sense**  
Wilted, humidity-soaked, soiled shirts make me feel like a tiger with a tooth ache. Count it up — the Woman Hours of fatiguing labor you spend each week keeping shirts ready to go when you are. Didn't know it was that many, did you?

Summer grooming has been a picnic since Colonial Cleaners, 1275 S. Main, took over my wash day woes.

Cliff Speck, owner, knows how to get shirts sparkling clean — he's death to dirt, can't stand stains, and is an expert at finishing shirts to show-room perfection and to the individual's specification.

For just pennies a day, 27 cents per shirt over the counter, and 30 cents delivered, shirts will look clean and new again. One-day service is available and shirts are returned on hangers or folded in packages.

Since Colonial — I don't let wash day put me through the wringer any more.

Food for Thought

Here's food for thought — the surest way to please the whole family and their individual tastes is to go to Stell's Restaurant, 578 Starkweather, or take advantage of their carry out service.

The first thing a bride learns about cooking is her husband's boiling point. The first thing I learned about Stell's was all soups are homemade and the pies are home-baked. Try Stell's for lunch — there's a delicious special every day and for only a budget-wise 85 cents.

Friday night we enjoyed tasty fish and chips, with cold slaw and rolls — a food fascinator for the on-the-go youngsters — and fried chicken — a man pleaser every time.

A word to the wives, you can count on fine food at Stell's every day, 6 a.m. to 10:30 p.m., or call GL 3-9783 for carry out.

### Art Around Us:

by Mrs. Jessie Hudson

A sneak preview at the show now up at the Hartley-Powers Gallery in Northville reveals that the students in this area are pretty good artists-to-be. The kids, seniors, or just-newly-graduated seniors, present a variety of materials. Drawings of Northville buildings and stores are the feature of the show but there is also a generous sprinkling of other kinds of work. Ceramics, for instance, both the useful kind and the ornamental sort are well represented. Enamelled copper jewelry is another item of note, as well as some interesting aluminum embossings. Oil paintings, large and small are on view, water colours for contrast, with mosaics and collages thrown in for variety, and of course, drawings of all kinds.

Interest in this exhibit started long before it was properly hung. Merchants began stopping in for the week before it was up to see the local drawings. Friends of the artists have been in and out in anticipation of the exhibit.

Though the gallery is a tiny place it holds a surprising amount of work. Each exhibit is an adventure. There are

always oils and watercolors to choose from and ceramics of excellent quality produced locally by specialists in this exacting field. Mr. Hartley is a carpenter-craftsman with hand-built furniture as his speciality. There is usually an example of his handsome work to be seen in the gallery. Sculpture does not receive the acclaim it should. It is a very "slow mover" but there are always on hand some imaginative pieces by Shirley Denison, Bill Mandt and Cecil North.

The current exhibit of work of young artists in this area will stay for two weeks, through August 3. The young people of Northville are Cheri Kolak, Millie Smith, Carolyn Konklins, Rose Budek and Anna Martin. The Plymouth students, all college bound in the fall and planning to major in art or at least to continue with some art classes are Doug S. James, Diane Mackie, Linda Wall, Pat Bridge, Sharon Heidt, Marcia Livingston, Sue Miller, and David Schmidt. Stop in and see what they have produced. Hours at the gallery are 12-6 every weekday, 12-9 on Friday and 9-6 on Saturday.

### In The Galleries:

FORSYTHE GALLERY, 201 Nickles Arcade, Ann Arbor. Paintings on silk and prints by Chinese artists of the eighteenth, nineteenth and twentieth centuries. Gallery hours 10-4 weekdays, 10-1 on Saturday.

RACKHAM GALLERY, Ann Arbor. Regional art show of works chosen by Michael Church of the University Extension Services from shows all around the Thumb and around here. BIRMINGHAM ART CENTER, Cranbrook Road just north of Fourteen Mile Rd. Prize winners of the last five annual festival winners. Should be a dandy. July 28 to August 25.

WHEATON GALLERY, 18928 W. McNichols. Summer festival of works of ten artists. Nothing over \$60.00. DETROIT INSTITUTE OF ART, Woodward at Kirby. "Life and Art in Ancient Egypt" now through September 1.

DETROIT ARTISTS MARKET, 1452 Randolph. Lighthearted summer show of paintings and ceramics also some cool drawings.

HARTLEY-POWERS, 116 E. Main St., Northville. Young artists of this area. See above column for details.

START THE "PIG RUN"! This "pig run" is not a sporting event... and there's no bacon on the "pig!" In the typical, colorful jargon of the pipeliner, a steel slug surrounded by stiff wire bristles is called a "pig" and the act of sending this pig through a section of pipeline is called a "pig run". This pig scoots rapidly through the smooth interior of the huge pipeline, clearing any rust and scale ahead of it - making sure that clean Natural Gas remains clean all the way to the cities and villages of Oustate Michigan. Front row, from left: Chuck Lipford, Charles Tripp, Roger Caid, Peter Childs and Mark George. Back row: team manager Jeff Thomas, Cary Keil, Ricky Kerby, Mark Bissell, Larry Oumet and Ken Quartermus. ## Vico Products Falls Short In Effort to Upset Tait's

Vico Products almost toppled Tait's Cleaners from the ranks of the unbeaten in the men's recreation softball league. Tait's pulled out a narrow 8-7 victory and claimed its 11th straight win.

Vico engineered a 6-3 lead after four and one-half innings, but Tait's came up with three runs in the bottom of the fifth to tie the score.

Box Bar moved into third place, percentage-wise, by overwhelming Local No. 102, 25-1; Evans Products won its fourth game of the season, this one an 11-3 victory over Paragon Steel; Men's Lutheran defeated McAllister Bros., 11-7; Plymouth Plating beat Local No. 102, 21-10.

When the season concludes next month, each team will have played 14 games, according to the schedule devised at the start of the year.

These are the current standings:

	W	L
Tait's	11	0
Vico	8	3
Box Bar	6	4
McAllister's	6	5
Ply. Plating	6	5
Lutheran	6	5
Evans	4	6
Paragon	1	9
Local 102	0	11

Still, Vico made a strong effort in the seventh to upset the league-leaders. It scored the tie-breaking run to go ahead 7-6, but Tait's scored twice in the bottom of the seventh to emerge the winner.

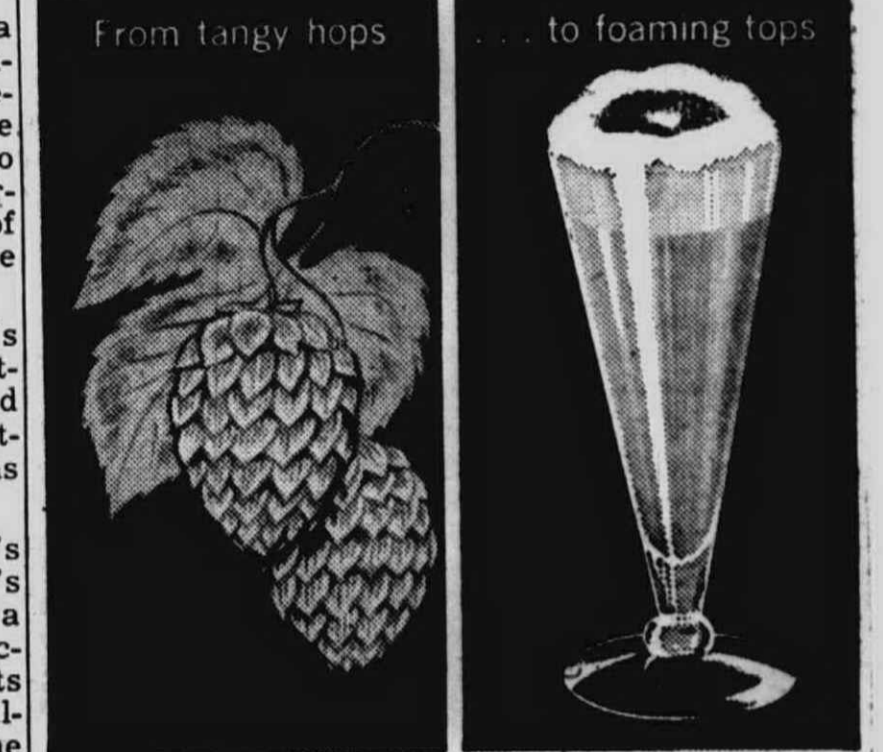

Gordon Robinson, Tait's team manager, was ousted from the game. It had little effect on the outcome, so far as Tait's was concerned.

The victory left Tait's high atop the league's ladder of standings with a perfect 11-0 record. Second-place Vico Products could still mathematically tie Tait's before the season ends Aug. 6. Vico presently sports an 8-3 record.

If Tait's should happen to lose its three remaining games, which is highly unlikely, and Vico wins its last three, the two teams would be tied for the championship, each with 11-3 records.

In other games in the men's softball league last week, these scores resulted:

Vico Products defeated Plymouth Plating, 9-1;

## Play Program Ends Friday

The summer recreation playground program will end this Friday and a number of events throughout the remainder of the week will conclude the play sessions in special style, according to director Dick Bearup.

He said that local children will have to ask their respective playground supervisors as to the exact time and date of special programs.

The recreation department has maintained six playgrounds at strategic locations throughout the community this summer. Playgrounds are at Allen, Smith, Farrand, Bird and Starkweather elementary schools and at the foot of Hamilton St. near Maple St.

Bearup listed the hours of the playgrounds, in order to assure that Plymouth youngsters have full opportunity to take part in the concluding week of activities.

The Allen play area is open from 1-4 p.m. and is supervised by Jack Birk and Nancy Miller. Smith is open from 9 a.m. to 12-noon. Its supervisors are Max Sommerville and Betsy Edgar.

Farrand is open from 9:30 a.m. to 12:30 p.m. and Ellen Elias and Diana VanLoo are the supervisors there. Hours for the Hamilton St. playground are from 1:30 to 4:30 p.m. Miss Elias and Miss VanLoo also supervise that playground.

Bird playground is open from 9 a.m. to 12-noon and its supervisors are the same two young adults who supervise Allen playground. Miss Edgar and Bill Drudge are supervisors of the Starkweather play area which is open from 1-4 p.m.

Each of the six playgrounds had an average daily attendance this year in excess of 35 youngsters, Bearup reported.

## Jaycees Send Local Pair to Tennis Meet

The Plymouth Jaycees have contributed \$130 in order to send two Plymouth teenage tennis players to the Western Tennis Championship matches at Springfield, Ohio.

Dave Tidwell and Jim Bruff, the two players, arrived in Springfield Sunday and were scheduled to compete in both the singles and doubles events this week.

Tennis coach Jim Stevens had issued a community-wide plea recently to raise the funds needed to send the two tennis players to the matches, and the Jaycees responded.

An estimated 128 contestants will compete for honors in the tourney. Some contestants are from foreign countries, Stevens said. It is an amateur tournament, with both 18-and-under and 16-and-under divisions.

Tidwell and Bruff will compete in the 18-and-under class. Before leaving for Ohio Sunday, the two Plymouth youths competed in a portion of two other amateur tournaments. One was the Detroit Junior Parks tennis championship and the other was the Hazel Park tennis tournament.

Corvair 700 Club Coupe

## The hardest part about parking a Corvair is finding a nickel

That may be a slight overstatement, but such jauntiness comes easily when you're a Corvair owner.

And you can usually back it up—as easily as you can back up a Corvair. You'll find yourself doing that occasionally, if only to adjust the brakes—they're self-adjusting. That's all there is to it, and that's a good example of how delightfully easy Corvair is to own, drive and maintain.

But since we began by talking about driving, let's stick with that awhile. A large factor in the fun of driving a Corvair is the location of its engine in the rear. Why the rear? It gives Corvair extra traction on any road surface. It provides a nearly flat floor for more useable interior space. Best of all, it produces steering so light, so responsive, you wonder why no other American-made car thought of it.

Corvair's engine is also air cooled, we might add, which means there's no antifreeze or water for you to add. Ever.

All that pleasure from something so practical almost makes you think Corvair is unique among American cars. Which isn't surprising, because it is!

Chips from the ROCK By Sidney Strong Chairman of Plymouth's Planning Commission

The Publisher has given me an honor which I very much appreciate in asking me to write one of his columns.

These "Chips" are from an older rock than that usually used in building this column, and the rock has a different grain — but maybe that will mostly make for variety.

The "Rout" of the circus that summer started at Salem, Massachusetts and wandered through New York, Ohio, Michigan and farther west.

Well, my second Chip is about an idea that has been growing in my mind for some time about the future of Plymouth.

A loss in valuation means loss of taxes. So the City loses two ways — in money and appearance and maybe in civic pride and morale.

But this subject merits serious thought and study by the City, business men and every citizen property owner in Plymouth.

I could point out one of our oldest streets, with houses probably older than I am, which presents a picture of well painted houses, well kept lawns and a general air of residential pride.

This is evidence that age doesn't necessarily mean decadence and that civic pride can show anywhere. On another of our oldest streets the City is planning concrete curb and gutter to "dress up" the road.

Then, possibly, one even might live and dress to match! Who knows? Guiding our citizenry in this program for a better looking City, with renewed life for buildings and an uplift in morale due to the fresher, cleaner look to our city, might be the City itself, or the Chamber of Commerce, or the Jay-Cees, who like projects, or the other service clubs.

Of course the Federal people are ready to help with partial financing and chance for lower rates for loans for improvement. But I hope I am right in thinking that there would be much more pride and satisfaction in doing all this work here at home with local cooperation and financing.

We might as well spend our money here where it will do some good rather than to send it to Washington to send it back here — at a price. Prizes might be offered for phrases of improvement in neighborhood looks — or... you use your own imagination. The possibilities have almost no ceiling.

I have heard some criticism of the motto on our city seal — "A City of Homes". Of course business and industry are vitally necessary to our "tax base". But a city of only business and industry without homes would be a sad place.

Letter to the Editor

The Plymouth Mail Plymouth, Michigan Dear Editor:

Congratulations to Mrs. Dorothy Jewell for breaking the silence on segregation in Plymouth. Our city is currently expending much energy in the attempt to solve some of the physical problems facing it such as water supply, urban renewal, attraction of new industry, and keeping the business district vital.

We should be doing this with particular relation to Plymouth. Mrs. Jewell's questions about the lack of Negro employment and residence here are very apt. We should be trying to answer them and to correct the condition.

Plymouth is adjacent to a number of county and state institutions which are "equal opportunity employers" — they hire qualified Negroes at all levels. Many of the white employees of these in-

situations live in the Plymouth community. Why do none of the Negroes? It is not unreasonable to expect that some might want to avoid commuting from Ann Arbor or Detroit.

Whatever the reason for the situation as it now exists, the altering of it will depend in great part on whether the residents of Plymouth are willing to express themselves in favor of an integrated community where all Americans may seek employment and residence without hesitation.

Sincerely yours, Margaret J. Kauffman 720 Parkview
