Ralph Lorenz Becomes Mayflower Hotel's Sole Ow

Plymouth's famed Mayflower Hotel passed into the hands Friday of the man who has guided its operation closely and lovingly during the past 26 years.

Ralph Lorenz, operator and manager of the hotel since 1939, announced that he had purchased the stock in the hotel from its more than 100 shareholders and has now become sole owner hostelry.

Four 12-year-old boys confessed Monday to the Plymouth police that they were the vandals who had sprayed paint on the property of three Plymouth churches over the weekend.

Their admission came after the vandalism had aroused the ire of the community when it was noticed before church services began Sunday morning. Painted obscenities and multi-colored streaks were part of the vandalism at Our Lady of Good Counsel Roman Catholic Church, the First Church of Christ, Scientist, and St. Peter's Lutheran Church. the United States:

It's official ! ! The 1965 Plymouth Community Fund Drive has gone over the top with a few dollars to spare.

That was the announcement Monday by General Chairman John Kamego after receipt of final figures from United Foundation officials in Detroit.

Kamego announced that the Plymouth drive has netted \$86,315.34 compared to the goal of \$86,083.

Kamego took the annual Victory Dinner by surprise early in November when he announced a total of \$56,000 had been raised at that time with more to come when the final figures were released by the UF.

"We feel that we will go over the top," said Kamego at that time. "However, I don't believe we should announce figures at this dinner on an if-come basis - that is by estimating what will come from the United Foundation. We know there are hundreds of hard-working Observer Want Ad, and here's my system: I turn things you don't need into quick cash, by finding you buyers. Selling or Buying . . . But we don't have any idea of the total and there isn't any sense to making an estimate. "Every member of our group of diviworker."

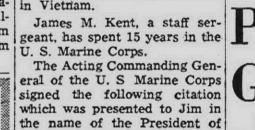

sion leaders and team captains feel certain we will go over the top - we'll know for sure sometime in December."

Sure enough, Kamego received the UF reports a few days ago, checked the totals with his leaders and discovered Plymouth had a real reason to celebrate with a total of \$86,315.34.

"We don't have a complete breakdown at this time but the figures do show that contributions from Ford and General Motors workers from the community are up 30 per cent over a year ago. The gifts from those residing in and working in the community are up five per cent and when it is all added together, Plymouth has done it again gone over the top of a record budget."

3

Kamego reiterated his praise for the brilliant efforts of all workers. "We knew we had a big job ahead when the drive started," he said. "It posed a big challenge and that's all Plymouth needed to make everyone work harder than ever. We met the challenge again and I most certainly offer thanks to every single

Marta, the occasion on which junior daughter of Mr. and class students receive Mrs. Emmanual Marta, their class rings. The

rings were blessed by school authorities and a breakfast sponsored by juniors for the senior class.

Afterward, the two left in Carol's car and apparently headed west on Ford Road toward Ann Arbor.

They were killed when a cement truck driven by Jerry Lee Hurst, 24, of 30941 W. Seven Mile, Livonia, bore down on the car, crushing it, according to police, to a height of about three feet.

State Police said the car, driven by Carol. had swung out onto Plymouth Rd. from Ford Rd. at the intersection of the two streets about nine miles east of Ann Arbor.

Police said the girls had been in a gas station near the intersection, had asked directions of the operator there and when they pulled out onto the street apparently ignored a red flasher light.

The truck struck the car which was wedged

between the front and rear wheels of the truck and was dragged several feet from the intersection.

Police and ambulance workers could not remove the girls' bodies from the wreckage for more than an hour. Both were pronounced dead on arrival at the University of Michigan medical center.

Nadia is survived by her parents and two sisters, Nellie and Frances. Carol is survived by

Marilyn, and grandpar-ents, Mr. and Mrs. Salvatore Collura.

tributing third quarter Motor Vehicle Highway Fund collections to Michigan counties and incorporated cities and villages including the areas in The Observers' circulation area.

Howard E. Hill, State Highway Director, said net receipts of the Highway during July, August and September of 1965, amounted to \$52,436,035, an increase of \$3,376,660, or 6.9 per cent, compared to the same period of 1964.

The increase reflects a sharp upturn in summer vacation travel compared with 1964, Hill said.

Totals for the first nine months of the year ceipts during the first nine months of 1964, he said.

Increased maintenance costs and an intensified safety program costing an added \$3 million this year will absorb the Department of State Highways' increase leaving no new revenue for new construction, he said. Wayne County's share

of the total will be \$3,652,535 and Oakland County will get \$1,127,-816 of the total.

Individual communities in The Observer's circulation area will get these amounts: Farmington \$11,210

Consumers Power Presents Bonus for "Koffee Klatchers"

Holiday time is the happy time for the hostess who loves to entertain people in her home. Everyone is on their mettle to devise new and intriguing dishes. Things which can be prepared quickly and served with a beverage are much in demand.

Consumers Power Co. has come up with an ever so helpful method for introducing the home-maker to new and exciting ways of cooking and house-keeping.

Several times a week from now until the end of the season, Pat Yohey and Janet Olsen, Home Service Representatives, will demonstrate their holiday recipes and decorations for various local organizations that gather at the Consumers Power Colonial Kitchen, at 11801 Farmington Rd. in Livonia.

If your women's club hasn't gotten around to making a reservation, you can drop by yourself to see the decorations and equipment but better check ahead and make sure Pat and Janet are there. There is no charge for their services. However, they allow clubs to make money for their group.

For those who think kitchen chores are sheer drudgery, they would experience a quick change of mind, if they saw Pat and Janet in their attractive blue and gold kitchen performing their duties in shell pink tunics. Glamour is definitely

Pinata Party

The students in the Spanish classes at the Longacre School in Farmington had a Christmas party, Spanish in theme, Saturday, Dec. 11. They were given a plastic baseball bat, and told to swat the pinatas. When they struck a certain spot, the side fell open, and out came a stream of toys and candy for the lucky winners. The pinatas were made by Mary Checketts of the Longacre

Kerby Named **Chief Inspector**

Director of Public Works Robert A. Shaw announced the appointment of Frank A Kerby as the new Chief Building Inspector for the Livonia Bureau of Inspection this week.

Kerby has been for the past

5½ years a building inspector. Prior to coming to Livonia, Kerby was a building inspector in Dearborn for over nine years. In his new position Kerby will be responsible for the supervision of 25 employees and the administration of a budget slightly under a quarter of a million dollars.

Kerby has been a resident of Livonia for the past nine years; was on the Building Committee, the Board of Directors and Chairman of the Pools and Grounds Committee of the CB Swim Club. In addition, he has been a Committeeman and charter member and treasurer of Boy Scout Troop No. 851. He was a charter member of the Buckingham Village Civic Association and also served on the Board of Directors, chairman of the board and chairman of the

Schurch, who first joined Bathey in 1953 as a draftsman, has, for the past three and a half years been Manager of manufacturing for the firm which produces stampings and materials handling equipment.

Earlier he served Bathey as an Engineer, Ass't. Production Manager, Estimator and Plant Superintendent.

A native of Waltz, Michigan, Schurch attended Romulus high school and Henry Ford College, Dearborn. In 1946, with the Army in Germany, Schurch was engaged in post-war re-construction projects. An enthusiastic pilot, he flies his own plane.

With his daughter, Schurch makes his home at 9238 Montana in Livonia.

Businessmen's Classes Set in Livonia

At a time when business is good and promotions occur more frequently, many suburban men and women enroll in practical commercial courses which will help them get a better job or to increase their income.

According to Mrs. Dorothy Wyllie of the Livonia adult education office, winter term registrations in business education are always high and she recommends early registration next month.

Besides standard courses in bookkeeping, business English, accounting, shorthand, and typing the evening school program offers challenging courses in data processing and investment in stocks and bonds.

All of the business education courses are centered at Bentley High, Hubbard near Five Mile Road, except the stock market and investment course which will be given at the Whitman Junior High School, 32235 West Chicago, between Merriman and Farmington, on Monday evenings from 7:30 to 9:30. The fee for all students, regardless of where they live, is \$9 for the ten-week course.

'Y' Offers Adult Classes

The Northwestern YMCA. Seven Mile and Lahser Rds., will offer a wide-range winter program for adults starting Jan. 10. Among the course offerings are Women's Contract Bridge I and II, Couples Bridge, Understanding Insurance, New Mathematics, Income Tax Clinic, Yoga, Interior Design, Great Decisions, Oil Painting, Adult Judo and Women's Self Defense.

Further information on schedules and costs is available by calling KE 3-3700.

Tax Time Coming Up --Set Class

Want to become more expert in income tax matters?

The Livonia board of education will offer a new course, beginning in January, to help suburbanites do a better job of filling in those annual tax forms. The class will meet for five weekly sessions starting in January, at Franklin High School.

The group, lead by tax expert, Lawrence Sutherland, will meet each Wednesday night from 7:30 to 9:30. The fee for this short course is \$5. for both residents and non-residents.

"Many people are needlessly frightened by income tax forms," Sutherland said, "They are not really as formidable as they seem. A little study and understanding of the tax law can often result in substantial tax savings from year to year."

Montezuma, Iripoli Marine Private Robert L. Guthrie, son of Mr. and Mrs. R. W. Guthrie of 30834 Roycroft, Livonia, has been graduated from Marine recruit training at the Marine Corps Recruit Depot at San Diego, Calif.

sponsor a "Christmas Ball."

Although much has been written about the dedication and opening of Stevenson High School, in behalf of the student body we would like to take this opportunity to express our appreciation to those responsible for the excellent planning and execution of the move into the new facility. The difficult task of arranging the smooth transfer of more than 1300 students with new bus schedules, locker assignments, and so forth, was efficiently accomplished.

Mr. Murray Lyke, an electricity and speech teacher, seems to summarize the feelings of many in regard to entering Stevenson.

"Although it is much hard work, and will continue to be, I am glad to be in the new school and on a normal schedule. Equipment is coming in slowly and problems are complex in this respect, but we are fortunate to have what we do have."

The Student Council is work- and athletically.

Kindred For Council

The time is fast approaching when we the interested citizens of Livonia should stop and think about the up and coming election of the men who

what has been accomplished and what should have been ac-

now represent us as our city

some will feel that a well earned rest is needed and want to their families.

The council, I believe, should be composed of men of two standings, some with the experience and wisdom of time spent on the council, and some with their inspiring new ideas and filled with the enthusiasm and citizens' interest which makes the council so important to a fast growing city such as we live in. The wisdom of our present council saw this need and appointed a man who is of this caliber and is now serving us, Coucilman Ed Milligan. And it is evident that he is a man not only of ideas but action and devotion to his newly acquired job.

Now is the time that we as interested citizens should be calling or writing the person or persons that they feel could take a seat on the council and carry on this most important job.

Some well qualified persons are undoubtedly awaiting for some encouragement to get in the running, knowing they have some support.

One well known civic leader who I feel could take a seat on the council and I hope he will seek election is George Kindred, a man well known for his great civic accomplishments such as being the first President of The New Federation Of Livonia's Civic Assoc-

Alfred Hitchcock would have to the Tax Commission to start shaken his head in disbelief.

It was back in 1952 when Brookdale first came to the attention of the populace as being "different." It started with the death of Saul Lewis in Detroit. He was a partner in the Lewis Brothers Mortuary and also had an interest in the cemetery. What a combination!

There were charges, never proven, that he was strangled. An autopsy later revealed that death was caused by a heart attack, occasioned by "severe pressure on the neck."

Little was heard of Brookdale from then until 1954. This was the year in which Elbert Hartom, a gray-haired chicken farmer from the northeast section of the city, lead a Democratic group called "The Monitors" to a virtual overthrow of the city government. And with his election as Mayor things began to happen.

One of his first appointees was a short, curly-haired fellow named Russell Ashmore. Mayor Hartom chose him as his City Attorney - but forgot to recommend a salary and this oversight became part of the drama in a later act.

Ashmore went to work with fervor - inside and outside of City Hall. It wasn't long until he charged that a jockey had been murdered at the Detroit Race Course and hustled to Brookdale for burial. There were rumors that, in the dead of night, he went to the cemetery and dug up the body to substantiate his charges.

That's Fine. But folks have every reason to wonder if this is the final curtain or the start of another

A Continuing Thread

Paul Chandler was not a man who would want to be "remembered" on the anniversary of his death each year with a sentimental editorial "tribute."

And that is not our intent today.

But it has been a year to the day since Observer staff members filed out of the church from his funeral, wondering in which direction, how and when, our newspapers would go.

The answer to that very personal query has been lived out by each of the 40 employees of this newspaper on a weekly basis ever since. Because The Observer staff feels a personal kinship to the readers of this newspaper, we are taking this occasion to share our feelings.

Our late publisher saw THE OBSERV-ER'S primary task as one of serving the community with an honest, lively and provocative newspaper-to stimulate debate and to attack apathy.

And he instilled this fervent desire into everyone who worked under him.

His efforts, we think, paid off. Today, we are pleased that The Observer draws scores of letters-to-the-editor each week from readers who have something to speak out about.

We welcome the telephone calls, the appeals for assistance in solving personal and public problems.

We welcome the news tips.

To our new and challenging competition, we bid a welcome.

And we welcome even those telephone callers who ask us to cancel their paper because they disagree with a stand we've taken. We're glad we have stimulated them.

We welcome the opportunity to expand our service to other communities. Garden City and Nankin Township, where The Observer has begun new editions since Paul Chandler's death, have pleased our staff with their community spirit.

We say all of this today without selfsatisfaction and without a desire to toot our own horn. But each of these indicates to us the best kind of tribute that Paul Chandler would like — the knowledge that his early guidance has kept the newspaper on the track he started to build.

Paul used to tell all of his employees that the newspaper would continue without his presence. And the collective spirit, the dependence upon teamwork rather than upon the individual, has proved him right.

"The only thing certain in life," he often said, "is change."

There have been changes on the staff of this newspaper. There will be more.

But through all of the individuals who make up this newspaper's team, past, present and future, the strong thread of principled journalism which our late publisher developed will Editor: continue to be woven.

Medics Versus Osteopaths

Integration plagues not only races and nationality groups - it also causes consternation in the ranks of medical doctors who eye the osteopathic profession with wild anxiety.

So far, medics have succeeded in barring their rivals from practicing in four hospitals, publically supported by 23 cities and townships (including Nankin and Garden City) that comprise the Peoples Community Hospital Authority' but the osteopaths are straining at the bit.

In April of 1964, the authority amended its by-laws to permit the admission of osteopaths but so far only one has been granted permission to use the hospital facilities in Ypsilanti.

Since that date - a period of 18 months, 85 osteopaths have applied but no action has been taken.

Osteopaths have been denied the right to

practice in the 650-bed, municipally-owned Hurley Hospital in Flint.

By contrast, in Livingston County, between Lansing and Detroit, osteopaths and medical doctors have been using the facilities of the McPherson Community Health Center for a number of years.

Osteopaths are licensed by the State of Michigan to practice healing. They are also taxpayers in the areas where they live and ply their profession.

Consequently, they should have the same privileges as the EmDees in use of public tax- they expect to be ordered to the way to make a paper stimulat. Editor: supported facilities.

With some properly applied pressure from citizens who believe in justice for all, maybe we can help solve integration problems in more areas than one.

How many more innocent little children who depend on man-made laws to protect them must sacrifice their lives as did little Sharon Borg of Garden City on Nov. 16?

Neighbors are up in arms over the lack of protection. Cherry Hill and Henry Ruff needs a light desperately.

Police Chief Maurice Foltz of Farmington said a traffic light is needed at Powers Road and Grand River to break the flow of traffic. Many students attend Our Lady of Sorrows grade and high schools-unprotected.

a special session this month to get rid of legislation that should have been passed earlier but wasn't.

A crucial matter the House considered was a Special Higher Education Appropriations described by Rep. Vincent J. Petitpren, D-37th, as "A \$1.2 million appropriation proposal which would be allocated among the smaller state colleges and universities to compensate for greater enrollments than anticipated when the general appropriation bill was passed."

What Mr. Petitpren fails to mention is that the "greater enrollments than anticipated" were created when the legislature failed to back up with action a verbal promise. Last spring, when members of the Senate Appropriations committee visited the smaller state schools, legislators promised the college presidents that if enrollments were increased a reward of an additional appropriation would be made.

And so the smaller colleges, believing the

Our House of Representatives is meeting in legislature had spoken in good faith, admitted extra students only to find out the monetary bonus was not forthcoming. The appropriations had been passed but were vetoed once by Governor Romney and a second time by Acting Governor Milliken. Once again the appropriation has been defeated.

> Some of the smaller schools in Michigan are already experiencing financial difficulties because of the added student load and are debating which services should be deleted since the legislature has failed to keep its promise during the speical session.

The problem is one of beneficent legislators promising appropriations to college presidents when actually they do not possess a guarantee that such appropriations will be passed. Rep. Petitpren now feels, however, that the State Editor: can keep its promise to the smaller colleges funds. And so it appears the honor of our tween two of your Dec. 1, 1965, juries-logging. Franklin outlasted North Farmington in what amounted to an upset, 63-61, while Thurston literally bombed John Glenn, 92-52.

You couldn't ask for a game much closer than the Franklin-North Farmington battle.

After Franklin jumped ahead, 19-14, after one guarter against North Farmington, the team picked by the experts to fight it out with Groves for the title, North Farmington rebounded to tie the score at 31-31 at half time

It was still deadlocked after three quarters-the score reading 51 each.

Putting one word after another-

North Farmington high school's gymnastic team is going "big time" next Friday evening.

The Raiders will perform at halftime of the Detroit Piston-Boston Celtics National Basketball Association game at Cobo Arena.

Gymnastics is a new sport on the interscholastic scene. North Farmington is one of the few teams hereabouts to sponsor such a team.

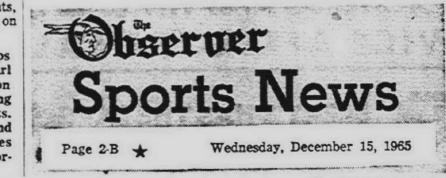

It's another of those fine activities which afford a great many preps a chance to perform . . . and it makes no difference whether they're boys and girls.

For Friday's exhibition, only the gentlemen will perform.

Another prep sport invading the southern part of Michigan is skiing.

The availability of ski areas within an hour's ride of most schools in the district figures to prompt several to take the forward step within a year ago.

Skiing also is a sport for boys and girls. If you didn't know it, they hold lower and upper peninsula state meets in Michigan every year. The Detroit News also stages a big prep ski meet every year . . . providing the heavens let loose with some

DUFFYISM OF THE WEEK

On the subject of schoolboy sports, did you know had 30 charity chances and that wrestling has attained major status in Michigan?

The mat activity has caught on in a big way at virtually all of the schools hereabouts . . . and you'll find crackerjack teams at such schools as Thurston, Bentley, Farmington and Garden City East.

The "beauty" of wrestling is that it makes no difference how big or how small a boy is physically. He can weigh 95 pounds or 250. There's always an opponent for him in his weight and physical bracket.

Fan interest in wrestling also is in the upswing. Most matches draw several hundred.

As we've said before in this column, schoolboy wrestling is nothing like what you see on television when Dick the Bruiser or the Mad Russian act.

The preps go through skillful moves for which they fouled on the play and calmly iod to pull away to an easy win. are awarded appropriate points. If you missed the item on this page a few weeks back, Livonia's new Stevenson high school will enter the Interlakes Athletic Conference starting next fall.

Stevenson will be matched against Farmington, Waterford, Walled Lake and Pontiac Northern. It's likely the loop will add a sixth team in a year or two.

Pleasant thought: The day after New Year's on Miami Beach with the Pistons for their game with the San Francisco Warriors.

Never saw the pro cagers as excited about a single game as both the Pistons and Warriors are about going to Florida.

Members of both teams besieged us at Cobo Arena the other day about making certain a hotel on the beach was secured for the occasion.

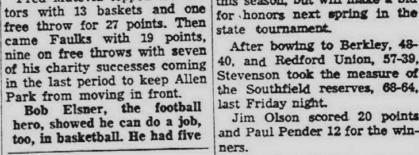

"Gotta enjoy that sunshine," said Guy Rodgers, the great guard of the Warriors.

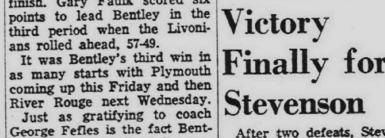

You'd think one game or one trip wouldn't mean that much to a band of athletes who in the course of a year travel coast to coast several times and upwards of 50,000 miles.

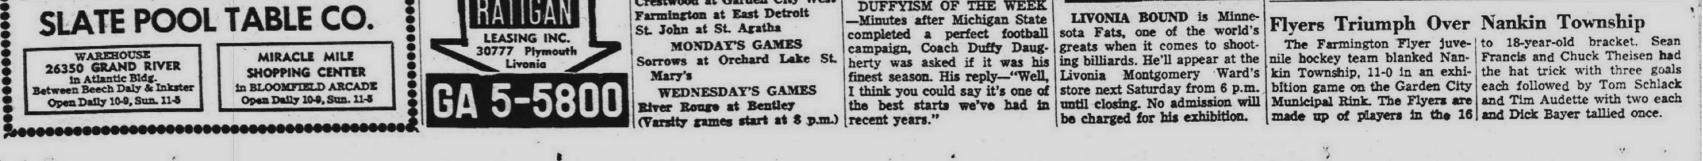

Just take a peep at the Pistons' schedule for this holiday period.

They were in New York Tuesday night . . . back home Friday night against Boston . . . at Baltimore Saturday night against the Bullets.

Home Sunday through Tuesday afternoon when they're off to San Francisco, Sacramento and Los Angeles . . . Then it's Toledo, Detroit and Fort Wayne ... before a hop to Baltimore, Miami Beach, Dayton and Toledo.

Rebounds Win for Falcons

The name of the game - in basketball - is rebounding. Just ask any expert. Nobody

disagrees on this subject. Farmington high enjoyed

command of the boards last Friday night and the result was a 72-62 victory over Port Huron Central to bring the Farmington record to 2-1 for the season.

"We got 32 defensive rebounds." said Farmington coach Jack Quiggle. "That figures out to one a minute and it sure made a difference."

Quiggle, in particular, praised the rebounding of Center Mike Ames who nabbed 12 rebounds along with scoring 10 baskets and two free throws for 22 points, and Steve Moore, who hauled in 11 rebounds, although he was held to just seven points.

Farmington swarmed ahead, 21-15, after one quarter and held a 38-26 halftime command. By the end of the third period, the Falcons were rolling, 61-40, and the substitutes were getting their chance to play.

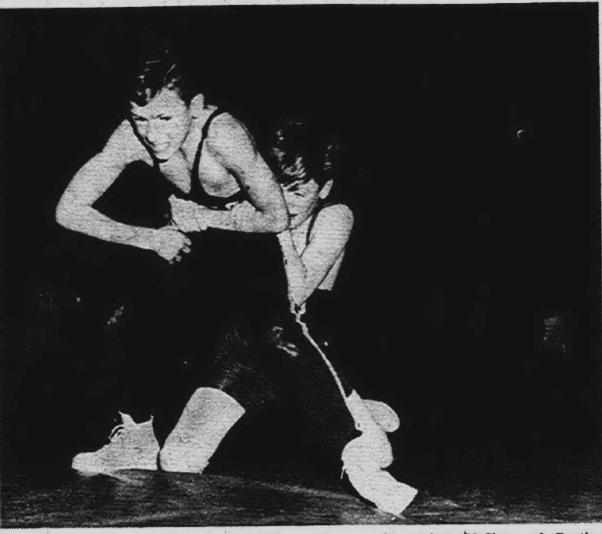

"I also liked the aggressiveness our team showed." said Quiggle. "We didn't let up at any time."

Besides Ames, Farmington boasted two other scorers in double figures. Mike Wilson notched 10 baskets and one free throw for 21 points and Greg Dorow chipped in with six and under the lights at Tiger Statwo for 14.

George Habict and Dan Saturday by the Tigers. Miracle tallied three points each and Fred Simon two.

McKillop was referring to the final statistics. Clarenceville made 21 out of 70 tries from the floor for around 30 percent. Northville, one of the league's powers, was held to 18 baskets in 46 attempts for just under 40 percent.

This meant that free throws decided the issue. Northville fired in 22 out of 39 to Clarenceville's 15 of 28.

"We'll have the balls bouncing in for us one of these nights," added .McKillop as he returned to the subject of shooting. "We're bound to be more fortunate, as long as we take the good shots."

Clarenceville led most of the way. But in the fourth period. Northville shot from a 41-39 deficit to a 47-41 command.

A basket by Jerry Imsland with three seconds left actually sewed up the game and offset a 40-footer by Clarenceville's Fred Neal at the buzzer. Neal and Jim Amick provided the big punch for Clarenceville with 20 and 18 points, respectively. Ray Ray scored only four points, but helped considerably with his fine rebound-

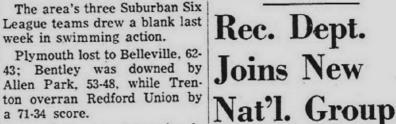

Imland was held to only ten points as Jim Zayti paced the winners with 16 points.

Coulton's first assignment was as a curate in Christ Church, Dearborn. The next year, he came to Livonia.

Livonia, he recalls, where he 'gambled" his church away.

At the time St. Andrew's was booming, the General Motors Corp. offered the Martha-Mary Chapel at Willow Run to any church which needed it. The contest narrowed down to St. Andrew's and one other church, and GM decided to toss a coin. "Being a gentleman," said Jay. "I let the other fellow call it - and, as luck would have it, he won the building."

At another time, in those early days, Coulton recalls an outdoor breakfast, scheduled to follow a Sunday morning service.

"We had prepared scrambled eggs at homes of members," he said. "But when it came time to serve them, they had turned green.

"Today they're buried somewhere on the church property, and sometimes when the wind blows. . . ."

He notes that Episcopalians have taken an active role, in the civil rights movement. "From the Christian viewpoint, Christ came for the world, and we must minister in every way possible to meet the needs of the people," he said.

Coulton was married in 1936 to the former Isabel Rupert and has two daughters, Kathy and Sally, and a grandchild, Julie. Before leaving Livonia, this week, he was honored at a party Friday night given by the Livonia Citizens for Better Human Relations at the home of Obler.

A citation from the group (he was similarly honored by the Livonia City Council last month) reads: "Whereas he was instru-

HUMAN RIGHTS WEEK is proclaimed this week in Livonia by Mayor Harvey Moelke (right) to Donald Murch (left), president of the Livonia Citizens for Better Human Relations.

It also assists members of minority groups who contact it, seeking help in buying homes here. "We provide moral backing to them," Murch points out, "by showing them that there are people here who are nondiscriminatory, who welcome

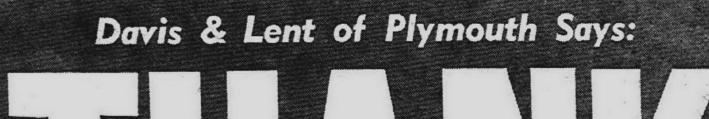

them."

The Legal-Legislation Committee keeps the membership abreast of current laws, and is its liaison with the City Council. Its chairman will represent the group in discussion on the new Human Relations Commission ordinance.

At election time, the group holds open forums at which candidates are quizzed on their attitudes toward human relations issues. It has distributed 25,000 copies of a brochure explaining its purposes and goals through the churches in Livonia. And it publishes a monthly newspaper, the Livonia Letter. Monthly meetings, held in churches and open to the public, will feature anything from a general discussion on the group's goals to speakers from civil rights groups or films on problems of integration.

Industrialist Jack Spanich, who operates Spanich Bonding Corp., near Five Mile and Merriman in Livonia, is the reason. In Mexico for six months on a business trip, Spanich took along a camping trailer packed with toys, candy and other items for children in Acapulco.

> This, his second trip to Mexico in a year, was preceded by a fund drive among Livonia businessmen. The Livonia Welding Supply Co., Pat Aluminum Co., Mid-Five Auto Supplies, Mimi Fuller and Spanich's own firm, contributed money to buy the kids' surprises.

Among them were two footballs. Spanich, and Hernan Molina, columnist for an Acapulco newspaper, turned out as coaches, and they report the kids are taking to the game well.

In his latest letter home, Spanich says, "All the young-sters here wish to say to all of you: Hello, Livonia, and thank you ever so much. God bless you all."

"AN APPEAL TO YOUR OWN GOOD JUDGMENT

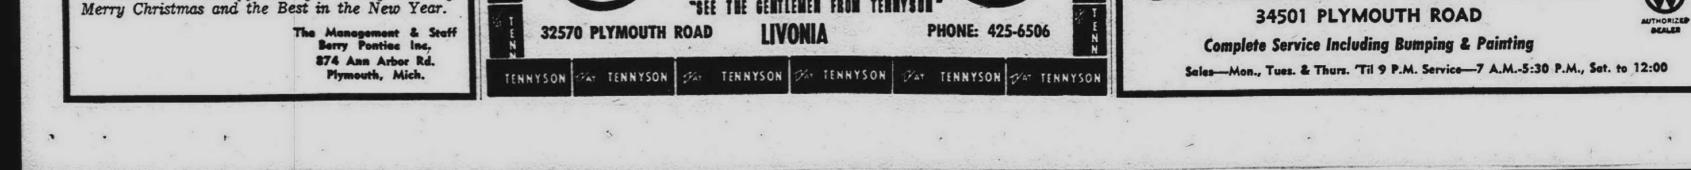

This is an appeal to the people in this area to use their "Common SENSE and GOOD JUDGMENT" in purchasing a new or used car! Like any business we must sell our merchandise for slightly above, at or near our cost in order to survive, and a nything added to our cost, must be passed on to the consumer. This means that the so-called, "FREE TELEVISION SETS, TRIPS, TURKEYS," or you name it, has to be paid for, and you the customer are the one who pays.

However, there are times when a businessman must offer "SPECIAL INDUCE-MENTS" to sell their products, and "NOW IS THE TIME." We at BERRY PONTIAC offer the finest selection of new '66 PONTIACS we have had for sometime, we have the finest selection of the very best used cars in excellent condition, APPEARANCE and MECHAN-ICALLY and at the lowest possible price, not inflated with the cost of "GIMMICK ITEMS." When the "SPRING MARKET" arrives there will be a greater demand for these cars and prices will rise substantially. If you need to replace yourpresent car, or find the need of a second car, your GOOD JUDGMENT will tell you to do it NOW at BERRY PONTIACS low, low price.
